COUNCIL REGULATION (EEC) No 1213/83

of 17 May 1983

fixing the guide price and the intervention price for adult bovine animals for the 1983/84 marketing year

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to Council Regulation (EEC) No 805/68 of 27 June 1968 on the common organization of the market in beef and veal (1), as last amended by the 1979 Act of Accession, and in particular Article 3 (3) and the second subparagraph of Article 6 (4) thereof,

Having regard to the proposal from the Commission (2),

Having regard to the opinion of the European Parliament (3),

Having regard to the opinion of the Economic and Social Committee (4),

Whereas, when the guide price for adult bovine animals is fixed, account should be taken both of the objectives of the common agricultural policy and of the contribution which the Community wishes to make to the harmonious development of world trade; whereas the common agricultural policy aims *inter alia* to ensure a fair standard of living for the agricultural community, to guarantee the availability of supplies and to ensure that supplies reach consumers at reasonable prices;

Whereas the guide price must be fixed in accordance with the criteria laid down in Article 3 (2) of Regulation (EEC) No 805/68; whereas, for the 1983/84 marketing year, it should be fixed at a higher level than that adopted for the preceding marketing year;

Whereas, in view of the current economic situation on the beef and veal market, the intervention price for adult bovine animals for the 1983/84 marketing year should be fixed at the same level in relation to the guide price as that adopted for the preceding marketing year;

Whereas, under Article 6 (3) of Regulation (EEC) No 805/68, the intervention agencies must buy in beef and veal offered to them when the average prices on the Community market are below the intervention price; whereas Article 6 (1) of the same Regulation provides that the intervention agencies shall, having regard to the characteristics of the production of the Member State to which they belong, buy in meat offered to them which has certain quality characteristics; whereas, in the light of the experience of recent years and foreseeable market trends, provision should be made for the 1983/84 marketing year for suspending, in respect of each Member State or in respect of certain regions of Member States, intervention buying in of each of these qualities when it is found that their price on the representative markets of the Member State or the region in question exceeds their maximum buying-in price over a certain period,

HAS ADOPTED THIS REGULATION:
