REGULATION (EEC) No 1284/75 OF THE COUNCIL

of 20 May 1975

amending Regulations (EEC) No 2901/74, (EEC) No 2903/74, (EEC) No 2905/74, (EEC) No 2906/74 and (EEC) No 2907/74 establishing Community supervision of imports of certain products originating in Austria, Iceland, Portugal, Sweden and Switzerland respectively

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof ;

Having regard to the proposal from the Commission ;

Whereas, pursuant to Protocols 1 annexed to the Agreements between the European Economic Community and the Republic of Austria, the Republic of Iceland, the Republic of Portugal, the Kingdom of Sweden and the Swiss Confederation, the Community has indicated in Regulations (EEC) No 2901/74 (1), (EEC) No 2903/74 (2), (EEC) No 2905/74 (3), (EEC) No 2906/74 (4) and (EEC) No 2907/74 (5), the indicative ceilings applicable in 1975 to imports of certain products originating in those countries ; whereas the said Protocols also provide that if, for two successive years, imports of a product subject to a ceiling are less than 90 % of the level fixed, the Community shall suspend application of this ceiling ;

Whereas the Communities' statistical summaries for 1973 and 1974 show that imports of some of the products in question which are subject to ceilings have not, for those years, reached 90 % of the ceilings indicated ; whereas the Community should therefore suspend application of the ceilings for those products for 1975 ; whereas, however, it is desirable to continue to monitor the trend of imports of these products by statistical surveillance ; whereas the abovementioned Regulations should therefore be amended ;

Whereas, for a number of products originating in the countries in question and not subject to indicative ceilings in 1973 and 1974, the Community had applied a system of Community supervision in order to monitor the pattern of imports ; whereas the Community has, using the abovementioned Regulations, continued this supervision for 1975 ; whereas an examination of the Community import statistics for the years 1971/72 and the Community statistical summaries for 1973 and 1974 show that, in spite of the progressive reductions in customs duties, imports of most of these products have remained non-existent or negligible or have not increased abnormally ; whereas even in those cases where the increase in imports has been more marked in the past two years, no disturbances have been caused on Community markets ; whereas, therefore, it no longer seems necessary to monitor the trend of the imports in question,

HAS ADOPTED THIS REGULATION :

Article 1

Regulation (EEC) No 2901/74 shall be amended as follows :
