of 25 July 1983

fixing the average world market price, the indicative yield and the amount to be deducted from the aid payable in Greece for linseed for the 1982/83 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 569/76 of 15 March 1976 laying down special measures for linseed (1), and in particular Article 2 (4) thereof,

Whereas an average world market price for linseed must be determined each year according to the criteria laid down in Council Regulation (EEC) No 1774/76 (2);

Whereas Article 4 of Commission Regulation (EEC) No 1799/76 (3), as last amended by Regulation (EEC) No 1977/80 (4), provides that this average price is to be the arithmetic mean of the world market prices as referred to in that Article and recorded each week over a representative period;

Whereas the most representative period for the marketing of Community linseed may be taken to be that from 6 September 1982 to 25 March 1983; whereas this is therefore the period to be taken into account;

Whereas the application of all these provisions produces the average world market price for linseed specified below;

Whereas Article 81 (3) of the Act of Accession of Greece provides that the amount of aid for linseed harvested in Greece shall be reduced by the amount of customs duties applied by that country to imports of this product from non-member countries;

Whereas Article 2 (2) of Regulation (EEC) No 569/76 provides that the subsidy is to be granted for a production figure obtained by applying an indicative yield to the areas sown and harvested; whereas that yield must be determined by applying the criteria laid down in Regulations (EEC) No 569/76 and (EEC) No 1774/76;

Whereas, in accordance with Article 17 (1) of Regulation (EEC) No 1799/76, the producer Member States have supplied the Commission with the results of the sampling, carried out pursuant to Article 2a (2) of that Regulation, regarding the yields per hectare of seed harvested from each of the types of flax referred to in Articles 7a and 10a of the said Regulation in the homogeneous production areas; whereas, on the basis of those results, the indicative yield for linseed should be that specified below;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Oils and Fats,
