REGULATION (EEC) No 1757/74 OF THE COMMISSION

of 5 July 1974

fixing the components used to calculate the differential amounts for colza and rape seed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 136/66/EEC [1] of 22 September 1966 on the establishment of a common organization of the market on oils and fats, as last amended by Regulation (EEC) No 1707/73 [2];

Having regard to Council Regulation (EEC) No 1569/72 [3] of 20 July 1972 laying down special measures for colza and rape seed, as last amended by Regulation (EEC) No 3477/73 [4], and in particular Article 2 (2) thereof;

Whereas Article 2 (1) (a) of Regulation (EEC) No 1569/72 specifies that the differential amounts for those Member States which keep their exchange rates at any given moment within a band of 2·25 % must be determined by taking into account the incidence on prices of the percentage representing the difference between:

— the conversion rate used for the purposes of the common agricultural policy; and

— the conversion rate resulting from the central rate;

Whereas this leads to the fixing of differential amounts which remain constant as long as the factors used to calculate them remain unchanged;

Whereas, applying the new method of calculating differential amounts to Denmark, no such amounts should be fixed for seeds harvested in that State and processed on or exported from that State;

Whereas under Article 2 (1) (b) of the aforementioned Regulation the differential amounts for France, Italy, Ireland and the United Kingdom are to be determined by taking into account the incidence on the price of average percentage representing the difference between:

— the ratio between the conversion rates used for purposes of the common agricultural policy for the currency of the relevant Member State and the Member States which keep their exchange rates at any given moment within a band of 2·25 %; and

— the spot exchange rate recorded over a given period for the currency of the relevant Member State against each of the currencies of the Member States specified above;

Whereas Regulation (EEC) No 2300/73 [5], as last amended by Commission Regulation (EEC) No 214/74 [6], lays down detailed rules for the application of Regulation (EEC) No 1569/72;

Whereas from the begining of the new marketing year account should be taken during the fixing of the components used to calculate the differential amounts of the improvement of prices resulting from Article 5a of Regulation (EEC) No 1569/72;

Whereas, applying the rules and criteria set out above, the components used to calculate the differential amounts should be fixed in accordance with the Table annexed to this Regulation;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

1. The components used to calculate the differential amounts provided for in Article 1 of Regulation (EEC) No 1569/72 shall be as listed in the Annex.

2. The components fixed in paragraph 1 shall be applicable at the request of interested parties from 1 to 7 July 1974.

Article 2

This Regulation shall enter into force on 6 July 1974.
