COMMISSION REGULATION (EEC) No 2110/81

of 22 July 1981

laying down for the 1981/82 wine-growing year detailed rules governing the distillation of wines produced from table grapes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 337/79 of 5 February 1979 on the common organization of the market in wine [1], as last amended by Regulation (EEC) No 3456/80 [2], and in particular Articles 41 (4) and 65 thereof,

Whereas final dates must be set for the submission of applications pursuant to the second subparagraph of Articles 1 (1) of Council Regulation (EEC) No 343/79 of 5 February 1979 laying down general rules governing the distillation of wines [3], as last amended by Regulation (EEC) No 2008/81 [4]; whereas final dates should also be set for the approval of applications and for the distillation operation in question, so as to facilitate control measures;

Whereas those wishing to conclude a distillation contract need to be informed in good time whether their application has been approved;

Whereas it is necessary to specify what points must be covered by the distillation contracts;

Whereas the prices of wines which go for distillation are such as to prevent the products obtained by such distillation from being marketed on normal terms; whereas it is therefore necessary to provide aid and to fix the amount thereof, including normal costs, at a level which enables such products to be marketed;

Whereas under Article 4 of the aforesaid Regulation aid is to be paid to the producer in two instalments; whereas, if the producer is to receive all the aid in good time, it should be stipulated that payment of the second instalment must be made within 30 days of distillation;

Whereas it is necessary to set the price of the product of the distillation of wine produced from table grapes supplied to the intervention agency and to determine the share to be borne by the EAGGF, Guarantee Section, in the expenditure to be incurred by the intervention agencies in accordance with the criteria laid down by Articles 4a and 4b respectively of Regulation (EEC) No 343/79;

Whereas technical conditions for the approval of distillers must be laid down; whereas it is also necessary to make provision for withdrawal of approval from the distiller in the event of default by the latter for reasons other than *force majeure* or unavoidable accident;

Whereas the intervention agencies referred to in Article 8 of Council Regulation (EEC) No 343/79 must be informed of the progress of the distillation operations and must in particular know the quantities of table wine distilled and the quantities of alcohol obtained;

Whereas Article 41 (4) of Regulation (EEC) No 337/79 lays down the conditions under which the derogations provided for in paragraph 1 apply to the varieties included as both wine grapes and table grapes in the classification for a given administrarive unit; whereas those conditions must ensure that the quantities of wine obtained from the said exempted varietieis correspond to the quantities normally used for wine-making; whereas Commission Regulation (EEC) No 2078/76 [5] laid down that the Member States must determine those quantities by taking as a reference period the 1969/70 to 1975/76 wine-growing years; whereas, since the object of Article 41 (4) of the said Regulation (EEC) No 337/79 is to maintain the existing state of affairs, the levels fixed by the Member States for the 1976/77 wine-growing year in accordance with Regulation (EEC) No 2078/76 should be retained for the 1981/82 wine-growing year;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:
