# REGULATION (EEC) No 2901/74 OF THE COUNCIL

## of 7 November 1974

## establishing Community supervision of imports of certain products originating in Austria

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof;

Having regard to the proposal from the Commission;

Whereas an Agreement [1] between the European Economic Community and the Republic of Austria was signed on 22 July 1972;

Whereas Articles 2 and 3 of that Agreement make provision for the progressive abolition of customs duties in respect of the products to which the Agreement applies; whereas by way of derogation from these Articles, Articles 1, 2 and 3 of Protocol 1 annexed to the Agreement lay down that, for imports of certain products listed in Annex C to that Protocol, the reduction of duties shall be limited to indicative ceilings above which the customs duties applicable to third countries may be reintroduced; whereas application of this last provision requires that the Community be regularly informed of the trend of imports of the products in question originating in Austria; whereas it is, therefore, desirable that imports of these products be subjected to a system of supervision;

Whereas this objective may be achieved by means of an administrative procedure based on setting off imports of the products in question against the indicative ceilings at Community level, as and when these products are submitted to the customs authorities under cover of declarations that they have been made available for consumption; whereas this administrative procedure must make provision for the reintroduction of customs tariff duties as soon as the ceilings have been reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission; whereas the latter must, in particular, be able to follow the progress of amounts set off against the indicative ceilings and keep the Member States informed; whereas this cooperation must be all the closer since the Commission must be able to take adequate measures to reintroduce customs tariff duties whenever one of the ceilings has been reached;

Whereas, for the products which, in accordance with Articles 2 and 3 of the Agreement, are subject to the normal timetable for the abolition of customs duties it is necessary to follow the trend of imports; whereas to this end the Community should be empowered to take, where appropriate, measures to avoid any prejudice to industry in the Community; whereas it is, therefore, desirable that imports of these products also be subjected to a system of supervision,

HAS ADOPTED THIS REGULATION:

*Article 1*

1. From 1 January until 31 December 1975, imports of products originating in Austria to which annual indicative ceilings are applied in accordance with Articles 1, 2 and 3 and Annex C to Protocol 1 of the Agreement between the European Economic Community and the Republic of Austria shall be subjected to Community supervision.

The description of the products referred to in the preceding subparagraphs, their tariff headings and statistic numbers and the levels of the indicative ceilings are given in Annex I.

2. Amounts shall be set off against the indicative ceilings as and when products are submitted to the customs authorities under cover of a declaration that they have been made available for consumption and accompanied by a movement certificate conforming to the rules contained in Protocol 3 of the Agreement referred to in paragraph 1.

[1] OJ No L 300, 31. 12. 1972, p. 1.

Goods shall be set off against the indicative ceiling only if the movement certificate has been submitted before the date on which customs duties are reimposed.

The reaching of a ceiling shall be determined at Community level on the basis of imports set off against it in the manner defined in the preceding subparagraphs.

The Member States shall periodically inform the Commission of imports effected in accordance with the above rules.

3. As soon as the ceilings have been reached, the Commission may issue a Regulation reimposing the customs duties provided for in Article 3 (f) of Protocol 1 of the Agreement until the end of the calendar year.

*Article 2*

During the period from 1 January until 31 December 1975, imports of the products referred to in Annex II which originate in Austria shall be subjected to Community supervision.

The Member States shall periodically inform the Commission of imports of these products; to this end, only products submitted to the customs authorities under cover of a declaration that they have been made available for consumption and accompanied by a movement certificate conforming to the rules contained in Protocol 3 of the Agreement referred to in Article 1 shall be taken into consideration.

*Article 3*

For the implementation of this Regulation the Commission shall take all necessary measures in close cooperation with the Member States.

*Article 4*

This Regulation shall enter into force on 1 January 1975.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 November 1974.

(1) Including products covered by the ECSC Treaty.

DEFINITIONS

ex 48.01 C II **Kraftliner**

'Kraftliner' means machine-finished or machine-glazed paper or paperboard, in rolls, containing not less than 80 % of chemical sulphate softwood pulp calculated on total fibre content, weighing more than 110 g/m² and having a Mullen burst ratio of not less than 35.

ex 48.01 C II **Kraft paper for large sacks**

'Kraft paper for large sacks' means machine-finished paper, in rolls, containing not less than 80 % of chemical sulphate softwood pulp calculated on total fibre content, weighing not less than 60 g/m² but not more than 115 g/m², having a Mullen burst ratio of not less than 38, and having a stretch factor of more than 4·5 % in the cross direction and of more than 2 % in the machine direction.

ex 48.01 E **Other printing paper and other writing paper, not containing mechanical wood pulp or containing not more than 5 % of mechanical wood pulp**

'Other printing paper and other writing paper, not containing mechanical wood pulp or containing not more than 5 % of mechanical wood pulp' means paper other than machine-glazed, used for printing or writing, which contains not more than 5 % of mechanical wood pulp calculated on total fibre content.

ex 48.01 E **Printing paper and writing paper, containing mechanical wood pulp**

'Printing paper and writing paper containing mechanical wood pulp' means paper other than machine-glazed, used for printing and writing, containing more than 5 % of mechanical wood pulp calculated on total fibre content.

ex 48.01 E **Fluting paper for corrugated paperboard**

'Fluting paper for corrugated paperboard' means paper, in rolls, containing not less than 65 % of unbleached semi-chemical hardwood pulp (pulp obtained from wood by light chemical treatment followed by mechanical treatment) calculated on total fibre content and having a CMT (Concora Medium Test) crush resistance exceeding 20 kp.

ex 48.01 E **Sulphite paper for wrapping purposes**

'Sulphite paper for wrapping purposes' means machine-glazed paper, containing more than 40 % of chemical bisulphite wood pulp, calculated on total fibre content, having an ash content of not more than 8 % and having a Mullen burst ratio of not less than 15.

ex 73.15 B **Alloy steel, stainless or heat-resisting**

'Alloy steel, stainless or heat-resisting' means alloy steel, containing, by weight, 12 % or more of chromium, with or without other alloy elements, and less than 1 % of carbon.

ex 73.15 B **High-speed alloy steel**

'High-speed alloy steel' means alloy steel containing, with or without other alloy elements, at least two of the following three elements: tungsten (wolfram), molybdenum and vanadium with a total content, by weight, of not less than 7 % of these elements taken together, and containing more than 0·6 %, by weight, of carbon.
