COUNCIL REGULATION (EEC) No 1779/80

of 30 June 1980

fixing, for the 1980 harvest, the norm and intervention prices, the premiums granted to purchasers of leaf tobacco, the derived intervention prices for baled tobacco and the reference qualities

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to Council Regulation (EEC) No 727/70 of 21 April 1970 on the common organization of the market in raw tobacco (1), as last amended by Regulation (EEC) No 1778/80 (2), and in particular Articles 2 (5), 4 (4) and 6 (8) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (3),

Having regard to the opinion of the Economic and Social Committee (4),

Having regard to the opinion of the Monetary Committee,

Whereas, when fixing the prices for raw tobacco, account should be taken both of the objectives of the common agricultural policy and of the contribution which the Community intends to make to the harmonious growth of world trade; whereas the aims of the common agricultural policy are, in particular, to provide the agricultural population with a reasonable standard of living, guarantee security of supplies and ensure fair prices for consumers;

Whereas the norm and intervention prices for leaf tobacco must be fixed in accordance with the criteria laid down in Article 2 (2) of Regulation (EEC) No 727/70 in order in particular to encourage producers to convert to the cultivation of those varieties which are most competitive and most in demand;

Whereas Council Regulation (EEC) No 1557/79 of 24 July 1979 laying down special measures in the raw tobacco sector in respect of the Perustitza and Erzegovina varieties (5), provided for a reduction of the intervention price of these tobaccos;

Whereas it is desirable to fix, in respect of the 1980 harvest, derived intervention prices both for the varieties which, before the common organization of the market came into force, were subject to a price guarantee at the baled tobacco stage, and for the varieties which are grown mainly in Germany, in order to take account of marketing practices in that country; whereas, to this end, both increased costs and increased productivity should be taken into consideration;

Whereas the premium granted to purchasers of Community tobacco is intended to enable them to pay producers of leaf tobacco a price which is at the level of the norm price, account being taken of the trend in world market prices and the level of prices established by supply and demand on the Community market;

Whereas the abovementioned prices and the amount of the premium must be fixed for each variety in relation to a reference quality defined in such a way that as objective as possible an assessment can be made of the quality of the tobacco;

Whereas the Samsun variety has hitherto been cultivated in the Community on an experimental basis but is now produced on a commercial basis; whereas its characteristics are such that it should be included in the list of Community varieties under the same serial number as the Perustitza variety;

Whereas, in order better to reflect the market situation, a more precise definition should be given of the reference qualities of certain varieties of tobacco, both in leaf and baled, in respect in particular of the botanical and commercial characteristics; whereas it is also advisable that the reference qualities of each of the varieties of oriental tobacco, hitherto listed together under one heading, should be defined separately; whereas, moreover, some changes in the packaging of baled tobacco have taken place; whereas the reference qualities for leaf tobacco and baled tobacco should be amended accordingly;

Whereas Regulation (EEC) No 1366/80 (6) provides that for the tobacco sector from 1 June 1980 a new representative rate shall be applied to the currencies of certain Member States; whereas this provision should lead, from that date, to a reduction, in national currency terms, of the premium fixed in units of account for a substantial part of the harvest in those Member States whose representative rate is revalued; whereas it seems more appropriate to the nature of this sector that the same conditions should apply to

(2) See page 1 of this Official Journal.
(3) OJ No C 97, 21. 4. 1980, p. 33.
(4) Opinion delivered on 26 March 1980 (not yet published in the Official Journal).
(5) OJ No L 188, 26. 7. 1979, p. 14.
(6) OJ No L 140, 5. 6. 1980, p. 19.

the entire harvest in a given year; whereas this objective can be achieved if the former rate of exchange for the Member States concerned were to remain applicable to premiums paid for the 1979 harvest,

HAS ADOPTED THIS REGULATION:

Article 1

For the 1980 harvest, the reference qualities for each of the varieties of leaf tobacco of Community production, referred to in Article 2 (3) (c) of Regulation (EEC) No 727/70, shall be as laid down in Annex I.

