REGULATION (EEC) No 1208/75 OF THE COMMISSION

of 30 April 1975

concerning the issue while protective measures are in force of import licences for certain young bovine animals of highland breeds for fattening

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 805/68 [1] of 27 June 1968 on the common organization of the market in beef and veal, as last amended by Regulation (EEC) No 1855/74 [2], and in particular Article 21 (2) thereof;

Whereas the suspension of the issue of import licences has been relaxed by Commission Regulation (EEC) No 1090/75 [3] of 23 April 1975 on the issue by way of protective measures of import licences for certain beef and veal products (EXIM); whereas these arrangements do not however permit the importation of calves and young bovine animals;

Whereas young bovine cattle for fattening of certain highland breeds are in particular demand in certain regions of the Community; whereas the market has difficulty in meeting this demand; whereas this demand is justified by the structural situation of cattle breeding in those regions;

Whereas, therefore, the importation should be permitted, to an extent which does not threaten to disturb the balance of the Community market and having regard to the arrangements whereby such animals can be imported in normal times, of a limited quantity of the animals concerned for fattening over a relatively long period,

HAS ADOPTED THIS REGULATION:
