REGULATION (EEC) No 925/74 OF THE COMMISSION

of 17 April 1974

making a fourth amendment to Regulation (EEC) No 2005/70 on the classification of vine varieties

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to the Council Regulation (EEC) 816/70 [1] of 28 April 1970 laying down additional provisions for the common organization of the market in wine as last amended by the Regulation (EEC) No 2592/73 [2] and in particular the second sub-paragraph of paragraph 1 of Article 16 thereof;

Whereas the classification of vine varieties allowed for cultivation in the Community, as originally constituted, has been adopted by Regulation (EEC) No 2005/70 [3] of 6 October 1970, as last amended by the Regulation (EEC) No 2244/72 [4];

Whereas there are grounds to complete the classification for Germany by a variety for three Regierungsbezirke since the cultivation of this variety may be authorized following the completion of the examination of its cultivating aptitude;

Whereas from the acquired experience of several vine varieties appearing under the list of 'authorized varieties' in the classification for certain French departments has demonstrated their cultivating aptitude; whereas it is thus appropriate to classify them amongst the recommended varieties for the same department or for a directly neighbouring administrative unit;

Whereas at the time of setting up the classification several wine varieties traditionally cultivated in certain provinces in Italy were not taken into account; it is therefore necessary to include these varieties in the classification for the provinces in question;

Whereas it is necessary to complete the classification for Luxembourg by two varieties already appearing in the classification of the neighbouring French department and whose cultivating aptitude has been satisfactorily acknowledged:

Whereas the accession of the United Kingdom to the Community necessitates the completion of the classification by the varieties whose cultivation is allowed in this Member State;

Whereas (the opinion of the Wine Management Committee)

HAS ADOPTED THIS REGULATION:

Article 1

In the Annex of Regulation (EEC) No 2005/70, title 1, sub-title 1, Chapter 1 (Germany) is modified as follows:
