of 18 November 1974

on the tariff treatment applicable within the Community as originally constituted to certain products imported from the new Member States for use in the construction, maintenance and repair of certain aircraft

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Act [1] concerning the conditions of accession and the adjustments to the Treaties, and in particular the second paragraph of Article 33 thereof;

Having regard to the proposal from the Commission;

Whereas Regulation (EEC) No 3042/74 [2] suspends *inter alia* for the period from 1 January to 31 December 1975 the customs duties laid down in the Common Customs Tariff for a number of products intended for use in the construction, maintenance or repair of certain aircraft of an unladen weight exceeding 15 000 kg; whereas these duties have been suspended to the following levels:

— 10·6 % for flexible tubes and bellows of strengthened silicon falling within subheading 39.07 E II;

— 7·2 % for pre-drawn aluminium plates and sheets of variable thickness of 8 mm or more and less than 180 mm, falling within heading No 76.03;

— 3·9 % for tubular or bifurcated rivets falling within heading No 83.09;

Whereas, in order to maintain the Community preference for these products, there should be total suspension, over the same period, of the customs duties applicable within the Community as originally constituted to any such products imported from the new Member States and intended to be used for the same purposes,

HAS ADOPTED THIS REGULATION:
