COMMISSION REGULATION (EEC) No 2925/76

of 1 December 1976

fixing the reference prices for the period 16 December 1976 to 15 December 1977 in the wine sector

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 816/70 of 28 April 1970 laying down additional provisions for the common organization of the market in wine (1), as last amended by Regulation (EEC) No 2829/76 (2), and in particular Article 9 (6) thereof,

Whereas Article 9 (1) of Regulation (EEC) No 816/70 provides that a reference price for red wine and a reference price for white wine must be fixed annually; whereas these reference prices must be fixed on the basis of the guide prices for the types of red and white table wine most representative of Community production, plus the costs incurred in bringing Community wines to the same marketing stage as imported wines;

Whereas the types of table wine most representative of Community production are types R I and A I, as defined in Articles 1 and 2 of Council Regulation (EEC) No 945/70 of 26 May 1970 determining the types of table wines (3); whereas the guide prices for these types of wine are set out in Article 1 of Council Regulation (EEC) No 833/76 of 6 April 1976 fixing the guide prices for wine for the period 16 December 1976 to 15 December 1977 (4);

Whereas the third subparagraph of Article 9 (1) of Regulation (EEC) No 816/70 provides that reference prices are also to be fixed for grape juice (including grape must) falling within subheading 20.07 B I of the Common Customs Tariff, for concentrated grape juice (including grape must) falling within subheadings 20.07 A I and B I of the Common Customs Tariff, for grape must with the fermentation arrested by the addition of alcohol within the meaning of Additional Note 4 (a) to Chapter 22 of the Common Customs Tariff, for wines fortified for distillation within the meaning of Additional Note 4 (b) to Chapter 22 of the Common Customs Tariff, and for liqueur wines within the meaning of Additional Note 4 (c) to Chapter 22 of the Common Customs Tariff; whereas, moreover, since special reference prices should be fixed for the products having regard to their special characteristics or their special uses, reference prices should be fixed for wines of the Riesling or Sylvaner variety and for liqueur wines to be used in the preparation of products other than those falling within heading No 22.05 of the Common Customs Tariff; whereas, finally, a fixed amount corresponding to the normal costs of market preparation must be established, so that it can be added to the reference prices of the various products in the case where these products are put up in containers of two litres or less;

Whereas in fixing the reference prices account should be taken of the criteria provided for by the Council Regulation (EEC) No 947/70 of 26 May 1970 laying down general rules for fixing the reference price and levying the countervailing charge for wine (5), as amended by Regulation (EEC) No 2918/76 (6);

Whereas the costs incurred in bringing Community wines to the same marketing stage as imported wines, which are to be established as provided in Article 4 of Regulation (EEC) No 947/70, may, with the exception of those in respect of losses, be assessed at a standard rate; whereas these costs and the other factors to be considered have varied appreciably since the last occasion on which prices were fixed, transport costs having increased by some 4 %;

Whereas the Management Committee for Wine has not delivered an opinion within the time limit set by its Chairman,

HAS ADOPTED THIS REGULATION:

Article 1
