(Acts whose publication is obligatory)

COUNCIL REGULATION (EEC) No 320/84

of 31 January 1984

fixing, for certain fish stocks and groups of fish stocks occurring in the Community's fishing zone, provisional total allowable catches for 1984, the provisional share of these catches available to the Community, the allocation of that share between the Member States and the conditions under which the total allowable catches may be fished

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources [1], and in particular Articles 2, 3, 4 (1) and 11 thereof,

Having regard to the proposal from the Commission,

Whereas, in order to ensure the protection of fishing grounds and fish stocks and the balanced exploitation of the resources of the sea, in the interests of both fishermen and consumers, there should be fixed, each year for the different species, of which the catches must be restricted, a total allowable catch (TAC) per stock or group of stocks and the share of these catches available to the Community taking into account its commitments to third countries;

Whereas, in order to ensure effective management of these TACs, the specific conditions under which fishing operations occur should be established;

Whereas, in order to ensure effective management, the TACs available for the Community in 1984 should be distributed among the Member States in a manner which assures relative stability of fishing activities;

Whereas, in the case of certain stocks fished mainly for reduction to meal and oil, it does not appear necessary to make quota allocations;

Whereas negotiations with third countries have not yet been concluded and scientific advice is not yet available for all stocks, so that it is not possible definitively to fix TACs and the shares available to the Community; whereas it is nevertheless essential for the efficient planning of fishing activities that the provisional shares available to the Community in 1984 be established,

HAD ADOPTED THIS REGULATION:

Article 1

1. This Regulation fixes for 1984, for certain fish stocks and groups of fish stocks occurring in the Community fishing zone, provisional total allowable catches (TACs) per stock or group of stocks, the provisional share of these catches available to the Community, the allocation of that share among Member States and the specific conditions under which these stocks may be fished.

2. The sub-areas, divisions or subdivisions of NAFO referred to in this Regulation are described in Annex III to Council Regulation (EEC) No 3179/78 of 28 December 1978 concerning the conclusion by the European Economic Community of the Convention on Future Multilateral Cooperation in the Northwest

[1] OJ No L 24, 27. 1. 1983, p. 1.

Atlantic Fisheries (1), as last amended by Regulation (EEC) No 654/81 (2).

The definition of the ICES areas referred to in this Regulation is given in a Commission communication (3).

3. For the purposes of this Regulation, the Skagerrak is bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast.

For the purposes of this Regulation, the Kattegat is bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gibjerg Hoved to Kullen.

Article 2

TACs for stocks or groups of stocks to which Community rules apply occurring in the Community fishing zone, and the share of these catches available to the Community are hereby fixed for 1984 in Annex I.

Article 3

The allocation among the Member States for 1984 of the share available to the Community of TACs for stocks or groups of stocks occurring in the Community fishing zone is shown in Annex II.

Article 4

1. It shall be prohibited to retain on board or to land catches from stocks for which TACs or quotas are fixed unless:

(i) the catches have been taken by vessels of a Member State having a quota and that quota is not exhausted, or

(ii) the share of the TAC available to the Community (Community share) has not been allocated by quota among Member States and the Community share has not been exhausted, or

(iii) for all species other than herring and mackerel, they are mixed with other species and have been taken in accordance with Articles 8 and 9 of Regulation (EEC) No 171/83 (4), as amended by Regulation (EEC) No 2931/83 (5), and are not sorted either on board or on landing, or

(iv) for herring caught in any area except the Skagerrak, the Kattegat and the Baltic Sea (ICES divisions III b, c, d), they are within the limits of paragraph 2, or

(v) for herring caught in the Skagerrak and the Kattegat, they are taken within the limits of paragraph 3, or

(vi) they are catches of cod and halibut taken within the limits of Article 5, or

(vii) for mackerel, they are mixed with horse-mackerel or pilchard and the mackerel does not exceed 10 % of the total weight of mackerel, horse-mackerel and pilchard on board and the catches are not sorted.

All landings shall count against the quota, or, if the Community share has not been allocated between Member States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv), (vi) and (vii) or of subparagraph 3 (a).

2. In areas other than the Skagerrak, the Kattegat and the Baltic Sea (ICES divisions III b, c, d) it shall be prohibited to retain on board herring mixed with other species unless such catches are not sorted, and:

(a) if mixed with sprat only, the herring does not exceed 10 % by weight of the total weight of herring and sprat combined, or

(b) if mixed with other species, whether or not including sprat, the herring does not exceed 5 % by weight of the total weight of the herring and other species combined.

3. The following provisions shall apply to herring by-catches in the Skagerrak and the Kattegat:

(a) When the Community share for herring is nil or when there is no positive quota allocated to a Member State or when its quota is exhausted, by-catches of herring may be retained on board and

(1) OJ No L 378, 30. 12. 1978, p. 1.
(2) OJ No L 69, 14. 3. 1981, p. 1.
(3) OJ No L 140, 3. 6. 1982, p. 3.
(4) OJ No L 24, 27. 1. 1983, p. 14.
(5) OJ No L 288, 21. 10. 1983, p. 1.

landed if they are mixed with sprat and if the percentage of the by-catch does not exceed 10 % by weight of the total catch of herring and sprat combined. It shall be prohibited to sort such by-catches which may only be landed mixed with these species of which they form a by-catch.

(b) When a positive quota has been allocated to a Member State and that quota has not yet been exhausted, by-catches of herring may be retained on board and landed within the quota allocated when using nets with a mesh size smaller than 32 mm if the percentage of the by-catch does not exceed, if mixed with sprat, 10 % by weight of the total catch of herring and sprat combined and, if mixed with other species, 5 % by weight of the total catch of herring and the other species combined.

(c) The percentage of maximum allowable by-catch shall apply to the weight of herring in catches on board, in landings or in any representative sample weighing more than 100 kilograms.

Article 5

1. When a positive quota of cod has not been allocated to a Member State in either ICES sub-area XIV or NAFO sub-area 1, the following provisions shall apply with regard to that Member State:

— for vessels which are trawling, by-catches of cod which are retained on board after sorting may not exceed 10 % by weight of redfish and 3 % by weight of other species,

— for vessels which are longlining, by-catches of cod which are retained on board after sorting may not exceed 10 % by weight of halibut and Greenland halibut and 3 % by weight of other species.

2. When a positive quota of halibut has not been allocated to a Member State in either ICES sub-area XIV or NAFO sub-area 1, the following provision shall apply to the vessels of that Member State:

— by-catches of halibut which are retained on board after sorting may not exceed 3 % by weight of catches of other species.

3. The by-catches referred to in paragraphs 1 and 2 shall be measured according to the provisions of Article 10 of Regulation (EEC) No 171/83 but may not be so measured until the vessel in question has been fishing in Greenland waters for at least 48 hours.

Article 6

When a positive quota of cod has not been allocated to a Member State in either ICES sub-area XIV or NAFO sub-area 1, fishing for redfish shall be prohibited in that part of NAFO sub-area 1 bounded by a line running due west from the West Greenland baselines along latitude 64°30′ N to longitude 55°00′ W, south to latitude 61°30′ N and longitude 50°30′ W and thence due east to the West Greenland baselines.

Article 7

Fishing for mackerel shall be prohibited in ICES division VI a, north of latitude 58°00′ N, from 1 March to 30 April 1984 and from 1 December to 31 December 1984.

Article 8

1. Fishing for herring shall be prohibited:

— in the Skagerrak, throughout the year, except for 12 weeks during the period 1 June to 29 September 1984 and five weeks during the period 1 October to 31 December 1984,

— in the Kattegat, from 1 May to 22 September 1984, except for 12 weeks during this period.

The periods of fishing shall be fixed after consultations with the Norwegian and Swedish authorities. The Commission will notify the Member States of the dates agreed.

