COMMISSION REGULATION (EEC) No 1092/79

of 1 June 1979

amending for the 11th time Regulation (EEC) No 2005/70 on the classification of vine varieties

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 337/79 of 5 February 1979 on the common organization of the market in wine [1], and in particular Article 30 (4) thereof,

Whereas the classification of vine varieties approved for cultivation in the Community was established by Commission Regulation (EEC) No 2005/70 [2], as last amended by Regulation (EEC) No 2888/78 [3];

Whereas certain varieties, the cultivation suitability of which has been tested and recognized as satisfactory, should be included in the classification; whereas, in accordance with Article 11 (1) (b) of Council Regulation (EEC) No 347/79 of 5 February 1979 concerning general rules on the classification of vine varieties [4], these varieties may be provisionally authorized for certain German administrative units;

Whereas the lists for certain French and Italian administrative units should be supplemented by adding to the recommended varieties a vine variety which has not been included for two French administrative units; whereas this variety has been listed for five years for an immediately adjoining administrative unit and whereas it therefore fulfils the condition for inclusion laid down in Article 11 (1) (a) of Regulation (EEC) No 347/79;

Whereas, since then, experience gained in respect of a variety of vine listed as an authorized variety for a certain Italian administrative unit has shown that the wines which it yields may normally be considered as being of good quality; whereas it should therefore be classified among the recommended varieties for the same administrative unit in accordance with Article 11 (2) (a) and (5) of Regulation (EEC) No 347/79;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:
