COUNCIL REGULATION (EEC) No 1737/79

of 3 August 1979

increasing the volume of the Community tariff quota, opened for 1979, for ferro-chromium, containing not less than 4 % by weight of carbon and falling within subheading ex 73.02 E I of the Common Customs Tariff

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof,

After consulting the Commission,

Whereas by Regulations (EEC) No 326/79 (1) and (EEC) No 928/79 (2), the Council opened, for 1979, and allocated among the Member States, a duty-free Community tariff quota for ferro-chromium, containing not less than 4 % by weight of carbon and falling within subheading ex 73.02 E I of the Common Customs Tariff, the volume of which was fixed at the provisional level of 190 000 tonnes; whereas the benefit of the tariff quota in question was extended by Regulation (EEC) No 326/79 up to the limit of 20 % of its volume, to imports of ferro-chromium containing a quantity of between 3 and 4 % by weight of carbon;

Whereas it can be estimated from the economic data now available on consumption, production and imports benefiting from other preferential tariff arrangements that Community requirements of imports from third countries could, during the current year, reach a level far higher than the volume of the abovementioned quota; whereas, in order not to disturb the equilibrium of the market for this ferro-alloy and to ensure parallel development in sales of Community production and satisfactory security of supplies to the consuming industries, it is appropriate to limit any increase in the quota volume to the volume of the needs foreseeable up to 31 December 1979, i.e. 140 000 tonnes, and to review the position in due course with a view to making a further adjustment;

Whereas, as regards the allocation of this volume among the Member States, it is appropriate to assign a relatively small part of the additional volume to a Community reserve, the balance of this volume being allocated among the Member States in proportion to their foreseeable needs for imports from third countries,

HAS ADOPTED THIS REGULATION:

Article 1

The volume of the Community tariff quota opened by Regulations (EEC) No 326/79 and (EEC) No 928/79 for ferro-chromium, containing not less than 4 % by weight of carbon and falling within subheading ex 73.02 E I of the Common Customs Tariff, shall be raised from 190 000 to 330 000 tonnes.

Article 2

1. A first instalment of the additional volume referred to in Article 1, i.e. 138 000 tonnes, shall be allocated among the Member States as follows:

	(tonnes)
Benelux	8 910
Denmark	25
Germany	57 690
France	21 225
Italy	28 200
United Kingdom	21 950

2. The second instalment of 2 000 tonnes shall constitute the reserve.

The reserve laid down by Article 2 (2) of Regulation (EEC) No 326/79, as amended by Regulation (EEC) No 928/79, is thus raised from 9 000 to 11 000 tonnes.

Article 3

This Regulation shall enter into force on the seventh day following its publication in the *Official Journal of the European Communities.*

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 3 August 1979.

For the Council

The President

M. O'KENNEDY