Fishing for herring during the periods referred to in the two preceding indents shall be open simultaneously in the Skagerrak and the Kattegat during a period of at least six weeks.

This provision shall not apply to fishing within two nautical miles of the baselines, within the same level as previous years, by vessels not exceeding 90 feet and using other types of gear than trawl.

2. Fishing for herring shall be prohibited from 1 July to 31 October 1984 within the area bounded by the following coordinates:

— the west coast of Denmark at 55°30′ N,

— latitude 55°30′ N longitude 07°00′ E,

— latitude 57°00′ N longitude 07°00′ E,

— the west coast of Denmark at 57°00′ N.

3. Fishing for herring shall be prohibited throughout the year in those waters between latitudes 53°00′ N and 55°00′ N which are situated between the eastern coasts of Ireland and Northern Ireland and a line drawn 12 miles from the baselines.

4. Fishing for herring shall be prohibited throughout the year in the Irish Sea (ICES division VII a) in the maritime area between the west coasts of Scotland, England and Wales and a line drawn 12 miles from the baselines of these coasts bounded to the south by latitude 53°20′ N and to the north-west by a line drawn between the Mull of Galloway (Scotland) and the Point of Ayre (Isle of Man).

5. Fishing for herring shall be prohibited from 20 September to 15 November 1984 in the part of the Irish Sea (ICES division VII a) north of latitude 53°30′ N, except in Logan Bay (defined as being the waters east of a line going from the Mull of Logan, situated at latitude 54°44′ N and longitude 4°58′ W to Laggantalluch Head, situated at latitude 54°41′ N and longitude 4°58′ W), where fishing for herring shall be prohibited throughout 1984.

6. Notwithstanding the provisions of paragraphs 3 and 5, vessels with a length not exceeding 40 feet based in ports situated on the east coast of Ireland and Northern Ireland between latitudes 53°00′ N and 55°00′ N may fish for herring in the prohibited area described in paragraph 3. The only method of fishing authorized shall be drift netting with nets of a minimum mesh size of 54 mm.

7. The areas described in paragraphs 4 and 5 may be altered in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 170/83.

Article 9

1. Fishing for sprat shall be prohibited in the Skagerrak and the Kattegat:

— for vessels of 80 feet overall length or above with trawls of a mesh size less than 32 mm, from 14 May to 22 September 1984,

— for vessels of 80 feet overall length or above with other types of gear than trawls, from 11 June to 22 September 1984, except for four weeks during this period,

— for vessels of less than 80 feet overall length, from 14 May to 9 June 1984 if with trawls, and for four weeks during the period 11 June to 22 September 1984, with or without trawls.

2. Fishing for sprat shall be prohibited:

(a) from 1 July to 31 October 1984 within the area bounded by the following coordinates:

— the west coast of Denmark at 55°30′ N,

— latitude 55°30′ N longitude 07°00′ E,

— latitude 57°00′ N longitude 07°00′ E,

— the west coast of Denmark at 57°00′ N;

(b) in ICES statistical rectangle 39E8 from 1 January to 31 March 1984 and from 1 October to 31 December 1984. For the purposes of this Regulation this ICES rectangle is bounded by a line running due east from the east coast of England along latitude 55°00′ N to longitude 1°00′ W, due north to latitude 55°30′ N to longitude 1°00′ W, due north to latitude 55°30′ N and due west to the English coast;

(c) in the inner waters of the Moray Firth west of longitude 3°30′ W and in the inner waters of the Firth of Forth west of longitude 3°00′ W from 1 January to 31 March 1984 and from 1 October to 31 December 1984.

Article 10

Trawling and purse seining for mackerel, sprat and herring shall be prohibited in the Skagerrak from

Saturday midnight to Sunday midnight and in the Kattegat from Friday midnight to Sunday midnight.

Article 11

1. Fishing for salmon in NAFO sub-area 1 shall be prohibited before 10 August 1984.

2. For salmon fishing in NAFO sub-area 1, only nets with a mesh size of 140 mm may be used, with a tolerance of ± 5 %; this means that every measured mesh of a net must be within the limits of 5 % of 140 mm.

Article 12

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply with effect from 1 January 1984.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 31 January 1984.

For the Council

The President

G. LENGAGNE

ANNEX I

Total allowable catches (TACs) by stock and by area for 1984 and shares available to the Community

Atlantic salmon	NAFO 1 west of 44° 00′ W, within 40 miles of baselines	—	1 190 (d)

Footnotes:

(a) *Ad hoc* solution for 1984.

(b) Subject to revision following further consultations.

(c) Available for the Member States, valid until 31 July 1984 and to be counted against final available Community catches, to be determined following scientific advice and subsequent consultations.

(d) Subject to a recommendation for regulatory measures under the Convention for the Conservation of Salmon in the North Atlantic Ocean (OJ No L 378, 31. 12. 1982, p. 25).

(*) Precautionary TAC.

(1) Excluding 1 600 tonnes allocated to the Norwegian coastal zone.

(2) Plus 2 000 tonnes allocated to Denmark outside the Community share of the TAC.

(3) Excluding an estimated 5 000 tonnes of industrial by-catch.

(4) Excluding an estimated 20 000 tonnes of industrial by-catch.

(5) Except for certain catch possibilities for experimental purposes.

(6) 12 150 tonnes not allocated.

(7) Fishing for prawn is prohibited in waters less than 30 metres deep.

(8) Reference is to the herring stock in ICES division VI a, north of 56°00′ N and in that part of VI a which is situated east of 7°00′ W and north of 55°00′ N, excluding the Clyde (as defined in footnote 10).

(9) Reference is to the herring stock in ICES division VI a, south of 56°00′ N and west of 7°00′ W.

(10) Maritime area situated to the north-east of a line drawn between the Mull of Kintyre and Corsewall Point.

(11) ICES division VII a is reduced by the area added to the Celtic Sea bounded:
— to the north by latitude 52°30′ N,
— to the south by latitude 52°00′ N,
— to the west by the coast of Ireland,
— to the east by the coast of the United Kingdom.

(12) Reference is to the herring stock within 12 miles of the east coast of Ireland and of Northern Ireland between 53°00′ and 55°00′ N.

(13) Reference is to the herring stock in the Irish Sea (ICES division VII a) (excluding the zone referred to in footnote 12).

(14) Increased by zone bounded:
— to the north by latitude 52°30′ N,
— to the south by latitude 52°00′ N,
— to the west by the coast of Ireland,
— the east by the coast of the United Kingdom.

(15) Without prejudice to the Community rights subject to revision in the light of scientific advice and further consultations to be held up to 1 July 1984.

(16) Subject to revision following scientific reassessment.

(1) No fishing for this quota may take place, in the Skagerrak, within four miles of the baselines of the Kingdom of Norway and of the Kingdom of Sweden respectively.

(2) No fishing for this quota may take place, in the Kattegat, within three miles of the baselines of the Kingdom of Sweden.

(3) No fishing for this quota may take place, in the Skagerrak, withing 12 miles of the baselines of the Kingdom of Norway and of the Kingdom of Sweden respectively and, in the Kattegat, within 12 miles of the baselines of the Kingdom of Sweden.

(4) Without prejudice to Article 1 (b) of Regulation (EEC) No 3702/83.

(5) Available for Member States until 31 July 1984 and offset against the final Community quota to be determined in the light of scientific advice and further consultations.

(6) Should the amount available to a Member State be used up before 31 July 1984, fishing may continue in the Community fishing zone up to a maximum of 20 000 tonnes, allocated among Member States as follows: Belgium 920 tonnes, Denmark 4 040 tonnes, Germany 2 540 tonnes, France 2 630 tonnes, Netherlands 5 260 tonnes, United Kingdom 4 610 tonnes.

(7) Each Member State must inform the Commission weekly of its landings of herring, distinguishing between ICES divisions II a/IV a, IV b and IV c/VII d.
