# REGULATION (EEC) No 2475/75 OF THE COMMISSION

## of 29 September 1975

## concerning the issue while protective measures are in force of import licences for certain young bovine animals of highland breeds for fattening

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 805/68 (1) of 27 June 1968 on the common organization of the market in beef and veal, as last amended by Regulation (EEC) No 1855/74 (2), and in particular Article 21 (2) thereof;

Whereas the suspension of the issue of import licences has been relaxed by Commission Regulation (EEC) No 1090/75 (3) of 23 April 1975 on the issue by way of protective measures of import licences for certain beef and veal products (EXIM), as last amended by Regulation (EEC) No 2033/75 (4); whereas these arrangements do not however permit the importation of young bovine animals;

Whereas in certain regions of the Community young bovine animals for fattening of certain highland breeds are in particular demand which the market has difficulty in meeting; whereas this demand is justified by reason of the structural situation of cattle breeding in those regions;

Whereas, therefore, the importation of such animals was permitted by Commission Regulation (EEC) No 1208/75 (5) of 30 April 1975 concerning the issue while protective measures are in force of import licences for certain young bovine animals of highland breeds for fattening, as last amended by Regulation (EEC) No 1407/75 (6); whereas this measure only applies to applications for import licences lodged until the end of August 1975; whereas the reasons which led to the adoption of the said Regulation still exist; whereas, therefore, the special import system for young bovine animals should be continued until the end of 1975,
