COMMISSION REGULATION (EEC) No 380/78

of 30 January 1978

on the operation of the system of advances in respect of expenditure financed by the Guarantee Section of the EAGGF

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 729/70 of 21 April 1970 on the financing of the common agricultural policy (1), as last amended by Regulation (EEC) No 2788/72 (2), and in particular Articles 4 and 5 thereof,

Whereas Article 4 (2) of Regulation (EEC) No 729/70 provides for Member States to have made available to them the funds needed for payments under the Guarantee Section of the European Agricultural Guidance and Guarantee Fund; whereas the best way to operate this financing system is to make Community funds available to each Member State by transfers to its account;

Whereas, having regard in particular to the large number of disbursing authorities and agencies, the best way to administer the Community funds is to make the individual Member States responsible for their distribution among such authorities and agencies;

Whereas, in order that it may be known exactly how the Community funds are used, it is indispensable that each disbursing authority and agency should keep accounts devoted exclusively to these funds and to their use;

Whereas, in order to ensure that the Commission can assess financial requirements and monitor the use of the Community funds, the Member States must transmit to it each month an application relating to financial requirements and accompanied, in respect of each disbursing authority and agency, by statements of the cash position, expenditure effected and expenditure estimates for three months;

Whereas the funds made available to Member States must cover the actual cash requirements of at least one month;

Whereas, although aggregate sums are made available to Member States each month, a Member State may experience cash difficulties because expenditure is running at a higher rate than that initially provided for; whereas provision should consequently be made for the possibility of special advances;

Whereas the following Regulations contain special provisions in respect of the financing of expenditure by intervention agencies on the buying in of products and on subsequent operations: Council Regulation (EEC) No 786/69 of 22 April 1969 on the financing of intervention expenditure in respect of the internal market in oils and fats (3); Council Regulation (EEC) No 787/69 of 22 April 1969 on the financing of intervention expenditure in respect of the internal market in cereals and rice (4); Council Regulation (EEC) No 788/69 of 22 April 1969 on the financing of intervention expenditure in respect of the internal market in pigmeat (5); Council Regulation (EEC) No 2334/69 of 25 November 1969 on the financing of intervention expenditure in respect of the internal market in sugar (6); Council Regulation (EEC) No 2305/70 of 10 November 1970 on the financing of intervention expenditure in respect of the internal market in beef and veal (7), Council Regulation

(1) OJ No L 94, 28. 4. 1970, p. 13.
(2) OJ No L 285, 30. 12. 1972, p. 1.
(3) OJ No L 105, 2. 5. 1969, p. 1.
(4) OJ No L 105, 2. 5. 1969, p. 4.
(5) OJ No L 105, 2. 5. 1969, p. 7.
(6) OJ No L 298, 27. 11. 1969, p. 1.
(7) OJ No L 249, 17. 11. 1970, p. 1.

(EEC) No 2306/70 of 10 November 1970 on the financing of intervention expenditure in respect of the internal market in milk and milk products [1], and Regulation (EEC) No 1697/71 of 26 July 1971 on the financing of intervention expenses in the raw tobacco sector [2]; whereas the statements of expenditure effected and of estimated expenditure must cover the various categories of costs, it being understood that adjustments will be made on the basis of the accounts which the Member States will transmit at regular intervals;

Whereas Council Regulation (EEC) No 974/71 of 12 May 1971 on certain measures of conjunctural policy to be taken in agriculture following the temporary widening of the margins of fluctuation for the currencies of certain Member States [3], as amended by Council Regulation (EEC) No 2746/72 of 19 December 1972 [4], has provided, with effect from 1 January 1973, for the compensatory amounts collected or granted in trade between the Member States to be considered, with regard to the common agricultural policy, as forming part of intervention intended to stabilize agricultural markets; whereas it is therefore necessary to specify the methods of declaration in respect of the said compensatory amounts;

Whereas advances for expenditure financed partly from the Guarantee Section and partly from the Guidance Section of the EAGGF should be made separately from those for expenditure financed wholly from the Guarantee Section;

Whereas it appears necessary to specify the information on expenditure statements to be given monthly by the paying departments and agencies;

Whereas, in order to facilitate the application of the provisions in the matter, it is advisable to consolidate them within a single Regulation and to repeal Commission Regulation (EEC) No 2697/70 of 29 December 1970 on the procedure for making Community funds available to Member States under the Guarantee Section of the EAGGF [5], as amended by Regulation (EEC) No 1823/73 [6];

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Fund Committee,

HAS ADOPTED THIS REGULATION:

Article 1

1. The Commission, after deciding on advances in accordance with Article 5 (2) of Regulation (EEC) No 729/70, shall make available to Member States, within the limit of the budget appropriations, the funds needed for payment by the disbursing authorities and agencies of expenditure financed by the Guarantee Section of the EAGGF. An account shall be opened for this purpose by each Member State within the Treasury or some other financial institution.

2. The name and number of those accounts shall be communicated to the Commission by the Member States.

3. Each Member State shall ensure that the Community funds are properly managed and shall distribute them among the disbursing authorities and agencies in such a manner as to allow a similar rate of payment for all the expenditure financed by the Guarantee Section of the EAGGF.

Article 2

Each disbursing authority and agency shall keep accounts devoted exclusively to the funds made available to it under Article 1 (1) and to the use made of those funds.

Article 3

1. Not later than the 20th day of each month the Member States shall submit to the Commission, in triplicate, an application concerning the financial requirements of disbursing authorities and agencies.

