COMMISSION REGULATION (EEC) No 1050/77

of 18 May 1977

fixing the reference price for tomatoes until the end of the 1977 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1035/72 of 18 May 1972 on the common organization of the market in fruit and vegetables (1), as last amended by Regulation (EEC) No 1034/77 (2), and in particular Article 27 (1) thereof,

Whereas, under Article 23 (1) of Regulation (EEC) No 1035/72 reference prices valid for the whole Community are to be fixed at the beginning of the marketing year;

Whereas tomatoes are produced in such quantities in the Community that reference prices should be fixed for them;

Whereas tomatoes harvested during a given crop year are marketed from January to December; whereas for the present marketing year the reference prices have respectively been fixed up to 31 May by Regulations (EEC) No 608/77 of 23 March 1977 (3), and (EEC) No 859/77 of 27 April 1977 (4); whereas the information now available allows these prices to be fixed up to the end of the marketing year; whereas the low quantities which are harvested during the last 10 days of December represent only a small percentage of the tonnage which is marketed throughout the marketing year; whereas that period should not therefore be taken into account;

Whereas, pursuant to Article 23 (2) of Regulation (EEC) No 1035/72 the reference prices are fixed on the bases of the arithmetic mean of producer prices in each Member State plus an amount representing the costs of transporting Community products from production areas to Community marketing centres; whereas the trend of average basic prices and buying-in prices must also be taken into account;

Whereas, to take seasonal variations into account, the year should be divided into several periods and a reference price fixed for each of these periods;

Whereas producer prices are to correspond to the average of the prices recorded on the representative market or markets situated in the production areas where prices are lowest, during the three years prior to the date on which the reference price is fixed, for a home-grown product with defined commercial characteristics, being a product or variety representing a substantial proportion of the production marketed over the year or over part thereof and satisfying specified requirements as regards market preparation; whereas when the average of prices recorded on each representative market is being calculated prices which could be considered excessively high or excessively low in relation to normal price fluctuations on that market are to be disregarded;

Whereas, up to 10 July, Community produced tomatoes are grown mainly under glass; whereas the reference prices for this period of the marketing year must therefore be fixed for a product of that type; whereas tomatoes imported from certain third countries during the same period will have been grown in the open; whereas although such tomatoes may be classed in Class I, their quality and price are not comparable with those of products grown under glass; whereas the prices for tomatoes not grown under glass should therefore be adjusted by a conversion factor;

Whereas, from October to December inclusive, tomatoes imported from certain third countries are cultivated under glass; whereas a conversion factor should also be applied to the prices of these tomatoes to make them comparable with the reference prices which are during this period calculated on the basis of prices of Community products cultivated in the open;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

Article 1

1. For the 1977 marketing year, the reference price for tomatoes (subheading 07.01 M of the Common Customs Tariff), expressed in units of account per 100
