(Acts whose publication is obligatory)

COUNCIL REGULATION (EEC) No 1299/84

of 7 May 1984

increasing the volumes of the Community tariff quotas, opened for 1984, for certain grades of ferro-chromium falling within subheading ex 73.02 E I of the Common Customs Tariff

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof,

Having regard to the draft Regulation presented by the Commission,

Whereas, by Regulation (EEC) No 3187/83 (1), the Council opened, for 1984, and allocated among the Member States, duty-free Community tariff quotas for ferro-chromium containing not less than 4 % by weight of carbon, or not less than 6 % by weight of carbon, falling within subheading ex 73.02 E I of the Common Customs Tariff, the volumes of which were fixed at 3 000 and 112 000 tonnes respectively;

Whereas it can be estimated, from the economic data now available on consumption, production and imports benefiting from other preferential tariff arrangements, that Community requirements of imports from third countries for products of this kind could, during the current year, reach levels higher than the volumes laid down by Regulation (EEC) No 3187/83; whereas, in order not to disturb the equilibrium of the market for this product and to ensure parallel development in sales of Community production and satisfactory security of supplies to the user industries, it is appropriate to limit any increases in the volumes to 3 000 and 112 000 tonnes respectively;

Whereas, both for ferro-chromium containing not less than 4 % of carbon and for ferro-chromium containing not less than 6 % of carbon it is appropriate to divide into two instalments the volumes of the increases, the first instalments being allocated among certain Member States in proportion to their foreseeable needs, and the second held as a Community reserve to cover possible additional requirements,

HAS ADOPTED THIS REGULATION:

Article 1

The volumes of the Community tariff quotas opened by Regulation (EEC) No 3187/83 for ferro-chromium containing not less than 4 % by weight of carbon, and not less than 6 % by weight of carbon, falling within subheading ex 73.02 E I of the Common Customs Tariff, shall be raised from 3 000 to 6 000 tonnes and from 112 000 to 224 000 tonnes respectively.

Article 2

1. A first instalment of each of the additional volumes referred to in Article 1 and amounting to 2 800 and 108 000 tonnes respectively shall be allocated among certain Member States as follows:

(a) as regards ferro-chromium containing not less than 4 % by weight of carbon:

	(tonnes)
Benelux	1 750
France	700
United Kingdom	350

(b) as regards ferro-chromium containing not less than 6 % by weight of carbon:

	(tonnes)
Benelux	4 600
Germany	54 910
France	23 460
Italy	14 900
United Kingdom	10 130

2. The second instalments, being 200 and 4 000 tonnes respectively, shall constitute the reserves. The reserves provided for in Article 2 (2) of Regulation (EEC) No 3187/83 shall thus be raised from 100 to 300 tonnes and from 5 000 to 9 000 tonnes.

Article 3

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities.*

(1) OJ No L 311, 12. 11. 1983, p. 7.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 May 1984.

For the Council

The President

M. ROCARD
