REGULATION (EEC) No 1664/75 OF THE COMMISSION

of 30 June 1975

fixing the components used to calculate the differential amounts for colza and rape seed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 136/66/EEC [1] of 22 September 1966 on the establishment of a common organization of the market in oils and fats, as last amended by Regulation (EEC) No 1707/73 [2];

Having regard to Council Regulation (EEC) No 475/75 [3] of 27 February 1975 on the exchange rates to be applied in agriculture;

Having regard to Council Regulation (EEC) No 1569/72 [4] of 20 July 1972 laying down special measures for colza and rape seed, as last amended by Regulation (EEC) No 3477/73 [5], and in particular Article 2 (2) thereof;

Whereas Article 2 (1) (a) of Regulation (EEC) No 1569/72 provides that the differential amounts for those Member States which keep their exchange rates at any given moment within a band of 2·25 % must be determined by taking into account the incidence on prices of the percentage difference between:

— the conversion rate used for the purposes of the common agricultural policy, and

— the conversion rate resulting from the central rate;

Whereas this leads to the fixing of differential amounts which remain constant as long as the items used to calculate them remain unchanged;

Whereas, applying the method of calculating differential amounts to Denmark, no such amounts should be fixed for seeds harvested in that State and processed in or exported from that State;

Whereas under Article 2 (1) (b) of the aforementioned Regulation the differential amounts for France, Italy, Ireland and the United Kingdom are to be determined by taking into account the incidence on the price of the average percentage difference between:

— the ratio between the conversion rate used for purposes of the common agricultural policy for the currency of the relevant Member State and the actual parity of each of the currencies of the Member States which keep their exchange rates at any given moment within a band of 2·25 %, and

— the spot market rate recorded over a given period for the currency of the relevant Member State against each of the currencies of the Member States specified above;

Whereas Regulation (EEC) No 2300/73 [6], as last amended by Commission Regulation (EEC) No 541/75 [7], lays down detailed rules for the application of Regulation (EEC) No 1569/72;

Whereas the marketing year 1975/76 for colza and rape seed begins on 1 July 1975; whereas it is necessary to bear in mind from that date the new prices for calculating differential amounts; whereas it should be considered that the new exchange rates fixed by Regulation (EEC) No 475/75 [8] apply to the currencies of most Member States from 3 March 1975; whereas however the adjustment of buying in and intervention prices resulting from these new rates was postponed in the case of colza and rape seed until the start of the 1975/76 marketing year;

Whereas, applying the rules and criteria set out above, the components used to calculate the differential amounts should be fixed in accordance with the table annexed to this Regulation;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

The components used to calculate the differential amounts provided for in Article 1 of Regulation (EEC) No 1569/72 shall be as specified in the Annex hereto.

Article 2

This Regulation shall enter into force on 1 July 1975.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
