COMMISSION REGULATION (EEC) No 3178/80

of 5 December 1980

on air transport costs to be included in the value for customs purposes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1224/80 of 28 May 1980 on the valuation of goods for customs purposes [1], and in particular Article 19 thereof,

Whereas, pursuant to Article 14 (1) (d) of Regulation (EEC) No 1224/80, the place of introduction into the customs territory of the Community is, for goods carried by air, the place where the land frontier of the customs territory of the Community is crossed;

Whereas Article 15 (2) (a) of that Regulation provides, in particular, that when goods are carried by the same means of transport to a point beyond the place of introduction into the customs territory of the Community, transport costs shall be assessed in proportion to the distance covered outside and inside the customs territory of the Community;

Whereas the fixing in advance of the percentages of air transport costs to be included in the value for customs purposes according to the various airports of departure and destination will facilitate declarations concerning the value of goods for customs purposes, and the verification by the customs authorities of those declarations;

Whereas it is appropriate to draw up a table of these percentages based in each case on the most direct air route, unless another air route crosses the Community frontier at a place nearer the airport of departure;

Whereas this Regulation replaces Commission Regulation (EEC) No 1033/77 [2];

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Customs Valuation Committee,

HAS ADOPTED THIS REGULATION:

Article 1

The air transport costs to be included in the value of goods for customs purposes shall be determined by applying the rules and percentages shown in the Annex.

Article 2

Regulation (EEC) No 1033/77 is hereby repealed.

Any references to it shall be deemed to refer to this Regulation.

Article 3

This Regulation shall enter into force on 1 January 1981.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 5 December 1980.

For the Commission

Étienne DAVIGNON

Member of the Commission

(2) OJ No L 127, 23. 5. 1977, p. 1.

ANNEX

AIR TRANSPORT COSTS TO BE INCLUDED IN THE VALUE FOR CUSTOMS PURPOSES

Introductory notes

1. The following table shows:

   (a) third countries listed by continent (column 1);

   (b) airports of departure in third countries (column 2);

   (c) airports of arrival in the Communities with the percentages which represent the part of the air transport costs to be included in the value for customs purposes (column 3 and following columns).

2. When the goods are shipped to or from airports not included in the following list, other than the airports referred to in paragraph 3, the percentage given for the airport nearest to that of departure or arrival should be taken.

3. As regards the French overseas departments of Guadeloupe, Guiana, Martinique and Reunion, and as regards Greenland, of which territories the airports are not included in the list, the following rules shall apply:

   (a) for goods shipped direct from third countries to these territories, the whole of the cost of air transport to these airports is to be included in the value for customs purposes;

   (b) for goods shipped from third countries to the European part of the Community and transhipped or unloaded in one of those territories, the air transport costs which would have been incurred for carrying the goods only as far as the airport of transhipment or unloading are to be included in the value for customs purposes;

   (c) for goods shipped from third countries to those territories and transhipped or unloaded in an airport in the European part of the Community, the air transport costs to be included in the value for customs purposes are those which result from the application of the percentages given in the following list to the costs which would have been incurred for carrying the goods from the airport of departure to the airport of transhipment or unloading.

The transhipment or unloading shall be certified by an appropriate endorsement by the customs authorities on the airway bill, with the official stamp of the office concerned; failing this certification the provisions of the last subparagraph of Article 14 (3) of Regulation (EEC) No 1224/80 shall apply.

Percentages of air transport costs to be included in the value for customs purposes
