COUNCIL REGULATION (EEC) No 1147/76

of 17 May 1976

on aid for durum wheat

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organization of the market in cereals [1], as last amended by Regulation (EEC) No 1143/76 [2], and in particular Article 10 (4) thereof,

Having regard to the proposal from the Commission,

Whereas Article 10 of Regulation (EEC) No 2727/75 provides that aid shall be granted for the production of durum wheat in the Community; whereas, to promote a general improvement in quality and to guarantee that the durum wheat harvested is suitable, in particular, for the manufacture of pasta products, it should be stipulated that the qualitative and technical characteristics which durum wheat must have in order to be eligible for aid must be determined in accordance with these objectives;

Whereas, pursuant to Article 10 (2) of Regulation (EEC) No 2727/75, aid is granted by the Member States per hectare of land sown and harvested; whereas the proper working of the aid system requires supervision on the part of the Member States in order to ensure that aid is granted only for the areas concerned and for eligible products; whereas, to this end, provision should be made for the introduction, by each Member State concerned, of a system of declarations relating to such areas; whereas, moreover, the effectiveness of supervision measures can be enhanced by checking whether certain seed varieties to be determined are used for sowing and crops harvested are derived therefrom,

HAS ADOPTED THIS REGULATION:

Article 1

Member States shall grant the aid referred to in Article 10 of Regulation (EEC) No 2727/75 for durum wheat produced on their territory under the conditions set out in the following Articles.

Article 2

For the purposes of this Regulation, durum wheat means wheat of the *Triticum durum* species and the hybrids derived from the interspecific crossing of *Triticum durum* which have the same number of chromosomes as that species.

Article 3

The qualitative and technical characteristics which durum wheat must have in order to be eligible for aid must guarantee that the product is suitable for use by the durum meal industry and for the manufacture of pasta products and that the products processed therefrom satisfy certain requirements as regards suitability for human consumption.

Article 4

1. Member States shall introduce a system of administrative supervision to ensure that a product for which aid is requested meets the requirements for granting such aid.

2. For the purposes of such supervision, Member States shall introduce a system of declarations relating to the areas sown, the seed varieties used and the areas harvested.

Article 5

Member States shall carry out random sampling spot checks to ascertain the accuracy of declarations relating to areas of land sown and harvested and of applications for aid submitted by producers.

Article 6

The amount of aid to be paid shall be calculated on the basis of the area sown and harvested.

Article 7

Producer Member States shall inform the Commission of the measures taken pursuant to this Regulation and provide it with information relating, in particular, to the areas sown and harvested for which aid has been granted.

Article 8

Council Regulation (EEC) No 2741/75 of 29 October 1975 on aid for durum wheat [3], is repealed with effect from 1 August 1976.

Article 9

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities.*

However, it shall not apply to durum wheat for which aid was granted in the 1975/76 marketing year and in previous years.

[2] See page 1 of this Official Journal.
[3] OJ No L 281, 1. 11. 1975, p. 55.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 May 1976.

For the Council

The President

J. HAMILIUS
