REGULATION (EEC) No 3290/74 OF THE COUNCIL

of 19 December 1974

opening, allocating and providing for the administration of a Community tariff quota for Malaga wines falling within subheading ex 22.05 of the Common Customs Tariff, originating in Spain

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 113 thereof;

Having regard to the proposal from the Commission;

Having regard to the Opinion of the European Parliament;

Whereas on the signing of the Agreement [1] between the European Economic Community and Spain at Luxembourg on 29 June 1970, the Community undertook to grant preferential tariff arrangements for imports into the Community of certain wines originating in Spain, in particular Malaga wines; whereas a 50% reduction in the Common Customs Tariff duties applicable to Malaga wines originating in Spain and imported in containers holding two litres or less should be granted for 1975 up to a a Community tariff quota of 15 000 hectolitres;

Whereas the Community tariff quota in question should be opened for the year 1975, and whereas, however, because of the possibility of the entry into force during 1975 of a new Agreement in this regard between the European Economic Community and Spain, it is neccessary to confine the period of validity of this tariff quota to such period as is not covered by the new Agreement;

Whereas these wines remain subject to the provisions governing the common organization of the market in vine products, especially as regards observance of the reference price; whereas inclusion in the Community tariff quota should be subject to production of movement certificate A.E.1 and of a certificate, issued by the recognized Spanish authorities and endorsed by the Spanish customs, stating the recognized designation of origin of these wines, within the framework of the methods of administrative cooperation existing between the Community and Spain;

Whereas it is in particular necessary to ensure to all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rates laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the principles mentioned above, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect more accurately the actual development of the market in the products concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference to both the statistics of each State's imports of the said products from Spain over a representative period and the economic outlook for the quota period concerned;

Whereas available Community statistics give no information on the situation of Malaga wines on the markets; whereas, however, Spanish statistics for exports of these products to the Community during the last few years can be considered to reflect approximately the situation of Community imports; whereas on this basis the corresponding imports by each of the Member States during the past three years represent the following percentages of the imports into the Community from Spain of the products concerned:

	1971	1972	1973
Germany	16·7	54·1	64·4
Benelux	25·9	30·6	21·6
France	21·3	4·1	4·0
Italy	36·1	11·2	10·0

Whereas, in view of these factors and of the estimates submitted by certain Member States, initial quota shares may be fixed approximately at the following percentages:

[1] OJ No L 182, 16. 8. 1970, p. 2.

Germany	58
Benelux	21
France	4
Italy	17

Whereas, in order to take into account import trends for the products concerned in the different Member States, the quota amount should be divided into two tranches, the first tranche being allocated among the Member States, and the second forming a reserve intended ultimately to cover the requirements of the Member States which have used up their initial shares; whereas, in order to ensure a certain degree of security to importers in each Member State, the first tranche of the Community quota should be determined at a level which, under present circumstances, may be 80% of the quota amount;

Whereas the initial shares of the Member States may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, it is important that any Member State having used up almost the whole of its initial share should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up, and repeated as many times as the reserve allows; whereas the initial and additional shares must be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular be able to observe the extent to which the quota amount is used and inform Member States thereof;

Whereas if, at a specified date in the quota period, a considerable balance of the initial share remains in one or other Member State, it is essential that that Member State pays a large amount of it back into the reserve, in order to avoid a part of the Community quotas remaining unused in one Member State when it could be used in others;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, all transactions concerning the administration of shares granted to the abovementioned Economic Union may be carried out by any of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January 1975 until the date of entry into force of a new Agreement between the European Economic Community and Spain but not later than 31 December 1975, the Common Customs Tariff duties in respect of Malaga wines originating in Spain shall be partially suspended at the levels shown below within the limits of a total Community tariff quota of 15 000 hectolitres:

CCT heading No	Description of goods	Rates (in u.a./hl)
ex 22.05 C III a) 2	Wine from Malaga	8·50
ex 22.05 C IV a) 2	Wine from Malaga	9·50

2. The Protocol on the definition of the concept of originating products and on methods of administrative cooperation, annexed to the Agreement between the European Economic Community and Spain, shall be applicable.

3. The inclusion of Malaga wines in the Community tariff quota referred to in paragraph 1 shall be conditional upon observance of the reference price applying to them and to production of a certificate corresponding to one of the specimens annexed hereto, issued by the recognized Spanish authorities, stating the recognized designation of origin of these wines; this certificate shall be endorsed by the Spanish customs authorities under the same conditions as movement certificate A.E.1.

Article 2

1. The Community tariff quota referred to in Article 1 shall be divided into two tranches.

2. A first tranche, amounting to 12 000 hectolitres, shall be shared among the Member States; the proportions which, subject to Article 5, shall be valid until the end of the period specified in Article 1 shall be as follows:

Germany	6 960 hl,
Benelux	2 520 hl,
France	480 hl,
Italy	2 040 hl.

3. The second tranche of 3 000 hectolitres shall constitute the reserve.

Article 3

1. If 90% or more of the initial share of a Member State, as laid down in Article 2 (2), or 90% of that share less the amount returned into the reserve, where the provisions of Article 5 have been applied, has been exhausted, that Member State shall proceed without delay, by notifying the Commission, to draw a second share equal to 15% of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.

2. If, after its initial share has been exhausted, 90% of the second share drawn by a Member State has been used, that Member State shall proceed, in the manner specified in paragraph 1, to draw a third share equal to 7·5% of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.

3. If, after its second share has been exhausted, 90% or more of the third share drawn by a Member State has been used, that Member State shall proceed, in the same way, to draw a fourth share equal to the third.

This process shall be applied until the reserve is exhausted.

4. Notwithstanding the provisions of paragraphs 1, 2 and 3, the Member States may proceed to draw shares smaller than those fixed in those paragraphs, if there is reason to believe that those shares might not be used up. They shall inform the Commission of the reasons which led them to apply this paragraph.

Article 4

The additional shares drawn pursuant to Article 3 shall be valid until the end of the period specified in Article 1.

Article 5

If, by 15 September 1975, a Member State has not used up its initial share, it shall, not later than 10 October 1975, return the unused portion of this share in excess of 20% of the initial amount. It may return a larger quantity if there is reason to believe that such quantity might not be used.

The Member States shall, not later than 10 October 1975, notify the Commission of the total imports of the products concerned effected up to 15 September 1975 inclusive, and charged against the Community quota and, where appropriate, the proportion of their initial share that is being returned to the reserve.

Article 6

The Commission shall keep account of the share opened by Member States in accordance with Articles 2 and 3 and shall inform each of them of the extent to which the reserve has been used as soon as it receives the notifications.

The Commission shall, not later than 15 October 1975, notify Member States of the amount in the reserve after the return of shares pursuant to Article 5.

The Commission shall ensure that any drawing which uses up the reserve is limited to the balance available and, for this purpose, shall specify the amount thereof to the Member State which makes the final drawing.

Article 7

1. The Member States shall take all measures necessary to ensure that, when additional shares are drawn pursuant to Article 3, it is possible for charges to be made without interruption against their accumulated shares of the Community quota.

2. The Member States shall ensure that importers of the said goods established in their territory have free access to the shares allocated to them.

3. The Member States shall charge imports of the said goods against their shares as and when the goods are entered for home use.

4. The extent to which a Member State has used up its share shall be determined on the basis of the imports charged in accordance with paragraph 3.

Article 8

Member States shall inform the Commission at regular intervals of imports actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely in order to ensure that this Regulation is observed.

Article 10

This Regulation shall enter into force on 1 January 1975.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 December 1974.

For the Council

The President

J. P. FOURCADE
