COMMISSION REGULATION (EEC) No 3283/84

of 23 November 1984

amending Regulation (EEC) No 3675/83 laying down detailed rules for implementing the import arrangements applicable to products falling within subheading 07.06 A of the Common Customs Tariff, originating in Thailand and exported from that country in 1984, 1985 and 1986

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organization of the market in cereals (1), as last amended by Regulation (EEC) No 1018/84 (2), and in particular Article 12 (2) thereof,

Having regard to Council Regulation (EEC) No 604/83 of 14 March 1983 on the import system applicable in 1983 to 1986 to products falling within subheading 07.06 A of the Common Customs Tariff and amending Regulation (EEC) No 950/68 on the Common Customs Tariff (3), and in particular Article 2 thereof,

Whereas in the context of the application of the Agreement between Thailand and the European Economic Community on the production and marketing of and trade in manioc (4), covering the period to 1986, the need has arisen to supplement the procedure for issuing certificates laid down in Commission Regulation (EEC) No 3675/83 (5); whereas, for the purposes of improving the administration of the system in a manner consistent with the said agreement, the authorities responsible for issuing import certificates should be required to provide additional information concerning the quantities of manioc actually imported into the Community in order that export licences can subsequently be issued for the quantities unloaded in the Community, which may be greater or less than the quantities indicated on the import certificates;

Whereas, moreover, in order to take into account the experience gained in the context of the application of the import arrangements for manioc originating in Thailand, and in the interests of sound management, certain checks at present required should be made less stringent;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 3675/83 is hereby amended as follows:

Where the quantities actually unloaded are found to exceed the total quantities stated in the export certificates allocated for the ship in question, the competent authorities designated by the Member States shall, at the request of the importer in each case and without delay, notify the Commission by telex, in each case and without delay, of the number or numbers of the export certificates, the number or numbers of the import licences and the excess quantity recorded when unloading took place.

The Commission shall contact the Thai authorities so that new export certificates can be drawn up with a view to allowing the excess quantities to be released into free circulation as soon as possible on the basis of new import licences. In the intervening period, the excess quantities may not be put into free circulation under the conditions laid down by the EEC/Thailand autolimitation agreement.

At the end of each quarter, the competent authorities designated by the Member States shall notify the Commission by telex of all cases, in which the quantities of manioc originating in Thailand have, during that quarter, exceeded the quantities laid down.'
