COMMISSION REGULATION (EEC) No 3080/83

of 27 October 1983

on the establishment and allocation among Member States of the quantitative limits for steel exports from the Community to the United States of America

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2870/82 of 21 October 1982 on the restriction of exports of certain steel products to the United States of America [1], as amended by Regulation (EEC) No 2190/83 [2], and in particular Articles 2 and 3 (1) thereof,

Whereas Articles 2 and 3 (1) of Regulation (EEC) No 2870/82 provide in particular that the Commission is to calculate Community export limits per product category for the initial period, to adjust them to take account of revisions of the United States' apparent consumption and to allocate them in accordance with Annex III to that Regulation;

Whereas, as provided for in the Arrangement concluded with the United States on 21 October 1982 [3], the United States' apparent consumption for the initial period was revised in October 1983; whereas the Community limits and the allocation thereof should therefore be adapted, taking account of the 1 % deduction for each category already allocated to the Community reserve provided for in Regulation (EEC) No 2870/82,

HAS ADOPTED THIS REGULATION:

Article 1

The Community export limits per product category for the initial period shall be as follows:

Product category	*(tonnes)*
1. Hot-rolled sheet and strip	970 560
2. Cold-rolled sheet	785 890
3. Plate	249 940
4. Structurals	445 348
6. Hot-rolled bars	125 357
7. Coated sheet	306 020
8. Tin plate	73 973
9. Rails	59 631

Article 2

The Community export limits for the initial period as set in Article 1 shall be allocated among Member States as follows:

		(tonnes)
1. Hot-rolled sheet and strip	Germany	320 867
	France	320 090
	Italy	85 506
	Netherlands	193 724
	Belgium	36 396
	Luxembourg	5 435
	United Kingdom	8 541
	Greece	—
	Denmark	—
	Ireland	—
