REGULATION (EEC) No 1413/75 OF THE COMMISSION

of 30 May 1975

subjecting to authorization imports into the Federal Republic of Germany and the Benelux countries of synthetic socks originating in Taiwan

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 1439/74 (1) of 4 June 1974 on common rules for imports, and in particular Article 12 thereof;

Having consulted the Advisory Committee set up under Article 5 of the said Regulation;

Whereas imports of synthetic socks corresponding to Nimexe positions 60.03.25 and 60.03.27, originating in Taiwan, have increased sharply and in substantial proportions in the past few years;

Whereas this development has manifested itself principally on the German and Benelux markets, with the result that imports have increased in these regions of the Community from 5·5 million pairs in 1971 to more than 14 million pairs in 1974;

Whereas these products are offered for sale on the markets principally affected at prices which are substantially below those prevailing for similar goods produced by Community producers;

Whereas according to the information available to the Commission these imports already represented at the end of 1974 a substantial share of the market in the Federal Republic of Germany and in the Benelux countries and that, together with Korean imports, which have already been subjected to authorization in the same regions of the Community by Commission Regulation (EEC) No 1295/75 (2), they represented a market share of approximately 25 %;

Whereas this development has been carried out to the detriment of the Community industry, whose production has fallen considerably over the past few years and whereas more than 30 factories have had to cease production of this products with resultant unemployment, transfers and reduction of working hours for several thousand employees;

Whereas all these factors have caused market disruption and have caused serious damage to the Community producers;

Whereas a further sharp and substantial increase in imports of these products may be considered to be imminent in view of the import documents which have been issued or endorsed, in accordance with the Community surveillance procedure established by Regulation (EEC) No 2967/74 (3), for the past three months for which results are available, and whereas in the absence of immediate protective measures this aggravation of the damage already caused to Community producers would make it difficult to repair;

Whereas, for these reasons and in order to ensure equitable treatment both for Korean imports, which have already been subjected to quantitative restrictions, and for those originating in Taiwan, in conformity with the international obligations of the Community, it is necessary to take immediate action to safeguard the interests of the Community, this action to consist of the introduction of measures to limit temporarily imports originating in Taiwan;

Whereas the concentration of imports of the products concerned on the German and Benelux markets justifies the limitation, for the moment, of the application of these safeguard measures to imports into those regions of the Community,

HAS ADOPTED THIS REGULATION:

Article 1

This Regulation shall be binding in its entirety and directly applicable in all Member States.
