COMMISSION REGULATION (EEC) No 2043/81

of 20 July 1981

amending Regulation No 225/67/EEC on detailed rules for determining the world market price for oil seeds

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats [1], as last amended by Regulation (EEC) No 3454/80 [2],

Having regard to Council Regulation No 115/67/EEC of 6 June 1967 laying down criteria for determining world market prices for oil seed and fixing the frontier crossing point [3], as amended by Regulation (EEC) No 2917/80 [4], and in particular Article 7 thereof,

Whereas Commission Regulation (EEC) No 225/67/EEC [5] as last amended by Regulation (EEC) No 1744/80 [6], determined the processing costs for colza, rape and sunflower seeds to be taken into consideration in applying Articles 2 and 6 of Regulation No 115/67/EEC; whereas, since those costs have subsequently increased, the amounts fixed by Articles 5 and 8 of Regulation No 225/67/EEC should be correspondingly amended;

Whereas Article 3 of Commission Regulation No 225/67/EEC provides that where the offers and quotations used relate to a quality other than the standard quality for which the target price was fixed, they shall be adjusted on the basis of the coefficients of equivalents shown in the Annex;

Whereas the qualities of colza and rape seed and sunflower seed delivered by the major producing third countries present certain differences in relation to the quality used to determine the current coefficients of equivalence for seed imported from these countries; whereas coefficients of equivalence should be fixed which take the new situation into account;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:
