COMMISSION REGULATION (EEC) No 3510/80

of 23 December 1980

on the definition of the concept of originating products for purposes of the application of tariff preferences granted by the European Economic Community in respect of certain products from developing countries

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3322/80 of 16 December 1980 establishing a multiannual scheme of generalized tariff preferences and its application for 1981 in respect of certain industrial products originating in developing countries (1), and in particular Article 1 thereof,

Having regard to Council Regulation (EEC) No 3320/80 of 16 December 1980 opening, allocating and providing for the administration of Community tariff preferences for textile products originating in developing countries and territories (2), and in particular Article 1 thereof,

Having regard to Council Regulation (EEC) No 3321/80 of 16 December 1980 establishing a multiannual scheme of generalized tariff preferences and its application for 1981 in respect of certain agricultural products originating in developing countries (3), and in particular Article 1 thereof,

Whereas, as regards all the products referred to in the abovementioned Regulations, rules should be established to define the conditions in which they acquire the character of originating products, the mode of proof and the terms as to verification thereof; whereas it is appropriate for this purpose to adopt the provisions of Regulation (EEC) No 3067/79 of 20 December 1979 on the definition of the concept of originating products for the purposes of the application of tariff preferences granted by the European Economic Community in respect of certain developing countries (4); whereas it is necessary to amend that Regulation in view of experience gained;

Whereas the Decision of the representatives of the Governments of the Member States of the European Coal and Steel Community, meeting within the Council, of 16 December 1980 establishing for the year 1981 generalized tariff preferences for certain steel products originating in developing countries (80/1185/ECSC) (5) provide that the concept of originating products is to be defined under the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 concerning the common definition of the concept of the origin of goods (6); whereas the rules to be applied for this purpose should be the same as those laid down for other products;

Whereas it is necessary to make transitional provisions for the benefit of those countries certain of whose products have not previously enjoyed tariff preferences;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Committee on Origin,

HAS ADOPTED THIS REGULATION:

TITLE 1

Article 1

1. For the purpose of implementing the provisions concerning tariff preferences granted by the Community to certain products originating in developing countries, the following shall be considered as products originating in a country enjoying those preferences (hereinafter referred to as a 'beneficiary country'), provided that these products have been transported direct, within the meaning of Article 5, to the Community:

(a) products wholly obtained in that country;

(b) products obtained in that country in the manufacture of which products other than those referred to in (a) are used, provided that the said products have undergone sufficient working or processing within the meaning of Article 3.

2. The products in List C are excluded from the scope of this Regulation.

Article 2

The following shall be considered as wholly obtained in a beneficiary country within the meaning of Article 1 (a):

(a) mineral products extracted from its soil or from its sea bed;

(b) vegetable products harvested there;

(c) live animals born and raised there;

(d) products obtained there from live animals;

(e) products obtained by hunting or fishing conducted there;

(f) products of sea fishing and other products taken from the sea by its vessels;

(g) products made on board its factory ships exclusively from the products referred to in (f);

(h) used articles collected there fit only for the recovery of raw materials;

(i) waste and scrap resulting from manufacturing operations conducted there;

(j) products produced there exclusively from products specified in (a) to (i).

Article 3

1. For the purposes of implementing the provisions for Article 1 (b), the following shall be considered as sufficient working or processing:

(a) working or processing as a result of which the products obtained receive a classification under a tariff heading other than that covering each of the products worked or processed, except, however, working or processing specified in List A, where the special provisions of that list apply;

(b) working or processing specified in List B.

The expressions 'section', 'chapter' and 'tariff heading' shall mean respectively sections, chapters and tariff headings in the Customs Cooperation Council nomenclature for the classification of goods in customs tariffs.

2. When, for a given product obtained, a percentage rule limits in List A and in List B the value of the materials and parts which can be used, the total value of these materials and parts, whether or not they have changed tariff heading in the course of the working, processing or assembly within the limits and under the conditions laid down in each of those two lists, may not exceed, in relation to the value of the product obtained, the value corresponding either to the common rate, if the rates are identical in both lists, or to the higher of the two if they are different.

3. For the purpose of implementing Article 1 (b), the following shall in any event be considered as insufficient working or processing to confer the status of originating products, irrespective of whether or not there is a change of tariff heading:

(a) operations to ensure the preservation of products in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);

(b) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making-up of sets of articles), washing, painting, cutting up;

(c) (i) changes of packing and breaking up and assembly of consignments,

(ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards, etc., and all other simple packing operations;

(d) the affixing of marks, labels or other like distinguishing signs on products or their packaging;

(e) simple mixing of products, whether or not of different kinds, where one or more components of the mixture do not meet the conditions laid down in this Regulation to enable them to be considered as originating products;

(f) simple assembly of parts of products to constitute a complete product;

(g) a combination of two or more operations specified in (a) to (f);

(h) slaughter of animals.

Article 4

Where Lists A and B referred to in Article 3 provide that products obtained in a beneficiary country shall be considered as originating therein only if the value of the products used does not exceed a given percentage of the value of the products obtained, the values to be taken into consideration for determining such percentage shall be:

— on the one hand,

as regards products whose importation can be proved, their customs value at the time of importation;

as regards products of undetermined origin, the earliest ascertainable price paid for such products in the territory of the country where manufacture takes place;

— and on the other hand,

the ex-works price of the products obtained, less internal taxes refunded or refundable on exportation.

Article 5

1. The following shall be considered as transported direct from the exporting beneficiary country to the Community:

(a) products transported without passing through the territory of another country;

(b) products transported through the territories of countries other than the exporting beneficiary country, with or without transhipment or temporary warehousing within those countries, provided that transport through those countries is justified for geographical reasons or exclusively on account of transport requirements and that the products have remained under the surveillance of the customs authorities of the country of transit or warehousing, and have not entered into commerce or been delivered for home use there, and have not undergone operations other than unloading, reloading and any operation intended to keep them in good condition;

(c) products transported through the territory of Austria, Finland, Norway, Sweden or Switzerland and which are subsequently re-exported in full or in part to the Community, provided that the products have remained under the surveillance of the customs authorities of the country of transit or warehousing and have not been delivered for home use and have not undergone operations other than unloading, reloading and any operation intended to keep them in good condition there.

2. Evidence that the conditions specified in paragraph 1 (b) and (c) have been fulfilled shall be supplied to the appropriate customs authorities in the Community by the production of;

(a) a through bill of lading drawn up in the exporting beneficiary country covering the passage through the country of transit; or

(b) a certification by the customs authorities of the country of transit:

— giving an exact description of the products,

— stating the dates of unloading and reloading of the products or of their embarkation or disembarkation, identifying the ships used,

— certifying the condition under which the products remained in the transit country; or

(c) failing these, any substantiating documents.

Article 6

1. Originating products within the meaning of this Regulation shall be eligible, on importation into the Community, to benefit from the tariff preferences specified in Article 1 on production of a certificate of origin Form A issued either by the customs authorities or by other governmental authorities of the exporting beneficiary country, provided that the latter country assists the Community by allowing the customs authorities of Member States to verify the authenticity of the document or the accuracy of the information regarding the true origin of the products in question.

2. However, originating products within the meaning of this Regulation which are sent by post (including those sent by parcel post) shall, provided that the consignments contain only originating products and

that their value does not exceed 1 420 EUA (1) per consignment, qualify on entry into the Community for the tariff preferences specified in Article 1 on production of a Form APR, on condition that the assistance specified in the preceding paragraph is forthcoming in respect of the said form.

3. Originating products within the meaning of this Regulation shall be eligible on importation into the Community to benefit from tariff preferences specified in Article 1 on production of a certificate of origin Form A issued by the customs authorities of Austria, Finland, Norway, Sweden or Switzerland on the basis of a certificate of origin Form A issued by the appropriate authorities of the exporting beneficiary country provided that the conditions laid down in Article 5 have been fulfilled and provided that Austria, Finland, Norway, Sweden or Switzerland assists the Community by allowing its customs authorities to verify the authenticity and accuracy of the certificates of origin Form A. The procedure laid down in Article 12 (1) shall apply *mutatis mutandis*. The time period laid down in the first subparagraph of Article 27 shall be extended to eight months.

4. Without prejudice to Article 3 (3), where, at the request of the person declaring the goods at the customs, a dismantled or non-assembled article falling within Chapter 84 or 85 of the Common Customs Tariff (CCT) is imported by instalments on the conditions laid down by the appropriate authorities, it shall be considered to be a single article and a certificate of origin Form A may be submitted for the whole article upon importation of the first instalment.

5. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the price thereof or are not separately invoiced shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

6. Sets in the sense of the General Rule 3 of the CCC nomenclature shall be regarded as originating when all component articles are originating products. Nevertheless, when a set is composed of originating and non-originating articles, the set as a whole shall be regarded as originating provided that the value of the non-originating articles does not exceed 15 % of the total value of the set.

Article 7

1. The certificate of origin Form A must be produced, to the Community customs office at which the goods are presented, within 10 months of the date of issue by the appropriate governmental authority of the exporting beneficiary country.

2. Certificates of origin Form A produced to the appropriate customs authorities in the Community after expiry of the time limit stipulated in paragraph (1) may be accepted for the purpose of applying the tariff preferences specified in Article 1 where the failure to observe this time limit is due to *force majeure* or to exceptional circumstances.

The appropriate Community customs authorities may also accept such certificates where the products have been presented to them before expiry of the said time limit.

Article 8

Certificates shall be produced to the customs authorities in the importing State in accordance with the procedures laid down by that State. The said authorities may require a translation of a certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the tariff preferences specified in Article 1.

Article 9

1. The Community shall admit products sent as small packages to private persons or forming part of travellers' personal luggage as originating products benefiting from the tariff preferences specified in Article 1 without requiring the production of a certificate of origin Form A or the completion of a Form APR,

(1) In application of Article 2 (4) of Regulation (EEC) No 2779/78 of 23 November 1978 the equivalent in national currencies of the European unit of account (EUA) is as follows:

1 EUA =	German mark	2·58101,
	Pound sterling	0·668451,
	French franc	5·60057,
	Italian lira	1 062·79,
	Dutch guilder	2·77740,
	Belgian franc	40·6953,
	Luxembourg franc	40·6953,
	Danish krone	7·01962,
	Irish pound	0·668451.

The amounts in the national currencies which result from the conversion of the amounts, expressed in European units of account can be rounded up.

provided that such products are not imported by way of trade and have been declared as meeting the conditions required for the application of that Article, and where there is no doubt as to the veracity of such declaration.

2. Importations which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as importations by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

Furthermore, the total value of these products must not exceed 90 EUA in the case of small packages or 285 EUA in the case of the contents of travellers' personal luggage.

Article 10

1. Products sent from a beneficiary country for exhibition in another country and sold for importation into the Community shall benefit on importation from the tariff preferences specified in Article 1 on condition that the products meet the requirements of this Regulation entitling them to be recognized as originating in the exporting beneficiary country and provided that it is shown to the satisfaction of the appropriate Community customs authorities that:

(a) an exporter has consigned the products from the territory of the exporting beneficiary country direct to the country in which the exhibition is held;

(b) the products have been sold or otherwise disposed of by that exporter to a person in the Community;

(c) the products have been consigned to the Community in the state in which they were sent for exhibition;

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A certificate of origin Form A must be produced to the appropriate Community customs authorities in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the products and the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

Article 11

The discovery of slight discrepancies between the statements made in the certificate and those made in the documents produced to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the certificate null and void, provided it is duly established that the certificate corresponds to the products concerned.

Article 12

1. Subsequent verifications of certificates Form A and Form APR shall be carried out at random or whenever the appropriate customs authorities in the Community have reasonable doubt as to the authenticity of the document or as to the accuracy of the information regarding the true origin of the products in question.

2. For the purpose of implementing the provisions of paragraph 1 above, the appropriate customs authorities in the Community shall return the certificate Form A or the Form APR to the appropriate governmental authority in the exporting beneficiary country, giving where appropriate the reasons of form or substance for an enquiry. If the invoice has been submitted, such invoice or a copy thereof shall be attached to Form APR. The customs authorities shall also forward any information that has been obtained suggesting that the particulars given on the said certificate or the said form are inaccurate.

If the said authorities decide to suspend the tariff preferences specified in Article 1 pending the results of the verification, they shall offer to release the products to the importer subject to any precautionary measures judged necessary.

Article 13

The Explanatory Notes, Lists A, B and C, the specimen certificate of origin Form A and the specimen Form APR which are annexed to this Regulation shall form an integral part of this Regulation.

TITLE II

Article 14

For the purpose of implementing the provisions concerning tariff preferences specified in Article 1, every beneficiary country shall comply or ensure compliance with the rules concerning the completion and issue of certificates of origin Form A, the conditions for the use of Form APR and those concerning administrative cooperation contained in the following Articles.

Section I

Completion and issue of certificates of origin Form A

Article 15

1. A certificate of origin shall be issued only upon written application from the exporter or his authorized representative.

2. The exporter or his representative shall submit with his application any appropriate supporting document proving that the products to be exported qualify for the issue of a certificate of origin.

Article 16

It shall be the responsibility of the appropriate governmental authorities of the exporting beneficiary countries to ensure that certificates and applications are duly completed.

Article 17

The certificate must conform to the specimen shown in the Annex.

Each certificate shall measure 210 × 297 mm, a tolerance of up to plus 8 mm or minus 5 mm in the length may be allowed. The paper used shall be white writing paper, sized, not containing mechanical pulp and weighing not less than 25 g/m². It shall have a printed green guilloche-pattern background making any falsification by mechanical or chemical means apparent to the eye.

If the certificates have several copies only the top copy which is the original shall be printed with a green guilloche pattern background.

The use of English or French for the notes on the reverse of the certificate shall not be obligatory.

Each certificate shall bear a serial number, printed or otherwise, by which it can be identified.

It shall be made out in English or French. If it is completed by hand, entries must be in ink and in capital letters.

Article 18

Since the certificate of origin constitutes the documentary evidence for the application of the provisions concerning tariff preferences, specified in Article 1, it shall be the responsibility of the appropriate governmental authority of the exporting country to take any steps necessary to verify the origin of the products and to check to other statements on the certificate.

Article 19

1. The certificate shall be issued by the appropriate governmental authority of the beneficiary country if the products to be exported can be considered products originating in that country within the meaning of Title I of this Regulation.

2. The signature to be entered in box 11 of the certificate must be handwritten.

3. For the purpose of verifying whether the condition specified in paragraph 1 has been met, the appropriate governmental authority shall have the right to call for any documentary evidence or to carry out any check which it considers appropriate.

4. The appropriate governmental authority of the benficiary country shall refuse to issue a certificate if it appears from the documents submitted that the products to which it relates are not intended for the Community or for a preference-giving country applying the same rules as those laid down in Title I of this Regulation.

Article 20

The certificate shall be available to the exporter as soon as exportation is actually carried out or when it is certain that it will be carried out.

Article 21

Since box 12 is to be duly completed by the endorsement of the European Economic Community or one of the Member States as the importing country, the completion of box 2 of the certificate of origin Form A shall be optional.

Article 22

It shall always be possible to replace one or more certificates of origin Form A by one or more other such certificates, provided that this is done at the customs office in the Community where the products are located.

Article 23

1. In exceptional cases, a certificate may be issued after the actual exportation of the products to which it relates, if it was not issued at the time of exportation as a result of errors involuntarily made or omissions or other special circumstances.

2. The appropriate governmental authority may issue a certificate retrospectively only after verifying that the particulars contained in the exporter's application agree with those contained in the corresponding export documents and that no certificate of origin was issued when the products in question were exported.

Certificates of origin Form A issued retrospectively must bear, in box 4, the endorsement 'Delivré a posteriori' or 'Issued retrospectively'.

Article 24

In the event of the theft, loss or destruction of a certificate of origin, the exporter may apply to the appropriate governmental authority which issued it for a duplicate to be made out on the basis of the export documents in their possession. The duplicate Form A issued in this way must be endorsed, in box 4, with one of the following words: 'Duplicata' or 'Duplicate' together with the date of issue and the serial number of the original certificate.

For the purpose of Article 7 the duplicate shall take effect from the date of the original.

Section II

Completion of APR forms

Article 25

1. Form APR must conform to the specimen given in the Annex.

2. Form APR shall be 210 × 148 mm. A tolerance of up to plus 8 mm or minus 5 mm in the length is permitted. The paper used shall be white writing paper, sized, not containing mechanical pulp and weighing not less than 64 g/m².

The use of English or French for the notes attached to the APR Form shall not be obligatory.

Each form shall bear a serial number, printed or otherwise, by which it can be identified.

3. One Form APR shall be completed for each consignment.

4. Form APR shall be completed and signed by the exporter or, on his responsibility, by his authorized representative. It shall be made out in English or French. If it is handwritten, it shall be completed in ink and in capital letters. The signature to be placed in box 6 of the form shall be handwritten.

5. If the goods contained in the consignment have already been subject to verification in the exporting country by reference to the definition of the concept of 'originating products' the exporter may refer to this check in box 7 'Remarks' on Form APR.

Section III

Methods of administrative cooperation

Article 26

The beneficiary countries shall send the Commission of the European Communities the names and addresses of the governmental authorities who may issue certificates of origin together with specimens of stamps used by these authorities. The Commission shall forward this information to the customs authorities of the Member States.

Article 27

1. When an application for subsequent verification has been made in accordance with the provisions of Article 12 of Title I, such verification shall be carried out and its results communicated to the appropriate customs authorities in the Community within a maximum of six months. The results must be such as to establish whether the certificate of origin Form A or the Form APR in question applies to the products actually exported and whether these products were in fact eligible to benefit from the tariff preferences specified in Article 1.

2. If in cases of reasonable doubt there is no reply in the six months set out in the paragraph above or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, a second communication shall be sent to the authorities concerned. If after the second communication, the results of the verification are not communicated as soon as possible or at the latest within four months to the requesting authorities, or if these results do not permit the determination of the authenticity of the document in question or the real origin of the products, the requesting authorities shall refuse, except in the case of *force majeure* or in exceptional circumstances, any benefit from the generalized preferences.

3. For the purpose of subsequent verification of certificates of origin Form A, copies of the certificates as well as any export documents referring to them shall be kept for at least two years by the appropriate governmental authority in the exporting beneficiary country.

Article 28

1. Subject as provided in Article 29 (2), the attestations of authenticity provided for in Articles 1 (3) and 8 (2) of Council Regulation (EEC) No 3321/80 shall be given in box 7 of the certificate of origin Form A provided for in this Regulation.

2. The attestations mentioned in paragraph 1 shall consist of the description of the goods as set out in paragraph 3 below followed by the stamp of the authorized governmental authority, with the hand-written signature of the official authorized to certify the authenticity of the description of the goods given in box 7.

3. The description of goods in box 7 of the certificate of origin shall be as follows, according to the product concerned:

— 'unmanufactured tobacco Virginia type' or 'tabac brut ou non fabriqué du type Virginia';

— 'agave brandy "tequila", in containers holding two litres or less' or 'eau-de-vie d'agave "téquila" en récipients contenant deux litres ou moins'.

4. The attestations of authenticity in force in 1980 may still be used.

Article 29

1. The beneficiary countries shall inform the Commission of the European Communities of the names and addresses of the governmental authorities who may issue the certifications mentioned in Article 29, together with impressions of the stamp they use. The Commission shall forward this information to the customs authorities of the Member States.

2. By way of derogation to the provisions of Article 28 (1) and (2) and without prejudice to the provisions of Aticle 28 (3) or of the provisions of paragraph 1 above, the stamp of the authority authorized to certify the authenticity of the description of the goods set out in Article 28 (3) shall not be placed in box 7 of the certificate of origin if the authority authorized to issue the certificate of origin is the government authority authorized to issue the attestations of authenticity.

Article 30

The provisions of Articles 5 (1) (c) and 6 (3) of this Regulation are only applicable in so far as, in the context of the tariff preferences given by Austria, Finland, Norway, Sweden and Switzerland to certain products originating in developing countries, these countries apply provisions similar to those mentioned above.

The Commission shall inform the Member States' customs authorities of the application by the countries concerned of these provisions and communicate the date the provisions set out in Articles 5 (1) (c) and 6 (3) and the similar provisions adopted by the State or States concerned are adopted.

Article 31

1. Without prejudice to Article 8, for a period of six months from the date of entry into force of this Regulation, there may be produced, in respect of those products specified in paragraph 2 below which, at the time of entry into force of the provisions concerning tariff preferences granted therefor are either in transit or being held in the Community under temporary warehouse procedure, in customs warehouses or in free zones, certificates of origin Form A together with documentary evidence of direct transport.

2. The provisions of paragraph 1 apply to the products listed in Annex I.

Article 32

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall be applicable from 1 January 1981.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 December 1980.

EXPLANATORY NOTES

Note 1 — Article 1:

The term 'in a beneficiary country' shall also cover the territorial waters of that country.

Vessels operating on the high seas, including factory ships on which the fish caught is worked or processed, shall be considered as part of the territory of the beneficiary country to which they belong provided that they satisfy the conditions set out in Explanatory Note 4.

Note 2 — Article 1:

In order to determine whether products originate in a beneficiary country, it shall not be necessary to establish whether the power and fuel, plant and equipment, and machines and tools used to obtain such products originate in third countries or not.

Note 3 — Article 1:

Packing shall be considered as forming a whole with the products contained therein. This provision, however, shall not apply to packing which is not of the normal type for the article packed and which has intrinsic utilization value and is of a durable nature, apart from its function as packing.

Note 4 — Article 2 (f):

The term 'its vessels' shall apply only to vessels:

— which are registered or recorded in the benficiary country,

— which sail under the flag of the beneficiary country,

— which are at least 50 % owned by nationals of the beneficiary country or by a company with its head office in that country, of which the manager or managers, chairman of the board of directors or of the supervisory board, and the majority of the members of such boards are nationals of that country and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to that country or to public bodies or nationals of that country,

— of which the captain and officers are all nationals of the beneficiary country, and

— of which at least 75 % of the crew are nationals of the beneficiary country.

Note 5 — Article 4:

'Ex works price' means the price paid to the manufacturer in whose undertaking the last working or processing is carried out, provided the price includes the value of all the products used in manufacture.

'Customs value' means the customs value as defined in the Convention concerning the valuation of goods for customs purposes signed in Brussels on 15 December 1950.

Note 6:

The term 'product' as used in this Regulation includes 'article', 'goods', 'material', 'equipment' and any other equivalent expression.

Note 7:

1. The replacement certificate or certificates of origin Form A issued in application of the provisions laid down in Article 6 or 22 of the present Regulation shall be regarded as a definite certificate of origin for the products referred to. The replacement certificate shall be issued on the basis of a written request by the importer.

2. The replacement certificate should indicate the State in which the products are considered as originating. One of the following endorsements should be made in Box No 4 'replacement certificate', 'certificat de remplacement' as well as the date of issue of the original certificate of origin and its serial number. In Boxes 3 to 9 and 12 all endorsements appearing on the original certificate relating to the products re-exported should be made on the replacement certificate or certificates.

3. The customs office which is requested to perform the operation should note on the original certificate the weights, numbers and nature of the goods forwarded and indicate thereon the serial numbers of the corresponding replacement certificate or certificates. The original certificate shall be kept for at least two years by the customs office concerned.

4. A photocopy of the original certificate may be annexed to the replacement certificate.

Notes to Lists A and B

1. The lists contain some products which do not benefit from tariff preferences but which may be used in the manufacture of products which do benefit.

2. The description of the products in column 2 in the lists corresponds to that of the same heading number in the Customs Cooperation Council nomenclature.

3. When a Customs Cooperation Council nomenclature heading number in column 1 of the lists is prefixed by 'ex', the corresponding rule applies only to the products stated in column 2.

ex Chapter 92	Musical instruments; sound recorders or reproducers; television image and sound recorders or reproducers, parts and accessories of such articles, excluding products of heading No 92.11		Working, processing or assembly in which the value of the products used does not exceed 40% of the value of the product obtained

(1) In determining the value of materials and parts, the following must be taken into account:

(a) in respect of originating materials and parts, the first verifiable price paid, or the price which would be paid in case of sale, for the said products on the territory of the country where working, processing or assembly is carried out;

(b) in respect of other materials and parts, the provisions of Article 4 of the Regulation determining:

(i) the value of imported products,

(ii) the value of products of undetermined origin.

Products obtained		Working or processing that does not confer the status of originating products	Working or processing that confers the status of the originating products when the following conditions are met
Tariff heading No	Description		
92.11	Gramophones, dictating machines and other sound recorders or reproducers, including record-players and tape decks, with or without sound-heads; television image and sound recorders and reproducers		Working, processing or assembly in which the value of the non-originating products used does not exceed 40% of the value of the product obtained, and provided that: (a) at least 50% in value of the materials and parts (1) used are originating products, and (b) all the transistors are originating products
Chapter 93	Arms and ammunition; parts thereof		Manufacture in which the value of the products used does not exceed 50% of the value of the product obtained
ex 96.01	Other brooms and brushes (including brushes of a kind used as parts of machines); paint rollers; squeegees (other than roller squeegees) and mops		Manufacture in which the value of the products used does not exceed 50% of the value of the product obtained
97.03	Other toys; working models of a kind used for recreational purposes		Manufacture in which the value of the products used does not exceed 50% of the value of the product obtained
98.01	Buttons and button moulds, studs, cuff-links, and press-fasteners, including snap fasteners and press-studs; blanks and parts of such articles		Manufacture in which the value of the products used does not exceed 50% of the value of the product obtained
98.08	Typewriter and similar ribbons, whether or not on spools; ink-pads, with or without boxes		Manufacture in which the value of the products used does not exceed 50% of the value of the product obtained

(1) In determining the value of materials and parts, the following must be taken into account:
(a) in respect of originating materials and parts, the first verifiable price paid, or the price which would be paid in case of sale, for the said products on the territory of the country where working, processing or assembly is carried out;
(b) in respect of other materials and parts, the provisions of Article 4 of the Regulation determining:
(i) the value of imported products,
(ii) the value of products of undetermined origin.

LIST B

List of working or processing operations which do not result in a change in the nomenclature heading but which do confer the status of originating products on the products undergoing such operations

Products obtained		Working or processing that confers the status of originating products
Tariff heading No	Description	
		Incorporation of non-originating materials and parts in machinery or mechanical appliances falling within Chapters 84 to 92 does not make such products lose their status of originating products, provided that the value of the non-originating materials and parts used does not exceed 5% of the value of the product obtained
ex 21.03	Prepared mustard	Manufacture from mustard flour
ex 25.15	Marble squared by sawing, of a thickness of 25 cm or less	Sawing into slabs or sections, polishing, grinding and cleaning of marble, including marble not further worked than roughly split, roughly squared or squared by sawing, more than 25 cm in thickness
ex 25.16	Granite, porphyry, basalt, sandstone and other monumental and building stone, squared by sawing, of a thickness of 25 cm or less	Sawing of granite, porphyry, basalt, sandstone and other building stone, including such stone not further worked than roughly split, roughly squared or squared by sawing, more than 25 cm in thickness
ex 25.18	Calcined dolomite; agglomerated dolomite (including tarred dolomite)	Calcination of unworked dolomite
ex 25.19	Other magnesium oxide, whether or not chemically pure	Manufacture from natural magnesium carbonate (magnesite)
ex 25.32	Earth colours, calcined or powdered	Crushing and calcination or powdering of earth colours
ex Chapters 28 to 37	Products of the chemical and allied industries excluding sulphuric anhydride (ex 28.13), tannins (ex 32.01), essential oils, resinoids and terpenic by-products (ex 33.01), preparations used for tenderizing meat, preparations for clarifying beer composed of papain and bentonite and enzymatic preparations for the desizing of textiles (ex 35.07)	Working or processing in which the value of the non-originating products used does not exceed 20% of the value of the product obtained
ex 28.13	Sulphuric anhydride	Manufacture from sulphur dioxide
ex 32.01	Tannins (tannic acids), including water-extracted gall-nut tannin, and their salts, ethers, esters and other derivatives	Manufacture from tanning extracts of vegetable origin
ex 33.01	Essential oils (terpeneless or not), concretes and absolutes; resinoids; terpenic by-products of the deterpenation of essential oils	Manufacture from concentrates of essential oils in fats, in fixed oils, or in waxes or the like, obtained by cold absorption or by maceration

List B *(cont'd)*

Products obtained		Working or processing that confers the status of originating products
Tariff heading No	Description	
ex 35.07	Preparations used for tenderizing meat, preparations used for clarifying beer, composed of papain and bentonite, enzymatic preparations for the desizing of textiles	Manufacture from enzymes or prepared enzymes of which the value does not exceed 50% of the value of the product obtained
ex Chapter 38	Miscellaneous chemical products, other than refined tall oil (ex 38.05) and wood pitch (wood tar pitch) (ex 38.09)	Working or processing in which the value of the non-originating materials used does not exceed 20% of the value of the product obtained
ex 38.05	Refined tall oil	Refining of crude tall oil
ex 38.09	Wood pitch (wood tar pitch)	Distillation of wood tar
Chapter 39	Artificial resins and plastic materials, cellulose esters and ethers; articles thereof	Working or processing in which the value of the non-originating materials used does not exceed 20% of the value of the product obtained
ex 40.01	Slabs of crepe rubber for soles	Lamination of crepe sheets of natural rubber
ex 40.07	Vulcanized rubber thread and cord, textile-covered	Manufacture from vulcanized rubber thread or cord, not textile-covered
ex 41.01	Sheep's and lambs' skins without the wool	Removing wool from sheep's and lambs' skins in the wool
ex 41.03	Retanned skin leather of crossed Indian sheep	Retanning of crossed Indian sheep skin leather not further prepared than tanned
ex 41.04	Retanned Indian goat or kid skin leather	Retanning of Indian goat or kid skin leather not further prepared than tanned
ex 44.22	Casks, barrels, vats, tubs, buckets and other coopers products and parts thereof	Manufacture from riven staves of wood, not further prepared than sawn on one principal surface; sawn staves of wood, of which at least one principal surface has been cylindrically sawn, not further prepared than sawn
ex 50.09 ex 51.04 ex 53.11 ex 53.12 ex 54.05 ex 55.07 ex 55.08 ex 55.09 ex 56.07	Printed fabrics	Printing accompanied by finishing operations (bleaching, dressing, drying, steaming, burling, mending, impregnating, sanforizing, mercerizing) of fabrics the value of which does not exceed 47·5% of the value of the product obtained
ex 67.01	Feather dusters	Manufacture from feathers, parts of feathers or down
ex 68.03	Articles of slate, including articles of agglomerated slate	Manufacture of articles of slate

ex 68.04	Hand-polishing stones, whetstones, oilstones, hones and the like, of natural stone, of agglomerated natural or artificial abrasives, or of pottery	Cutting, adjusting and gluing of abrasive materials, which, owing to their shape, are not recognizable as being intended for hand use
ex 68.13	Articles of asbestos; articles of mixtures with a basis of asbestos or of mixtures with a basis of asbestos and magnesium carbonate	Manufacture of articles of asbestos or of mixtures with a basis of asbestos, or of mixtures with a basis of asbestos and magnesium carbonate
ex 68.15	Articles of mica, including bonded mica splittings on a support of paper or fabric	Manufacture of articles of mica
ex 70.10	Cut-glass bottles	Cutting of bottles the value of which does not exceed 50% of the value of the product obtained
ex 70.13	Cut glassware (other than articles falling within heading No 70.19) of a kind commonly used for table, kitchen, toilet or office purposes, for indoor decoration, or for similar uses	Cutting of glassware the value of which does not exceed 50% of the value of the product obtained
ex 70.20	Articles made from glass fibre	Manufacture from unworked glass fibre
ex 71.02	Precious and semi-precious stones, cut or otherwise worked, but not mounted, set or strung (except ungraded stones temporarily strung for convenience of transport)	Manufacture from unworked precious and semi-precious stones
ex 71.03	Synthetic or reconstructed precious or semi-precious stones, cut or otherwise worked, but not mounted, set or strung (except ungraded stones temporarily strung for convenience of transport)	Manufacture from unworked synthetic or reconstructed precious or semi-precious stones
ex 71.05	Silver, including silver gilt and platinum-plated silver, semi-manufactured	Rolling, drawing, beating or grinding of unwrought silver and silver alloys
ex 71.06	Rolled silver, semi-manufactured	Rolling, drawing, beating or grinding of unworked rolled silver
ex 71.07	Gold, including platinum-plated gold, semi-manufactured	Rolling, drawing, beating or grinding of unwrought gold, including platinum-plated gold
ex 71.08	Rolled gold on base metal or silver, semi-manufactured	Rolling, drawing, beating or grinding of unwrought rolled gold on base metal or silver
ex 71.09	Platinum and other metals of the platinum group, semi-manufactured	Rolling, drawing, beating or grinding of unwrought platinum and other metals of the platinum group
ex 71.10	Rolled platinum or other platinum group metals, on base metal or precious metal, semi-manufactured	Rolling, drawing, beating or grinding of unworked rolled platinum or other platinum group metals on base metal or precious metal

Tariff heading No	Description	
ex 73.15	Alloy steel and high carbon steel:	
	— in the forms mentioned in heading Nos 73.07 to 73.13	Manufacture from products in the forms mentioned in heading No 73.06
	— in the forms mentioned in heading No 73.14	Manufacture from products in the forms mentioned in heading No 73.06 or 73.07
ex 74.01	Unrefined copper (blister copper and other)	Smelting of copper matte
ex 74.01	Refined copper	Fire-refining or electrolytic refining of unrefined copper (blister copper and other), copper waste or scrap
ex 74.01	Copper alloy	Fusion and thermal treatment of refined copper, copper waste or scrap
ex 75.01	Unwrought nickel, excluding alloys	Refining by electrolysis, by fusion or chemically of nickel waste and scrap
76.16	Other articles of aluminium	Manufacture in which gauze, cloth, grill, netting, fencing , reinforcing fabric and similar materials (including endless bands) of aluminium wire, or expanded metal of aluminium are used the value of which does not exceed 50% of the value of the product obtained
ex 77.02	Other articles of magnesium	Manufacture from wrought bars, rods, angles, shapes and sections, plates, sheets and strip, wire, foil, raspings and shavings of uniform size, powders and flakes, tubes and pipes and blanks therefor, hollow bars, of magnesium, the value of which does not exceed 50% of the value of the product obtained
ex 77.04	Beryllium, wrought and articles of beryllium	Rolling, drawing or grinding of unwrought beryllium the value of which does not exceed 50% of the value of the product obtained
ex 81.01	Tungsten, wrought and articles of tungsten	Manufacture from unwrought tungsten the value of which does not exceed 50% of the value of the product obtained
ex 81.02	Molybdenum, wrought and articles of molybdenum	Manufacture from unwrought molybdenum the value of which does not exceed 50% of the value of the product obtained
ex 81.03	Tantalum, wrought and articles of tantalum	Manufacture from unwrought tantalum the value of which does not exceed 50% of the value of the product obtained
ex 81.04	Other base metals, wrought and articles of other base metals	Manufacture from other base metals, unwrought, the value of which does not exceed 50% of the value of the product obtained
ex 82.09	Knives with cutting blades, serrated or not (including pruning knives), other than knives falling within heading No 82.06	Manufacture from knife blades

ex 84.05	Steam engines (including mobile engines, but not steam tractors falling within heading No 87.01 or mechanically propelled road rollers) with self-contained boilers	Working, processing or assembly using products, the value of which does not exceed 40% of the value of the product obtained
84.06	Internal combustion piston engines	Working, processing or assembly in which the value of the products used does not exceed 40% of the value of the product obtained
ex 84.08	Engines and motors, excluding reaction engines and gas turbines	Working, processing or assembly in which the value of the non-originating products does not exceed 40% of the value of the product obtained and provided that at least 50% in value of the materials and parts (1) used are originating products
ex 84.41	Sewing machines, including furniture for sewing machines	Working, processing or assembly in which the value of the non-originating products used does not exceed 40% of the value of the product obtained, and provided that: (a) at least 50% in value of the materials and parts (1) used for assembly of the head (motor excluded) are originating products, and (b) the thread tension, crochet and zigzag mechanisms are originating products
ex 95.05	Articles in tortoise-shell, mother of pearl, ivory, bone, horn, coral (natural or agglomerated) and other animal carving material	Manufacture from tortoise-shell, mother of pearl, ivory, bone, horn, coral (natural or agglomerated) and other animal carving material; worked
ex 95.08	Articles in vegetable carving material (for example corozo), meerschaum and amber, natural or reconstituted, jet (and mineral substitutes for jet)	Manufacture from vegetable carving material (for example corozo), meerschaum and amber, natural or reconstituted, jet (and mineral substitutes for jet); worked
ex 96.01	Brushes and brooms	Manufacture using prepared knots and tufts for broom or brush making the value of which does not exceed 50% of the value of the product obtained
ex 98.11	Smoking pipes including pipe bowls	Manufacture from roughly shaped blocks of wood or root

(1) In determining the value of materials and parts, the following must be taken into account:

(a) in respect of originating materials and parts, the first verifiable price paid, or the price which would be paid in case of sale, for the said products on the territory of the country where working, processing or assembly is carried out;

(b) in respect of other materials and parts, the provisions of Article 4 of the Regulation determining:

(i) the value of imported products,

(ii) the value of products of undetermined origin.

NOTES

1. **Countries which accept this form for the purposes of the generalized system of preferences (GSP):**

Australia*	Norway	European Economic Community:	Ireland
Austria	Sweden	Belgium	Italy
Canada	Switzerland	Denmark	Luxembourg
Finland	United States of America	France	Netherlands
Japan		Federal Republic of Germany	United Kingdom

Details of the rules governing admission to GSP in these countries are obtainable from the customs authorities there. The main elements of the rules are indicated in the following paragraphs.

2. **Conditions.** The main conditions for admission to preference are that goods sent to any of the countries listed above
   (i) must fall within a description of goods eligible for preference in the country of destination, and
   (ii) must comply with the consignment conditions specified by the country of destination. In general, goods must be consigned direct from the country of exportation to the country of destination, but in most cases passage through one or more intermediate countries, with or without transhipment, is accepted provided that at the time they are exported the goods are clearly intended for the declared country of destination and that any intermediate transit, transhipment or temporary warehousing arises only from the requirements of transportation: and
   (iii) must comply with the origin criteria specified for those goods by the country of destination. A summary indication of the rules generally applicable is given in paragraphs 3 and 4.

3. **Origin criteria.** For exports to the abovementioned countries, with the exception of Australia, Canada and the USA, the position is that either
   (i) the goods shall be wholly produced in the country of exportation, that is, they should fall within a description of goods which is accepted as 'wholly produced' under the rules prescribed by the country of destination concerned, or
   (ii) alternatively, if the goods are manufactured wholly or partly from materials or components imported into the country of exportation or of undertermined origin these materials or components must have undergone a substantial transformation there into a different product. It is important to note that all materials and components which cannot be shown to be of that country's origin must be treated as if they were imported. Usually the transformation must be such as to lead to the exported goods being classified under a Customs Cooperation Council Nomenclature Tariff heading other than that relating to any of the above materials or components used. In addition, special rules are prescribed for various classes of goods in Lists A and B of certain countries' rules of origin and other subsidiary provisions and these should be carefully studied.

If the goods qualify under the above criteria, the exporter must indicate in Box 8 of the form the origin criteria on the basis of which he claims that his goods qualify for the GSP, in the manner shown in the following table:

Circumstances of production or manufacture in the first country named in Box 12 of the form	Insert in Box 8
(a) Goods, worked upon but not wholly produced in the exporting country, which were produced in conformity with the principles of 3 (ii), which fall under a CCC Nomenclature tariff heading specified in Column 1 of List A and which satisfy any conditions in Columns 3 and 4 of List A which are relevant to these goods	'A', followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example: 'A' 74.07
(b) Goods, worked upon but not wholly produced in the exporting country, which fall within an item in Column 1 of List B and which comply with the provisions of that item	'B', followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example: 'B' 73.15
(c) Goods, worked upon but not wholly produced in the exporting country, which were produced in conformity with principles of 3 (ii), which are not specifically referred to in List A, and which do not contravene a general provision of List A	'X', followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example: 'X' 98.02
(d) Goods wholly produced in the country of exportation (see 3 (i) above)	'P'

NOTE: 'List A' and 'List B' refer to the lists of qualifying processes specified by the countries of importation concerned.

4. **Origin criteria for exports to Canada and the United States of America.** For export to these two countries the position is that either
   (i) the goods shall be wholly produced in the country of exportation, that is, they should fall within a description of goods which is accepted as 'wholly produced' under the rules prescribed by the country of destination concerned or
   (ii) alternatively, if the goods are manufactured wholly or partly from materials or components imported into the country of exportation or of undetermined origin, those materials or components must have undergone a substantial transformation there into a different product. It is important to note that all materials and components which cannot be shown to be of that country's origin must be treated as if they were imported.
      (a) In the case of Canada the value of such materials and components (excluding any that are of Canadian origin) must not exceed 40 % of the ex-factory price of the exported article.
      (b) In the case of the United States the cost or value of materials produced in the beneficiary country plus the direct cost of processing performed there, should not be less than 35 % for single countries, or 50 % when an association of countries is treated as one country, of the appraised value of such article at the time of its entry into the US. Materials imported into the beneficiary country and then substantially transformed into constituent materials of which the eligible article is composed may be included in calculating the minimum percentages. The phrase 'direct cost of processing' includes costs directly incurred in or reasonably allocated to the processing, such as: all actual labour costs: dies, moulds, tooling, and depreciation; research and development; inspection and testing, but does not include business overheads, administrative expenses and salaries, or profit.

If the goods qualify under the above criteria, the exporter must indicate in Box 8 of the form the origin criteria on the basis of which he claims that his goods qualify for the GSP, in the manner shown in the following table:

Countries applicable	Circumstances of production or manufacture in the first country named in Box 12 of the form	Insert in Box 8
Canada and United States	(a) Goods wholly produced in the country of exportation (see 4 (i) above)	'P'
Canada	(b) Goods which are covered by the value-added rule described in 4 (ii) (a) above	'Y', followed by the value of materials and components imported (excluding any that are of Canadian origin) or of undetermined origin, expressed as a percentage of the ex-factory price of the exported goods example: 'Y' 36 %
United States	(c) Goods which are covered by the value-added rule described in 4 (ii) (b) above	For single country shipments insert 'Y' or for shipments from an association of countries 'Z', followed by the sum of the cost or value of the materials and the direct cost of processing, expressed as a percentage of the ex-factory price of the exported goods example: 'Y' 38 % or 'Z' 52 %

5. **Each Article must qualify.** It should be noted that all the goods in a consignment must qualify separately in their own right. This is of particular relevance when similar articles of different sizes or spare parts are sent.

6. **Description of goods.** The description of goods must be sufficiently detailed to enable the goods to be identified by the customs officer examining them.

* For Australia, the main requirement is the exporter's declaration on the normal commercial invoice. Form A is an acceptable alternative, but official certification is not required. Direct consignment is not necessary.

NOTES

1. Pays qui acceptent cette formule aux fins du système généralisé de préférences (SGP) :

Australie*	Norvège	Communauté	France	Luxembourg
Autriche	Suède	économique européenne :	RF d'Allemagne	Pays-Bas
Canada	Suisse	Belgique	Irlande	Royaume-Uni
Finlande	États-Unis d'Amérique	Danemark	Italie	
Japon				

Le détail des règlements concernant l'admission au bénéfice du système généralisé de préférences dans ces pays peut être obtenu auprès de leurs administrations des douanes. Les éléments principaux de ces règlements sont résumés dans les paragraphes qui suivent.

2. **Conditions.** Les principales conditions d'admission au bénéfice des préférences sont que la marchandise expédiée vers l'un quelconque des pays susmentionnés :
   (i) doit correspondre à la définition établie des marchandises pouvant bénéficier du régime de préférences dans le pays de destination, et
   (ii) doit satisfaire aux conditions d'expédition spécifiées par le pays de destination. En général, la marchandise doit être expédiée directement du pays d'exportation au pays de destination, mais dans la plupart des cas, le passage par un ou plusieurs pays intermédiaires, avec ou sans transbordement, est admis, à condition qu'au moment où elle est exportée, la marchandise soit manifestement destinée au pays de destination déclaré et que tout transit, transbordement ou entreposage temporaire ne résulte que des besoins du transport, et
   (iii) doit répondre aux critères d'origine spécifiés pour cette marchandise par le pays de destination. Des indications sommaires sur les règles d'origine généralement applicables sont données aux paragraphes 3 et 4.

3. **Critères d'origine.** Pour les exportations vers les pays susmentionnés, à l'exception de l'Australie*, du Canada et des États-Unis d'Amérique,
   (i) ou bien la marchandise doit être entièrement produite dans le pays exportateur, c'est-à-dire correspondre à la définition des marchandises considérées comme « entièrement produites » qui figure dans les règlements du pays de destination intéressé,
   (ii) ou bien si elle est fabriquée entièrement ou en partie au moyen de matières ou de composants importés dans le pays exportateur ou d'origine indéterminée, ces matières ou composants doivent y avoir subi une transformation substantielle qui en fasse un produit différent. Il importe de noter que toutes matières et tous composants à propos desquels il est impossible de prouver qu'ils sont originaires dudit pays doivent être considérés comme importés. En général, la transformation doit être telle qu'elle ait pour effet de faire classer la marchandise exportée dans une rubrique de la nomenclature du conseil de coopération douanière différente de celle où seraient classés ces matières ou composants. En outre, des regles d'origine spéciales et des dispositions subsidiaires sont prévues pour diverses catégories de marchandises des listes A et B de certains pays, et ces règles et dispositions devraient être soigneusement étudiées.

Si la marchandise satisfait aux critères ci-dessus, l'exportateur indiquera, dans la case 8 de la formule, le critère d'origine en vertu duquel il demande, pour cette marchandise, le bénéfice du système généralisé de préférences, de la manière indiquée dans le tableau ci- après :

Conditions de production ou de fabrication dans le premier pays indiqué dans la case 12 de la formule	Indiquer ce critère dans la case 8
(a) Marchandise, ouvrée, mais non entièrement produite dans le pays exportateur, qui a été produite d'une manière conforme aux principes du paragraphe 3 (ii), qui relève d'une position de la NCCD spécifiée dans la colonne 1 de la liste A et qui satisfait aux conditions des colonnes 3 et 4 de cette liste applicables à cette marchandise	« A », suivi de la position de la marchandise dans la NCCD Exemple : « A » 74.07
(b) Marchandise, ouvrée mais non entièrement produite dans le pays d'exportation, qui correspond à une rubrique de la colonne 1 de la liste B et qui est conforme aux dispositions concernant cette rubrique	« B », suivi de la position de la marchandise dans la NCCD Exemple : « B » 73.15
(c) Marchandise, ouvrée mais non entièrement produite dans le pays exportateur, qui a été produite d'une manière conforme aux principes du paragraphe 3 (ii), qui n'est pas expressément mentionnée dans la liste A et qui n'est pas incompatible avec une disposition générale de la liste A	« X », suivi de la position de la marchandise dans la NCCD Exemple : « X » 98.02
(d) Marchandise entièrement produite dans le pays exportateur [voir le paragraphe 3 (i) ci-dessus]	« P »

NOTE. La « liste A » et la « liste B » sont les listes des opérations de transformation requises par les pays d'importation intéressés.

4. **Critères d'origine pour les exportations à destination du Canada et des États-Unis d'Amérique.** Pour les exportations vers ces deux pays :
   (i) ou bien la marchandise doit être entièrement produite dans le pays exportateur, c'est-à-dire correspondre à la définition des marchandises considérées comme « entièrement produites » qui figure dans les règlements du pays de destination intéressé,
   (ii) ou bien si la marchandise est fabriquée entièrement ou en partie au moyen de matières ou de composants importés dans le pays exportateur ou d'origine indéterminee, ces matières ou composants doivent y avoir subi une transformation substantielle qui en fasse un produit différent. Il importe de noter que toutes matières et tous composants à propos desquels il est impossible de prouver qu'ils sont originaires dudit pays doivent être considérés comme importés.
      (a) Dans le cas du Canada, la valeur de telles matières et composants (à l'exclusion de ceux qui sont d'origine canadienne) ne doit pas dépasser 40 % du prix départ usine de l'article exporté.
      (b) Dans le cas des États-Unis, le coût ou la valeur des matières produites dans le pays bénéficiaire, plus le coût direct de transformation qui y a été effectuée ne doit pas être inférieur à 35 %, quand il s'agit d'un seul pays, ou à 50 %, quand il s'agit d'un groupe de pays considéré comme un seul et même pays, de la valeur en douane d'un tel produit au moment de son entrée aux États-Unis. Pourraient être incluses dans le calcul des pourcentages minimaux les matières importées dans le pays bénéficiaire et ensuite transformées en matières intermédiaires dont est composé le produit pouvant prétendre aux préférences. L'expression « coûts directs de transformation » comprend les frais qui découlent directement de la transformation ou qui peuvent lui être raisonnablement attribués, tels que : tous les coûts réels de la main-d'œuvre ; les matrices et moules, l'outillage et l'amortissement ; les frais de recherche et développement ; l'inspection et l'essai, mais non les frais généraux ; les dépenses administratives et les salaires, ou les bénéfices.

Si la marchandise satisfait aux critères ci-dessus, l'exportateur indiquera, dans la case 8 de la formule, le critère d'origine en vertu duquel il demande, pour cette marchandise, le bénéfice du système généralisé de préférences, de la manière indiquée dans le tableau ci-après :

Pays	Conditions de production ou de fabrication dans le premier pays indiqué dans la case 12 de la formule	Indiquer ce critère dans la case 8
Canada et États-Unis	(a) Marchandise entièrement produite dans le pays exportateur (voir le paragraphe 4 (i) ci-dessus)	« P »
Canada	(b) Marchandise visée par la règle relative à la valeur ajoutée dont il est question au paragraphe 4 (ii) (a) ci-dessus	« Y », suivi de la valeur des matières et composants importés (à l'exclusion de ceux qui sont d'origine canadienne) ou d'origine indéterminée, exprimée en pourcentage du prix départ usine de la marchandise Exemple : « Y » 36 %
États-Unis	(c) Marchandise visée par la règle relative à la valeur ajoutée dont il est question au paragraphe 4 (ii) (b) ci-dessus	Pour les expéditions d'un seul pays indiquer « Y », ou pour les expéditions en provenance d'un groupe de pays « Z » suivi de la somme du coût ou de la valeur des matières et le coût direct de transformation, exprimée en pourcentage du prix départ usine des marchandises exportées Exemple : « Y » 38 % ou « Z » 52 %

5. **Chaque article doit remplir les conditions prescrites.** Il est à noter que chacun des articles d'une même expédition doit répondre aux conditions prescrites. Cela s'applique, en particulier, lorsque sont expédiés des articles analogues de dimensions différentes ou des pièces détachées.

6. **Description des marchandises.** La description des marchandises doit être assez détaillée pour que le fonctionnaire des douanes qui aura à les examiner puisse les identifier.

* Pour l'Australie, l'exigence de base est une attestation de l'exportateur sur la facture habituelle. La formule A peut être acceptée en remplacement, mais une certification officielle n'est pas exigée. L'expédition directe n'est pas nécessaire.

NOTES

1 Countries which accept this form for the purposes of the generalized system of preferences (GSP)

Austria
Finland
Norway
Sweden
Switzerland

European Economic Community:
Belgium
Denmark
France
Federal Republic of Germany
Ireland
Italy
Luxembourg
Netherlands
United Kingdom

Details of the rules governing admission to GSP in these countries are obtainable from the customs authorities there. The main elements of the rules are indicated in the following paragraphs

2 Conditions. The main conditions for admission to preference are that goods sent to any of the countries listed above

(i) must fall within a description of goods eligible for preference in the country of destination, and

(ii) must comply with the consignment conditions specified by the country of destination. In general, goods must be consigned direct from the country of exportation to the country of destination, but in most cases passage through one or more intermediate countries, with or without transhipment, is accepted provided that at the time they are exported the goods are clearly intended for the declared country of destination and that any intermediate transit, transhipment or temporary warehousing arises only from the requirements of transportation; and

(iii) must comply with the origin criteria specified for those goods by the country of destination. A summary indication of the rules generally applicable is given in paragraphs 3 and 4.

3 Origin criteria. For exports to the abovementioned countries the position is that either :

(i) the goods shall be wholly produced in the country of exportation, that is, they should fall within a description of goods which is accepted as 'wholly produced under the rules prescribed by the country of destination concerned, or

(ii) alternatively, if the goods are manufactured wholly or partly from materials or components imported into the country of exportation or of undetermined origin these materials or components must have undergone a substantial transformation there into a different product. It is important to note that all materials and components which cannot be shown to be of that country's origin must be treated as if they were imported. Usually the transformation must be such as to lead to the exported goods being classified under a Customs Cooperation Council Nomenclature Tariff heading other than that relating to any of the above materials or components used. In addition, special rules are prescribed for various classes of goods in Lists A and B of certain countries' rules of origin and other subsidiary provisions and these should be carefully studied

If the goods qualify under the above criteria, the exporter must indicate in Box 7 of the origin criteria on the basis of which he claims that his goods qualify for the GSP, in the manner shown in the following table

Circumstances of production or manufacture in the country named in Box 8 of the from	Insert in Box 7
(a) Goods, worked upon but not wholly produced in the exporting country, which were produced in conformity with the principles of 3 (ii), which fall under a CCC Nomenclature tariff heading specified in Column 1 of List A and which satisfy any conditions in Columns 3 and 4 of List A which are relevant to these goods.	«A», followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example «A» 74.07
(b) Goods, worked upon but not wholly produced in the exporting country, which fall within an item in Column 1 of List B and which comply with provisions of that item.	«B», followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example: «B» / 73.15
(c) Goods, worked upont but not wholly produced in the exporting country, which were produced in conformity with the principles of 3 (ii), which are not specifically referred to in List A, and which do not contravene a general provision of List A	«X», followed by the Customs Cooperation Council Nomenclature heading number of the exported goods example «X» 98.02
(d) Goods wholly produced in the country of exportation (see 3 (i) above)	«P»

NOTE "List A" and "List B" refer to the lists of qualifying processes specified by the countries of importation concerned

13 Request for verification	14 Result of verification
The verification of the declaration by the exporter on the front of this form is requested (*)	Verification carried out shows that (1) ☐ the statements and particulars given in this form are accurate. ☐ this form does not meet the requirements as to accuracy and authenticity (see remarks appended).

(*) Subsequent verifications of forms APR shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubt as to the accuracy of the information regarding the authenticity of the forms and the true origin of the goods in question.

Instructions for the completion of form APR

1. A form APR may be made out only for goods which in the exporting country fulfil the conditions specified by provisions governing the generalized system of preferences. These provisions must be studied carefully before the form is completed. (See notes on part 2)
2. In the case of a consignment by parcel post the exporter attaches the form to the despatch note. In the case of consignment by letter post he encloses the form in the package. The reference APR and the serial number of the form should be stated on the customs green label declaration C1 or on the customs declaration C2/CP3, as appropriate.
3. These instructions do not exempt the exporter from complying with any other formalities required by customs or postal regulations.
4. An exporter who uses this form is obliged to submit to the appropriate authorities any supporting evidence which they may require and to agree to any inspection by them of his accounts and of the processes of manufacture of the goods described in Box 11 of this form.

NOTES

1. **Pays qui acceptent ce formulaire aux fins du système généralisé de préférences (SGP):**

Autriche
Finlande
Norvège
Suède
Suisse

Communauté économique européenne:
Belgique
Danemark
France
République fédérale d'Allemagne

Irlande
Italie
Luxembourg
Pays-Bas
Royaume-Uni

Le détail des règlements concernant l'admission au bénéfice du système généralisé de préférences dans ces pays peut être obtenu auprès de leurs administrations des douanes. Les éléments principaux de ces règlements sont résumés dans les paragraphes qui suivent.

2. **Conditions.** Les principales conditions d admission au bénéfice des préférences sont que la marchandise expédiée vers l'un quelconque des pays susmentionnés:
(i) doit correspondre à la definition établie des marchandises pouvant bénéficier du régime de préférences dans le pays de destination, et
(ii) doit satisfaire aux conditions d'expédition spécifiées par le pays de destination. En général, la marchandise doit être expédiée directement du pays d'exportation au pays de destination, mais dans la plupart des cas, le passage par un ou plusieurs pays intermédiaires avec ou sans transbordement, est admis, à condition qu'au moment où elle est exportée, la marchandise soit manifestement destinée au pays de destination déclaré et que tout transit, transbordement ou entreposage temporaire ne résulte que des besoins du transport, et
(iii) doit répondre aux critères d'origine spécifiés pour cette marchandise par le pays de destination Des indications sommaires sur les règles d'origine généralement applicables sont données aux paragraphes 3 et 4.

3. **Critères d'origine.** Pour les exportations vers les pays susmentionnés:
(i) ou bien la marchandise doit être entièrement produite dans le pays exportateur, c'est-à-dire correspondre à la définition des marchandises considérées comme «entièrement produites» qui figure dans les règlements du pays de destination intéressé,
(ii) ou bien si elle est fabriquée entièrement ou en partie au moyen de matières ou de composants importés dans le pays exportateur ou d'origine indéterminée, ces matières ou composants doivent y avoir subi une transformation substantielle qui en fasse un produit différent. Il importe de noter que toutes matières et tous composants à propos desquels il est impossible de prouver qu'ils sont originaires dudit pays doivent être considérés comme importés. En général, la transformation doit être telle qu'elle ait pour effet de faire classer la marchandise exportée dans une rubrique de la nomenclature du conseil de coopération douanière différente de celle où seraient classés ces matières ou composants. En outre, des règles d'origine spéciales et des dispositions subsidiaires sont prévues pour diverses catégories de marchandises des listes A et B de certains pays, et ces règles et dispositions devraient être soigneusement étudiées.

Si la marchandise satisfait aux critères ci-dessus, l'exportateur indiquera, dans la case 7 du formulaire, le critère d'origine en vertu duquel il demande, pour cette marchandise, le bénéfice du système généralisé de préférences, de la manière indiquée dans le tableau ci-après.

Conditions de production ou de fabrication dans le pays indiqué dans la case 8 du formulaire	Indiquer ce critère dans la case 7
(a) Marchandise, ouvrée, mais non entièrement produite dans le pays exportateur, qui a été produite d'une manière conforme aux principes du paragraphe 3 (ii), qui relève d'une position de la NCCD spécifiée dans la colonne 1 de la liste A et qui satisfait aux conditions des colonnes 3 et 4 de cette liste applicables à cette marchandise	«A», suivi de la position de la marchandise dans la NCCD Exemple: «A» 74.07
(b) Marchandise, ouvrée mais non entièrement produite dans le pays exportateur, qui correspond à une rubrique de la colonne 1 de la liste B et qui est conforme aux dispositions concernant cette rubrique	«B», suivi de la position de la marchandise dans la NCCD Exemple: «B» 73.15
(c) Marchandise, ouvrée mais non entièrement produite dans le pays exportateur, qui a été produite d'une manière conforme aux principes du paragraphe 3 (ii), qui n'est pas expressément mentionnée dans la liste A et qui n'est pas incompatible avec une disposition générale de la Liste A.	«X», suivi de la position de la marchandise dans la NCCD Exemple: «X» 98.02
(d) Marchandise entièrement produite dans le pays exportateur (voir le paragraphe 3 (i)	«P»

NOTE. La «liste A» et la «liste B» sont les listes des opérations requises par les pays d'importation intéressés.

13 **Demande de contrôle**	14 **Résultat du contrôle**
Le contrôle de la déclaration de l'exportateur figurant au recto du présent formulaire est sollicité (*).	Le contrôle effectué a permis de constater que (1)
	☐ les indications et mentions portées sur le présent formulaire sont exactes.
	☐ le présent formulaire ne répond pas aux conditions d'authenticité et de régularité requises (voir les remarques ci-annexées).

(*) Le contrôle « a posteriori » des formulaires APR est effectué à titre de sondage ou chaque fois que les autorités du pays d'importation ont des doutes fondés en ce qui concerne l'authenticité du formulaire et l'exactitude des renseignement relatifs à l'origine réelle de la marchandise en cause.

Instructions relatives à l'établissement du formulaire APR

1. Peuvent seules donner lieu à l'établissement d'un formulaire APR les marchandises qui dans le pays d'exportation remplissent les conditions prévues par les dispositions régissant le système généralisé de préférences. Ces dispositions doivent être soigneusement étudiées avant de remplir le formulaire (voir les notes de la partie 2).
2. L'exportateur attache le formulaire au bulletin d'expédition lorsqu'il s'agit d'un envoi par colis postal ou l'insère dans le colis lorsqu'il s'agit d'un envoi par la poste aux lettres. En outre, il porte soit sur l'étiquette verte C 1, soit sur la déclaration en douane C 2/CP 3 la mention APR suivie du numéro de série du formulaire.
3. Ces instructions ne dispensent pas l'exportateur de l'accomplissement des autres formalités prévues dans les règlements douaniers ou postaux.
4. L'usage du formulaire constitue pour l'exportateur l'engagement de présenter aux autorités compétentes toutes justifications que celles-ci jugent nécessaires et d'accepter tout contrôle par lesdites autorités de sa comptabilité et des circonstances de la fabrication des marchandises désignées dans la case 11 du formulaire.
