COMMISSION REGULATION (EEC) No 360/76

of 19 February 1976

amending for the sixth time Regulation (EEC) No 2005/70 on the classification of vine varieties

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 816/70 of 28 April 1970 laying down additional provisions for the common organization of the market in wine (1), as last amended by Regulation (EEC) No 1932/75 (2), and in particular the second subparagraph of Article 16 (1) thereof,

Whereas the classification of vine varieties approved for cultivation in the Community as originally constituted was established by Commission Regulation (EEC) No 2005/70 of 6 October 1970 (3), as last amended by Regulation (EEC) No 2140/74 (4);

Whereas the list for Germany should be supplemented by one variety for two Regierungsbezirke and the list for France should be supplemented firstly by one variety for 12 departments, and secondly, by one variety for six departments; whereas the cultivation suitability of each of these varieties has been examined and recognized as satisfactory and may therefore be provisionally authorized in accordance with Article 10 (1) (b) of Council Regulation (EEC) No 1388/70 of 13 July 1970 on general rules for the classification of vine varieties (5), as last amended by Regulation (EEC) No 418/74 (6);

Whereas, since then, experience of several varieties of vine listed as authorized varieties for certain French and Luxembourg administrative units or parts thereof has shown that the wines which they produce may normally be considered as being of good quality; whereas they should therefore be classified among the recommended varieties for the same administrative units or parts thereof in accordance with Article 10 (2) (a) and 5 of Regulation (EEC) No 1388/70;

Whereas the list for one French administrative unit should be supplemented by adding to the recommended varieties a variety of vine which has not been included; whereas that variety has been listed for five years for an immediately adjoining administrative unit and whereas it therefore fulfils the condition for inclusion laid down in Article 10 (1) (a) of Regulation (EEC) No 1388/70;

Whereas the comparative tests of certain new varieties of table grapes obtained by crossing varieties already listed for certain French departments have proved the cultivation suitability of these varieties; whereas their inclusion is therefore justified in accordance with Article 10 (1) (b);

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wines,

HAS ADOPTED THIS REGULATION:

Article 1

In section I, subtitle I, Title I of the Annex to Regulation (EEC) No 2005/70, the variety Domina N (*) is inserted in the list of vine varieties for the Regierungsbezirke Köln and Koblenz, the name of the variety being inserted according to alphabetical order.
