REGULATION (EEC) No 2161/75 OF THE COMMISSION

of 19 August 1975

determining for the marketing year 1975/76 the variety of long grain rice representative of Community production, the difference in value between this variety and the variety of round grain rice corresponding to the standard quality and the threshold prices for long grain husked rice and for milled rice

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community ;

Having regard to Council Regulation No 359/67/EEC (1) of 25 July 1967 on the common organization of the market in rice, as last amended by Regulation (EEC) No 668/75 (2), and in particular Article 14 (5) thereof ;

Whereas, pursuant to Article 14 (5) (a) of Regulation No 359/67/EEC, the variety of long grain rice representative of Community production and the difference in value between this variety and the variety of round grain rice corresponding to the standard quality have to be determined ;

Whereas the 'Ribe' variety should be taken as the variety of rice representative of the average quality of long rice harvested in the Community ; whereas in addition the difference between the value of the 'Ribe' variety and that of round rice corresponding to the standard quality should be fixed at an amount, expressed in value of husked rice, corresponding to the average difference between the prices of these qualities ;

Whereas, pursuant to Article 14 (2) (b), the threshold price for long grain husked rice is calculated by adjusting the threshold price for round grain husked rice by application of a corrective amount representing the difference in value between the round-rice variety corresponding to the standard quality and a long-rice variety representative of Community production ; whereas, pursuant to Article 14 (3), the threshold prices for round milled and long milled rice are derived from the threshold prices for round husked rice and long husked rice respectively, taking into account the monthly increases to which they are subject, by making adjustments for the conversion rate, for processing costs and for the value of by-products and then by adding an amount for the protection of the industry ;

Whereas for the marketing year 1975/76 the threshold price for round husked rice and the protective amount have been fixed by Council Regulation (EEC) No 1892/75 (3) of 22 July 1975 fixing for the marketing year 1975/76 the threshold prices for husked rice and broken rice and the protective amount to be included in the threshold price for milled rice ; whereas the variety of long rice representative of Community production and the difference in value between this variety and the quality of round rice corresponding to the standard quality are determined in the present Regulation ; whereas the components used to adjust the threshold price for husked rice were fixed by Commission Regulation No 467/67/EEC (4) of 21 August 1967 fixing the conversion rates, the processing costs and the value of the by-products for the various stages of rice processing, as last amended by Regulation (EEC) No 1484/75 (5) ;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Cereals ;

HAS ADOPTED THIS REGULATION :

Article 1

The provisions of this Regulation shall apply in respect of the rice marketing year 1975/76.

Article 2