2. An application within the meaning of paragraph 1 shall be accompanied by supporting statements for each disbursing authority and agency drawn up in accordance with the Annexes to this Regulation and comprising:

(a) a statement of the cash position at the end of the preceding month (Annex I);

(b) a statement of expenditure, broken down according to the items of the budget of the European Communities and according to types of expenditure (Annex II), showing:

— the expenditure in the month preceding that in which the application within the meaning of paragraph 1 is made,

---

(1) OJ No L 249, 17. 11. 1970, p. 4.
(2) OJ No L 175, 4. 8. 1971, p. 8.
(3) OJ No L 106, 12. 5. 1971, p. 1.
(4) OJ No L 291, 28. 12. 1972, p. 148.
(5) OJ No L 285, 31. 12. 1970, p. 63.
(6) OJ No L 189, 11. 7. 1973, p. 1.

— the expenditure estimate for the current month and for the two following months.

3. Member States with more than one paying department or agency shall also enclose with the application referred to in paragraph 1:

(a) a summary of the cash position at the end of the preceding month, together with a statement of the funds available in the account opened pursuant to Article 1 (Annex IV);

(b) a summary of the information transmitted in accordance with Annex II (Annex V).

Article 4

1. On the basis of applications within the meaning of Article 3 (1), and not later than one month after receipt thereof, the Commission shall decide on additional payments in accordance with the second indent of Article 5 (2) (a) of Regulation (EEC) No 729/70.

Those payments shall be calculated in such a way that they are large enough to cover expenditure to be borne by the authorities and agencies until the end of the quarter referred to in the second indent of Article 3 (2) (b).

2. The additional payments decided under paragraph 1 shall be made by the Commission within three days of its decision.

Article 5

1. Where funds made available to a Member State are liable to be exhausted before the date laid down for the next payment, that Member State shall notify the Commission and where necessary apply for a special advance, specifying the grounds therefor.

2. On the basis of the notification referred to in paragraph 1, the Commission may decide upon and make a special advance, notification of which shall be made to the Member States when the next advance is decided. The Commission shall notify the Member State concerned by telex of its decision.

Article 6

1. The expenditure referred to in Article 2 (c) of Regulation (EEC) No 786/69, Article 2 (a) of Regulation (EEC) No 787/69, Article 2 (b) of Regulation (EEC) No 788/69, Article 2 (b) of Regulation (EEC) 2334/69, the first indent of Article 1 of Regulation (EEC) No 2305/70, Article 3 (1) of Regulation (EEC) No 2306/70, and Article 1 (b) of Regulation (EEC) No 1697/71, must be declared in Annex II and justified in accordance with Annex III for the months January to November and with Annex VI for the month of December.

2. The data given in column (b) of Annex II, to be submitted to the Commission by 20 January, may be adjusted solely within the framework of the annual accounts to be transmitted to the Commission in accordance with Article 5 (1) (b) of Regulation (EEC) No 729/70.

However, with regard to the expenditure referred to in paragraph 1 hereof, the Member States may transmit to the Commission by 20 February at the latest an adjustment in conformity with Annex VI and concerning the operations of the year just ended.

3. The differences resulting from the adjustment provided for in the second subparagraph of the preceding paragraph shall be taken into consideration within the framework of Annex I for transmission to the Commission by 20 February.

Article 7

1. The monetary compensatory amounts charged or paid in respect of trade between the Member States must be declared separately at the time of submission of the application referred to in Article 3.

2. If collection and payment of the compensatory amounts referred to in paragraph 1 are not carried out by the same agency, the Member States may pay the amounts charged:

— into the account opened pursuant to Article 1 (1)

or

— into the account of a service or agency within the meaning of Article 4 of Regulation (EEC) No 729/70.

Article 8

1. Expenditure chargeable partly to the Guarantee Section and partly to the Guidance Section shall be financed by means of specific advances separate from those referred to in Article 4.

2. The paying departments and agencies shall draw up, and the Member States shall attach to the applications referred to in Article 3 (1), statements, similar to those referred to in Article 3 (2), in respect of the expenditure referred to in the first paragraph hereof.

3. The provisions of Articles 4 and 5 shall apply to decisions on advances to cover the expenditure referred to in the first paragraph hereof.

Article 9

1. The data entered in column (a) of Annex II must correspond:

(a) in the case of the expenditure referred to in Article 6 (1), to the net debits or credits declared, as the case may be, in line 7 of Form C of Annex III or line 18 'credit' of Table IIa of Annex VI;

(b) in the case of all other types of expenditure:

— to payments and receipts actually made during the month in question,

— to any adjustment to the data declared for the preceding months of the same accounting period.

2. In the first indent of paragraph 1 (b) 'payments actually made' means:

— payments for which the account of the relevant department or agency has been debited, or

— payments in respect of which the relevant department or agency has issued and sent a payment order to the beneficiary or a financial institution.

3. Non-executed payment orders and payments which have been debited and then re-credited shall be accounted for by deduction from the expenditure for the month during which the non-execution or cancellation is notified to the paying department or agency.

4. If payments due under the Guarantee Section of the EAGGF are offset by claims, they shall be deemed to have been actually made, within the meaning of the first indent of paragraph 1 (b), in their entirety:

— on the date of payment of the amount remaining due to the beneficiary if the claim is less than the expenditure cleared,

— on the date of clearance of the expenditure if it is less than or equal to the claim.

Article 10

Regulation (EEC) No 2697/70 is repealed with effect from 1 January 1978.

Article 11

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply with effect from 1 January 1978.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 30 January 1978.

For the Commission

Finn GUNDELACH

Vice-President
