Having regard to the opinion of the European Parliament (1),

Whereas on 3 November 1976 the Council adopted a set of resolutions concerning certain external and internal aspects of the common fisheries policy;

Whereas the Community on the one hand and the Government of Denmark and the Home Government of the Faroe Islands on the other have signed a Framework Agreement on fisheries;

Whereas the Community, the Government of Denmark and the Home Government of the Faroe Islands have held consultations concerning their mutual fishing allocations for 1978;

Whereas during the consultations the delegations agreed to recommend to their authorities that they fix certain catch quotas for 1978 for vessels of the other party;

Whereas the delegations have also agreed that it is necessary to restrict fishing for blue whiting by the vessels of both parties to agreed limits;

Whereas it is the responsibility of the Community to allocate the catch quotas in the Faroese fishery zone among the Community vessels concerned;

Whereas for this purpose it is necessary to allocate these quotas between the Member States of the Community;

Whereas information about actual catches should be made available in order to ensure that the allocations are respected,
