COMMISSION REGULATION (EEC) No 1213/77

of 7 June 1977

fixing, for the 1977 marketing year, the reference prices for plums

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1035/72 of 18 May 1972 on the common organization of the market in fruit and vegetables [1], as last amended by Regulation (EEC) No 1034/77 [2], and in particular Article 27 (1) thereof,

Whereas, pursuant to Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed at the beginning of the marketing year;

Whereas plums are produced in such quantities in the Community that reference prices should be fixed for them;

Whereas plums harvested during a given crop year are marketed from June to October; whereas the quantities harvested during the first 10 days of June and during the last 10 days of October are so small that there is no need to fix reference prices for these periods; whereas reference prices should be fixed only for the period from 11 June up to and including 20 October;

Whereas, pursuant to Article 23 (2) of Regulation (EEC) No 1035/72, the reference prices are fixed on the basis of the arithmetic mean of producer prices in each Member State plus an amount representing the costs of transporting Community products from the production areas to Community marketing centres; whereas the trend of average basic prices and buying-in prices must also be taken into account;

Whereas, since the varieties of plums are not all comparable as regards the estimation of their commercial value, these varieties should be classified in two groups;

Whereas, to take seasonal variations into account, the year should be divided into several periods and a reference price fixed for each of these periods;

Whereas producer prices are to correspond to the average of the prices recorded on the representative market or markets situated in the production areas where prices are lowest, during the three years prior to the date on which the reference price is fixed, for a home-grown product with defined commercial characteristics, being a product or variety representing a substantial proportion of the production marketed over the year or over part thereof and satisfying specified requirements as regards market preparation; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on that market are to be disregarded;

Whereas, for the purpose of calculating entry prices, the varieties imported from third countries of which the entry prices are to be compared with the prices fixed for Group I and with those fixed for Group II respectively should be specified;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:
