COMMISSION REGULATION (EEC) No 486/78

of 8 March 1978

amending for the ninth time Regulation (EEC) No 2005/70 on the classification of vine varieties

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 816/70 of 28 April 1970 laying down additional provisions for the common organization of the market in wine (1), as last amended by Regulation (EEC) No 2560/77 (2), and in particular Article 16 (4) thereof,

Whereas the classification of vine varieties permitted to be used in the original Member States of the Community was laid down by Commission Regulation (EEC) No 2005/70 of 6 October 1970 (3), as last amended by Regulation (EEC) No 1210/77 (4);

Whereas since then experience with several vine varieties listed as authorized varieties for certain Italian administrative units or parts of units has shown that the wine they yield can be considered as normally of good quality; whereas, therefore, such varieties should be classified as recommended varieties for the administrative units or parts of units in question in accordance with Article 10 (2) (a) and (5) of Council Regulation (EEC) No 1388/70 of 13 July 1970 on general rules for the classification of vine varieties (5), as last amended by Regulation (EEC) No 418/74 (6);

Whereas a number of vine varieties should be added as recommended varieties for certain Italian administrative units and one should be added as recommended for a German administrative unit; whereas these varieties have for five years been included in the classification for an adjoining administrative unit and thus meet the requirement for inclusion laid down in Article 10 (1) (a) of Regulation (EEC) No 1388/70;

Whereas certain varieties which have been tested for cultivation suitability and found satisfactory should be included in the classification; whereas in accordance with Article 10 (1) (b) of Regulation (EEC) No 1388/70 these varieties may be provisionally authorized for certain French and Italian administrative units;

Whereas experience with a vine variety classified as a recommended variety for an Italian administrative unit has shown that the wine it yields is below the quality required from a variety classified as recommended; whereas, therefore, it should be classified among the authorized varieties for the administrative unit in question in accordance with Article 10 (2) (b) of Regulation (EEC) No 1388/70;

Whereas account must be taken of an alteration in the boundaries of a French department;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:

Article 1

In the Annex to Regulation (EEC) No 2005/70, Title I, Subtitle I, section I, 'Germany' is amended as follows, the vine variety to be inserted according to its alphabetical position: the variety 'Bacchus B' is added to the recommended varieties for Saarland.
