COMMISSION REGULATION (EEC) No 1784/79

of 10 August 1979

laying down for the wine-growing year 1979/80 detailed rules governing the distillation of wines produced from table grapes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 337/79 of 5 February 1979 laying down additional provisions for the common organization of the market in wine (1), as amended by Regulation (EEC) No 1303/79 (2), and in particular Article 41 (4) thereof,

Whereas final dates must be set for the submission of applications pursuant to the second subparagraph of Article 1 (1) of Council Regulation (EEC) No 343/79 of 5 February 1979 laying down general rules governing the distillation of wines (3) as amended by Regulation (EEC) No 1709/79 (4); whereas final dates should also be set for the approval of applications and for the distillation operation in question, so as to facilitate control measures;

Whereas those wishing to conclude a distillation contract need to be informed in good time whether their application has been approved;

Whereas it is necessary to specify what points must be covered by the distillation contracts;

Whereas the prices of wines which go for distillation are such as to prevent the products obtained by such distillation from being marketed on normal terms; whereas it is therefore necessary to provide aid and to fix the amount thereof, including normal costs, at a level which enables such products to be marketed;

Whereas under Article 4 of the aforesaid Regulation aid is to be paid to the producer in two instalments; whereas, if the producer is to receive all the aid in good time, it should be stipulated that payment of the second instalment must be made within 30 days following the distillation;

Whereas technical conditions for the approval of distillers must be laid down; whereas it is also necessary to make provision for withdrawal of approval from the distiller in the event of default by the latter for reasons other than *force majeure* or unavoidable accident;

Whereas the intervention agencies referred to in Article 8 of Council Regulation (EEC) No 343/79 must be informed of the progress of the distillation operations and must in particular know the quantities of table wine distilled and the quantities of alcohol obtained;

Whereas Article 41 (4) of Regulation (EEC) No 337/79 lays down the conditions under which the derogations provided for in paragraph 1 apply to the varieties included as both wine grapes and table grapes in the classification for a given administrative unit; whereas those conditions must ensure that the quantities of wine obtained from the said exempted varieties correspond to the quantities normally used for wine-making; whereas Commission Regulation (EEC) No 2078/76 (5) laid down that the Member States must determine those quantities by taking as a reference period the wine-growing years 1969/70 to 1975/76; whereas, since the object of paragraph 4 of the said Article 41 is to maintain the existing state of affairs, the levels fixed by the Member States for the wine-growing year 1976/77 in accordance with Regulation (EEC) No 2078/76 should be retained for the wine-growing year 1979/80.

Whereas the Management Committee for Wine has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:
