COUNCIL REGULATION (EEC) No 1434/78

of 26 June 1978

opening, allocating and providing for the administration of a Community tariff quota for wines of fresh grapes falling within subheading ex 22.05 C of the Common Customs Tariff, originating in Cyprus

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (1),

Whereas a supplementary Protocol to the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus was signed on 11 May 1978; whereas this Protocol is to enter into force on 1 July 1978; whereas Article 5 of this Protocol provides for the opening of an annual Community tariff quota of 10 000 hectolitres of certain wines of fresh grapes, in containers holding two litres or less, falling within subheading ex 22.05 C of the Common Customs Tariff, originating in Cyprus, at rates of customs duty equal to 25 % of the customs duty in Common Customs Tariff, originating in Cyprus, at rates *temporis* clause is applicable; whereas under these circumstances it is necessary to open a Community tariff quota of 5 000 hectolitres for the period 1 July to 31 December 1978;

Whereas these wines remain subject to the provisions governing the Common organization of the market in wine products, especially as regards observance of the reference price;

Whereas Council Regulation (EEC) No 2506/75 of 29 September 1975 laying down special rules for the importation of products in the wine-growing sector originating in certain third countries (2), introduced the idea of a free-at-frontier reference price, being the reference price less customs duties actually levied;

Whereas it is in particular necessary to ensure for all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rates laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the principles mentioned above, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect more accurately the actual development of the market in the products concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference to both the statistics of each State's imports of the said products from Cyprus over a representative period and the economic outlook for the quota period concerned;

Whereas, however, neither Community nor national statistics showing the breakdown for each of the types of wine in question are available and no reliable estimates of future imports can be made; whereas, in these circumstances, the quota volumes should be allocated in initial shares, taking into account demand for these wines on the markets of the various Member States;

Whereas, in order to take into account import trends for the products concerned in the different Member States, the quota amount should be divided into two tranches, the first tranche being allocated among the Member States and the second forming a reserve intended ultimately to cover the requirements of the Member States which have used up their initial quota shares; whereas, in order to ensure a certain degree of security to importers in each Member State, the first tranche of the Community quota should be determined at a level which, under present circumstances, may be 86 % of the quota amount;

Whereas the initial shares of the Member States may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, it is important that any Member State having used up almost the whole of its initial shares should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as the reserve allows; whereas the initial and additional shares must be available for use

until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which the quota amount is used and inform Member States thereof;

Whereas, if at a specified date in the quota period, a considerable balance remains in one or other Member State it is essential that that Member State pays a large amount of it back into the reserve, in order to avoid a part of the Community quota remaining unused in one Member State when it could be used in others;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union all transactions concerning the administration of shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

2. If, after its initial share has been exhausted, 90 % or more of the second share drawn by a Member State has been used, that Member State shall proceed, in the manner specified in paragraph 1, to draw a third share equal to 7·5 % of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.
