COMMISSION REGULATION (EEC) No 292/79

of 15 February 1979

terminating private storage aid for table wine of the type A II

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 816/70 of 28 April 1970 laying down additional provisions for the common organization of the market in wine (1), as last amended by Regulation (EEC) No 3065/78 (2), and in particular Article 5 (7) thereof,

Whereas Article 5 (1) of the said Regulation introduces a system of aid for the private storage of table wine and lays down than the granting of such aid is to be subject to the conclusion of a short-term or a long-term storage contract; whereas the first subparagraph of paragraph 2 of the said Article lays down that short-term storage contracts may be entered into when the representative price of a type of table wine remains below the activating price for two consecutive weeks and that such contracts may no longer be entered into when the representative price of this type of wine is above the activating price for two consecutive weeks;

Whereas Commission Regulation (EEC) No 2615/78 of 8 November 1978 concerning the private storage subsidy for the A II type of table wine (3) provides for the granting of such aid for such wine from 9 November 1978;

Whereas it has been established that the representative price for this type of wine during the past two weeks has been higher than the activating price;

Whereas the conditions set out in the second indent of the first subparagraph of Article 5 (2) of Regulation (EEC) No 816/70 are therefore fulfilled,

HAS ADOPTED THIS REGULATION:

Article 1

No short-term private storage contract may be entered into for table wine of the type A II.

Article 2

This Regulation shall enter into force on 16 February 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 February 1979.

For the Commission

Finn GUNDELACH

Vice-President
