COMMISSION REGULATION (EEC) No 388/76

of 20 February 1976

amending the components used to calculate the differential amounts for colza and rape seed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats [1], as last amended by Regulation (EEC) No 1707/73 [2],

Having regard to Council Regulation (EEC) No 1569/72 of 20 July 1972 laying down special measures for colza and rape seed [3], as last amended by Regulation (EEC) No 3477/73 [4], and in particular Article 2 (2) thereof,

Whereas Regulation (EEC) No 2300/73 of 23 August 1973 [5], as last amended by Commission Regulation (EEC) No 632/75 [6], laid down detailed rules for the application of Regulation (EEC) No 1569/72;

Whereas the components used in calculating the differential amounts were laid down in Commission Regulation (EEC) No 272/76 of 6 February 1976 [7]; whereas the Regulation further provided that the differential components should be calculated in a particular way for as long as the official average rates fixed each working day on the Rome and Milan exchanges were not available; whereas this situation continues; whereas therefore it seems advisable to proceed with caution when fixing the differential components for the Italian lira and again to take into consideration the average quotations for the Italian lira during the two previous weeks on the exchanges of Member States which keep their exchange spot rates at any given moment within a spread of 2·25 %; whereas it is appropriate that the differential components calculated in this way should be applied for two weeks, provided that the lira rate does not rise substantially;

Whereas the appropriate Management Committees have not given opinions within the time limits laid down by their Chairmen,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EEC) No 272/76 is replaced by the Annex to this Regulation.

Article 2

1. This Regulation shall enter into force on 23 February 1976.

2. During the period up to 7 March 1976, the differential components shall not be altered unless the difference referred to in Article 2 (1) of Regulation (EEC) No 1569/72 is at least one point lower than the percentage taken as a basis for the preceding determination.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 February 1976,

For the Commission

P. J. LARDINOIS

Member of the Commission
