REGULATION (EEC) No 427/74 OF THE COMMISSION
of 20 February 1974
altering the export levies on cereals

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community ;

Having regard to Council Regulation No 120/67/EEC (1) of 13 June 1967 on the common organization of the market in cereals, as last amended by Regulation (EEC) No 1346/73 (2) ;

Having regard to Council Regulation (EEC) No 1968/73 (3) of 19 July 1973 laying down general rules to be applied in the event of the cereals market being disturbed, as amended by Regulation (EEC) No 2632/73 (4) and in particular Article 4 (3) thereof ;

Whereas Article 19 of Regulation No 120/67/EEC provides that the necessary measure may be taken if the cif price of one or more products is appreciably higher than the threshold price and if that situation is likely to continue thereby disturbing or threatening to disturb the Community market ;

Whereas Regulation (EEC) No 1968/73 specifies that the cif price may be regarded as appreciably higher that the threshold price when it exceeds it by at least 2 % ; whereas this excess may be regarded as being likely to continue where an imbalance between supply and demand is established and where this imbalance is likely to persist having regard to foreseeable production and market price trends ;

Whereas the high level of prices in international trade could impede importation of common wheat, maize, rye, barley, sorghum and wheat groats and meal into the Community or provoke exportation from the Community ;

Whereas the situation described above can be said to exist at the present time ; whereas to ensure supplies in the Community an export levy should be introducted for these products ;

Whereas, in view of the relationship between the basic product and the products processed from it and given the market situation for certain processed products, an export levy for these products must also be fixed ;

Whereas the threshold prices for the 1973/74 marketing year were fixed by Council Regulation (EEC) No 1964/73 (5) of 17 July 1973 ;

Whereas Article 3 of Regulation (EEC) No 1968/73 specifies that when the export levy is being fixed account must be taken of the existing situation and the future trend with regard to prices and availabilities of cereals on the Community market on the one hand and prices for cereals and cereal products on the world market on the other ; whereas the same article provides that it is also important to ensure equilibrium and the natural development of prices and trade on cereal markets and furthermore, to take into account the economic aspect of the proposed exports and the need to avoid disturbances on the Community market ;

Whereas for the products, other than starches, listed in Article 1 (c) and (d) of Regulation No 120/67/EEC the specific factors set out in Article 3 (2) of Regulation (EEC) No 1968/73 must also be taken into account ;

Whereas the export levy may be varied if the world market situation or the specific requirements of certain markets make this necessary ;

Whereas it follows from applying the rules outlined above to the present situation on the market in cereals, and in particular to quotations or prices for these products within the Community and on the world market, that the export levies, fixed by Regulation (EEC) No 381/74 (6), as amended by Regulation (EEC) No 410/74 (7), should be altered as shown in the Annex to this Regulation,

HAS ADOPTED THIS REGULATION :