Article 2

For the 1980 harvest, the reference qualities referred to in Article 6 (3) (c) of Regulation (EEC) No 727/70, for each of the varieties of baled tobacco of Community production in respect of which a derived intervention price is fixed, shall be as laid down in Annex II.

Article 3

For the 1980 harvest, the norm and intervention prices and the amounts of the premium granted to purchasers of leaf tobacco referred to in Articles 2 and 3 of Regulation (EEC) No 727/70, and the derived intervention prices for baled tobacco referred to in Article 6 of the said Regulation, shall be as laid down in Annex III.

Article 4

The exchange rate to be applied in the Federal Republic of Germany and the Benelux countries for the purposes of the premiums for the 1979 harvest shall, until 31 March 1981, be the representative rate applicable to the currencies in question prior to 1 June 1980.

Article 5

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities.*

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 30 June 1980.

For the Council

The President

V. BALZAMO

ANNEX I

Leaf tobacco : varieties and their reference qualities for the 1980 harvest

Serial No	Variety	Reference quality
1	a) Badischer Geudertheimer b) Forchheimer Havanna II c)	Class 1 Hauptgut (top quality leaf) Class 1 : leaf ripe, sound, without blemish, dark brown to mottled brown, of uniform length Packaging : tobacco graded, tied in hands or in temporary bales with non-tobacco material Moisture : 26 %
2	Badischer Burley E	Class 1 Hautpgut (top quality leaf) Class 1 : leaf ripe, sound, without blemish, fleshy, reddish brown to light brown, of uniform length Packaging : tobacco graded, tied in hands or in temporary bales with non-tobacco material Moisture : 25 %
3	Virgin D	Class 1 Leaf Class 1 : leaf ripe, sound, without blemish, yellow to reddish yellow ; variations in colour such as brownish to greenish yellow are allowed up to a third of the leaf's surface Packaging : tobacco graded, tied in hands or in temporary bales with non-tobacco material Moisture : 19 %
4	a) Paraguay and hybrids thereof b) Dragon vert and hybrids thereof, Philippin, Petit Grammont (Flobecq), Semois, Appelterre	Class 2 Middle leaf Class 2 : leaf sound, with minor defects as regards colour, texture, or ripeness but with satisfactory combustibility Packaging : tobacco graded and tied in hands or straight laid (loose leaf) Moisture : 27 %
5	Nijkerk	Class 2 Tips Class 2 : — either leaf of second length (not exceeding 45 cm) with very gummy texture, fleshy, still undamaged ; strong and elastic, without prominent veins, well ripened producing a lively brown to dark brown colour ; — or leaf of first length (exceeding 45 cm) with a texture still gummy, fleshy and still undamaged, strong, with relatively prominent veins, of all colours except bottle green Packaging : tobacco graded and tied in hands or straight laid (loose leaf) Moisture : 27 %
6	a) Misionero and hybrids thereof b) Rio Grande and hybrids thereof	2nd quality leaf 2nd quality : leaf fully developed over 45 cm, not coarse grained, lively to fairly lively light somewhat yellowish colour, reasonably firm and undamaged ; reasonably good combustibility Packaging : tobacco graded and tied in hands or straight laid (loose leaf) Moisture : 27 %

