REGULATION (EEC) No 2352/74 OF THE COMMISSION

of 13 September 1974

amending Regulation (EEC) No 2263/74 as regards certain conditions for the private storage of pecorino romano cheese

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 804/68 [1] of 27 June 1968 on the common organization of the market in milk and milk products, as last amended by Regulation (EEC) No 662/74 [2], and in particular Article 9 (3) thereof;

Whereas Commission Regulation (EEC) No 2263/74 [3] of 30 August 1974 introducing in respect of the 1974/75 milk year private storage aid for pecorino romano cheese lays down that storage must be in premises where the maximum temperature is + 6 °C; whereas it has been found that this temperature is too low for the cheese to be properly matured by the end of the storage period; whereas it is therefore necessary to amend the provisions in question to take account of technical requirements;

Whereas, on the other hand, any increase in the required temperature will enable cold storage costs to be reduced; whereas it is therefore desirable to reduce accordingly the amount of aid fixed;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

Article 1

1. In the first indent of Article 2 (1) (d) of Regulation (EEC) No 2263/74, '+ 6 °C' is replaced by '+ 10 °C'.

2. In Article 4 (1) of Regulation (EEC) No 2263/74, the expression '1·29 units of account' is replaced by the expression '1·25 units of account'.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 13 September 1974.

For the Commission

The President

François-Xavier ORTOLI
