Whereas Article 5 (2) of Commission Regulation (EEC) No 2108/83 (2), as last amended by Regulation (EEC) No 1217/84 (3), provides that the processing security is different depending on the quantity of products bought; whereas paragraph 4 of the same Article provides that, in order to apply the lowest security, at least 70 % of the products removed from storage shall be in a condition which makes their processing into products for human consumption difficult; whereas, as a consequence of the age of the products concerned, all the products removed from storage are in a condition such that processing into products for human consumption is rendered difficult; whereas, the processing security can be fixed at the same level; whereas, as a consequence, the special provisions concerning different rates of security can be repealed;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Products Processed from Fruit and Vegetables,