Serial No	Variety	Reference quality
7	Bright	Leaf in Category A Category A : leaf sufficiently ripe, without curing defects, open texture, with stems (midribs) and veins not too prominent, sound, of various shades of yellow Packaging : in temporary bales of 30 to 40 kg Moisture : 16 %
8	Burley I	Leaf in Category A Category A : leaf sufficiently ripe, without curing defects, of open possibly firm texture, stems (midribs) and veins not too prominent, sound, of a more or less lively nut-brown colour Packaging : in temporary bales of 30 to 40 kg or tied in hands of 25 to 30 leaves with non-tobacco material (fascicoli) Moisture : 19 %
9	Maryland	Leaf in Category A Category A : leaf sufficiently ripe, with slight curing defects and only slightly mottled, of average texture with stems (midribs) and veins not too prominent, sound, of a rather lively reddish brown colour Packaging : in temporary bales of 30 to 40 kg or tied in hands of 25 to 30 leaves with non-tobacco material (fascicoli) Moisture : 19 %
10	a) Kentucky and hybrids thereof b) Moro di Cori c) Salento	Leaf in Category B Category B : leaf fully ripe, of firm texture, with slight curing and condition defects, brown in colour, with some damage, with good combustibility Packaging : in hands of 25 to 30 leaves tied with a non-tobacco material (fascicoli) Moisture : 23 %
11	a) Nostrano del Brenta b) Resistente 142 c) Gojano	Leaf in Category B Category B : leaf of firm or light texture, sound, well cured, or properly fermented according to the traditional method, brown or dark brown in colour, with minor damage Packaging : in hands of 25 to 30 leaves tied with a non-tobacco material (fascicoli) Moisture : 22 %
12	a) Beneventano b) Brasile Selvaggio and similar varieties	Leaf in Category B Category B : leaf sufficiently ripe, firm texture or possibly coarse or thin, with minor defects as regards curing and fermentation and damage Packaging : in hands of 25 to 30 leaves tied with non-tobacco material (fascicoli) Moisture : 24 %

Serial No	Variety	Reference quality
13	Xanti-Yakà	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile, of oval or elliptical shape, stems (midribs) not too prominent and well-spaced veins, with some curing defects, mainly of light texture, from yellow to brown in colour, with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility The length of the middle leaves not to exceed 20 cm Packaging : in temporary bales of 15 to 20 kg or 'stringed' in cases of 30 to 40 kg Moisture : 17 %
14	a) Perustitza b) Samsun	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile (Perustitza) or with leaf stalks (Samsun), of elliptical-lanceolate shape with fine points (Perustitza) or elliptical and rounded (Samsun), without prominent stems (midribs) and with veins at a rather acute angle, with slight curing defects, generally of light texture, in colour from yellow to brown (Perustitza), or reddish (Samsun), with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility The length of the middle leaves not to exceed 25 cm Packaging : in temporary bales of 15 to 20 kg or 'stringed' in cases of 30 to 40 kg Moisture : 17 %
15	Erzegovina and similar varieties	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile, of oval or elliptical shape, with fairly prominent stems (midribs) and fairly open veins, with some curing defects, mainly of light texture, from yellow to brown in colour, with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility The length of the middle leaves not to exceed 35 cm Packaging : in temporary bales of 15 to 20 kg or 'stringed' in cases of 30 to 40 kg Moisture : 17 %
16	a) Round Tip b) Scafati c) Sumatra I	Leaf in Category B Category B : lower middle leaf, sorted by length in the following proportions : 1st length (38 cm and over) 60 % 2nd length (from 32 to under 38 cm) 35 % 3rd length (from 25 to under 32 cm) 5 % leaf of convenient size, fully ripe and of uniform colour, sound, without damage, fine texture, tensile and elastic, stems and veins not prominent, well fermented and in good condition, good combustibility, of typical flavour and aroma, suitable for wrapping cigars, including about 25 % broken leaf Packaging : in hands tied with a non-tobacco material (fascicoli) Moisture : 22 %

ANNEX II

Baled tobacco : varieties and their reference qualities for the 1980 harvest

Serial No	Variety	Reference quality
1	a) Badischer Geudertheimer b) Forchheimer Havanna II c)	Class 1 Hauptgut (top quality leaf) Class 1 : leaf ripe, sound, without blemish, dark brown to mottled brown, of uniform length, fermented normally Packaging : in bales, cases or cartons of approximately 75 to 200 kg or in barrels of approximately 225 to 450 kg Moisture : 16 %
2	Badischer Burley E	Class 1 Hauptgut (top quality leaf) Class 1 : leaf ripe, sound, without blemish, fleshy light brown to reddish or dark brown, of uniform length, fermented normally Packaging : in bales or cases of approximately 75 to 175 kg or in barrels of approximately 225 to 450 kg Moisture : 15 %
3	Virgin D	Class 1 leaf Class 1 : leaf ripe, sound, without blemish, yellow to reddish or brownish yellow, fermented normally Packaging : in bales or cases of approximately 75 to 175 kg or in barrels of approximately 225 to 450 kg Moisture : 13 %
7	Bright	Leaf in Category A Category A : leaf sufficiently ripe, without curing defects, open texture, with stems (midribs) and veins not too prominent, sound, of various shades of yellow Packaging : in barrels of approximately 280 to 450 kg or cartons of approximately 150 to 210 kg Moisture : 13 %
8	Burley I	Leaf in Category A Category A : leaf sufficiently ripe, without curing defects, of open possibly firm texture, stems (midribs) and veins not too prominent, sound, of a more or less lively nut-brown colour Packaging : in barrels of approximately 280 to 450 kg or cartons of approximately 150 to 210 kg Moisture : 13 %
9	Maryland	Leaf in category A Category A : leaf sufficiently ripe, with slight curing defects and only slightly mottled, of average texture, stems (midribs) and veins not too prominent, sound, of a rather lively reddish brown colour Packaging : in barrels of approximately 280 to 450 kg or cartons of approximately 150 to 210 kg Moisture : 13 %

Serial No	Variety	Reference quality
10	a) Kentucky and hybrids thereof b) Moro di Cori c) Salento	Leaf in Category B Category B : leaf fully ripe, of firm texture, with slight curing and condition defects, brown in colour, with some damage, of good combustibility Packaging : in barrels of approximately 280 to 450 kg or bags of approximately 170 to 200 kg Moisture : 16 %
11	a) Nostrano del Brenta b) Resistente 142 c) Gojano	Leaf in Category B Category B : leaf of firm or light texture, sound, well cured, and properly fermented, brown or dark brown in colour, with minor damage Packaging : in bales of approximately 170 to 180 kg Moisture : 18 %
12	a) Beneventano b) Brasile Selvaggio and similar varieties	Leaf in Category B Category B : leaf sufficiently ripe, firm texture or possibly coarse or thin, with minor defects as regards curing and fermentation and damage Packaging : in bales of approximately 120 kg or barrels of approximately 330 kg Moisture : 16 %
13	Xanti-Yakà	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile, of oval or elliptical shape, stems (midribs) not too prominent and well-spaced veins, with some curing defects, mainly of light texture, from yellow to brown in colour, with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility the length of the middle leaves not to exceed 20 cm Packaging : in small bales of approximately 18 to 50 kg Moisture : 13 %
14	a) Perustitza b) Samsun	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile (Perustitza) or with leaf stalks (Samsun) of elliptical-lanceolate shape with fine points (Perustitza) or elliptical and rounded (Samsun) without prominent stems (midribs) and with veins at a rather acute angle, with slight curing defects, generally of light texture, in colour from yellow to brown (Perustitza) or reddish (Samsun), with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility the length of the middle leaves not to exceed 25 cm Packaging : in small bales of approximately 18 to 50 kg Moisture : 13 %

Serial No	Variety	Reference quality
15	Erzegovina and similar varieties	Leaf in Category B Category B : leaf reasonably sound and ripe, sessile, of oval or elliptical shape, with fairly prominent stems (midribs) and fairly open veins, with some curing defects, mainly of light texture, from yellow to brown in colour, with marked damage but in good condition, taken from all positions on the stalk, with discreet flavour, sufficient aroma and good combustibility the length of the middle leaves not to exceed 35 cs Packaging : in small bales of approximately 18 to 50 kg Moisture : 13 %
16	a) Round Tip b) Scafati c) Sumatra I	Leaf in Category B Category B : lower middle leaf, sorted by length in the following proportions : 1st length (38 cm and over) 60 % 2nd length (from 32 to under 38 cm) 35 % 3rd length (from 25 to under 32 cm) 5 % leaf of convenient size, fully ripe and of uniform colour, sound, without damage, fine texture, tensile and elastic, stems and veins not prominent, well fermented and in good condition, good combustibility, of typical flavour and aroma, suitable for wrapping cigars, including about 25 % broken leaf Packaging : in bales of approximately 70 to 90 kg or cartons of approximately 180 to 210 kg Moisture : 16 %
