REGULATION (EEC) No 451/74 OF THE COMMISSION

of 22 February 1974

fixing the components used to calculate the differential amounts for colza and rape seed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 136/66/EEC [1] of 22 September 1966 on the establishment of a common organization of the market on oils and fats, as last amended by Regulation (EEC) No 1707/73 [2];

Having regard to Council Regulation (EEC) No 1569/72 [3] of 20 July 1972 laying down special measures for colza and rape seed, as last amended by Regulation (EEC) No 3477/73 [4], and in particular Article 2 (2) and 3 thereof;

Whereas Article 2 (1) (a) of Regulation (EEC) No 1569/72 specifies that the differential amounts for those Member States which keep their exchange rates at any given moment within a band of 2·25 % must be determined by taking into account the incidence on prices of the percentage representing the difference between:

— the conversion rate used for the purposes of the common agricultural policy; and

— the conversion rate resulting from the central rate;

Whereas this leads to the fixing of differential amounts which remain constant as long as the factors used to calculate them remain unchanged;

Whereas, applying the new method of caluculating differential amounts to Denmark, no such amounts should be fixed for seeds harvested in that State and processed in or exported from that State;

Whereas under Article 2 (1) (b) of the aforementioned Regulation the differential amounts for France, Italy, Ireland and the United Kingdom are to be determined by taking into account the incidence on the price of average percentage representing the difference between:

— the ratio between the conversion rates used for purposes of the common agricultural policy for the currency of the relevant Member State and the Member States which keep their exchange rates at any given moment within a band of 2·25 %; and

— the spot exchange rate recorded over a given period for the currency of the relevant Member State against each of the currencies of the Member States specified above;

Whereas the difference defined for the French franc recorded over the period 13 to 19 February 1974, has changed by more than 1 point from the percentage taken as the basis for the preceding determination;

Whereas Regulation (EEC) No 2300/73 [5], as last amended by Commission Regulation (EEC) No 214/74 [6], lays down detailed rules for the application of Regulation (EEC) No 1569/72;

Whereas Council Regulation (EEC) No 2958/73 [7] of 31 October 1973, as last amended by Commission Regulation (EEC) No 197/74 [8], fixed a representative conversion rate for the Italian lira to be applied in agriculture with effect from 28 January 1974; whereas, however, Article 5 (a) of Regulation (EEC) No 1569/72 stipulates the maintenance of the price level existing in Italy for colza and rape seed on 31 December 1973 until the end of the 1973/74 marketing year; whereas, however, under Council Regulation (EEC) No 412/74 [9], of 18 February 1974 laying down certain measures to be taken in Italy in respect of colza and rape seed following the fixing with effect from 28 January 1974 of a new representative rate for the Italian lira, the intervention prices which apply in Italy are increased by 5 % with effect from 25 February 1974;

Whereas the incidence of this measure must be taken into account when fixing the components used for calculating the differential amounts; whereas this objective can be attained by applying to the components used for calculating the differential amounts and resulting from the new conversion rate a percen-

tage expressing the difference between the components which results from the rate of conversion applicable in Italy increased by 5 % on 31 December 1973 and the rate applicable on 28 January 1974;

Whereas, applying the rules and criteria set out above, the components used to calculate the differential amounts should be fixed in accordance with the Table annexed to this Regulation;

Whereas the measures provided for in this Regulation for Italy, are in accordance with the Opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

The components used to calculate the differential amounts provided for in Article 1 of Regulation (EEC) No 1569/72 shall be as listed in the Annex.

Article 2

This Regulation shall enter into force on 25 February 1974.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 February 1974.

For the Commission

The President

François-Xavier ORTOLI

ANNEX

	Target price corrective (coefficient to be applied)	Subsidy or refund corrective (coefficient to be applied)	Differential component (coefficient to be applied to the target price) (1)	
Colza and rape seed, processed for oil production in Germany or exported from that country :	+ 0·1203	— 0·1203	+	—
