REGULATION (EEC) No 613/74 OF THE COUNCIL

of 20 March 1974

on the opening, allocation and administration of a Community tariff quota for certain oils and fats of fish and marine mammals

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof;

Whereas difficulties exist in supplying Community processing industries with oils and fats of fish and marine mammals; whereas, to facilitate adjustment by undertakings and enable them to receive supplies of these products as quickly as possible on the most favourable terms the Common Customs Tariff duty should be reduced within the limits of a tariff quota;

Whereas, however, in view of the negligible volume of such a quota in relation to the actual needs of the Community, without thereby derogating from the Community nature of the tariff quota, a system should be envisaged based on an allocation between the Member States which takes particular account of the interests of those States which in recent years have relied on imports for their supply, namely the United Kingdom, Denmark and Ireland,

HAS ADOPTED THIS REGULATION:
