COMMISSION REGULATION (EEC) No 1477/85

of 3 June 1985
adopting exceptional support measures for the market in pigmeat

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2759/75 of 29 October 1975 on the common organization of the market in pigmeat (1), as last amended by Regulation (EEC) No 2966/80 (2), and in particular Article 20 thereof,

Whereas, because of the present health situation in the breeding sector in Belgium, exceptional support measures for the market in pigmeat have been laid down in respect of that Member State by Commission Regulations (EEC) No 686/85 (3), (EEC) No 772/85 (4), as amended by Regulation (EEC) No 890/85 (5), and (EEC) No 978/85 (6), as amended by Regulation (EEC) No 1086/85 (7);

Whereas the health situation in Belgium calls for a strengthening of the restrictive measures on trade in pigmeat and pigmeat-based products; whereas the exceptional support measures for the Belgian market should be made applicable in the new infection zone comprising in addition to the communes of Tielt, Pittem, Meulebeke, Ardooie, Ingelmunster, Lendelede, Izegem, Roeselaere, Ledegem, Moorslede, Staden, Hooglede, Zonnebeke, Poelkapelle, Lichtervelde, Zwevezele and a radius of three kilometres around the sites of the two locations of the disease's occurrence in the communes of Reninge and Ichtegem, the communes of Torhout and Kortemark;

Whereas it is therefore appropriate to fix, for the infection zone, specific private storage aid for certain sensitive products in accordance with the detailed implementing rules for the granting of private storage aid in the pigmeat sector adopted by Commission Regulation (EEC) No 1092/80 (8), as last amended by Regulation (EEC) No 201/85 (9); whereas to ensure effective action the time limit for placing in storage specified in Article 3 (1) (b) of that Regulation should be brought forward and provision should be made for the aid to be prefinanced when the placing in storage has been completed; whereas this will require the introduction of derogations from the provisions of Articles 5 (1) and 6 (3) of the Regulation;

Whereas it is not yet certain that the outbreak of African swine fever in Belgium has been contained; whereas there is still a risk that the pigmeat in storage will fetch much lower prices than normal, with a serious effect on the incomes of the producers concerned; whereas the financial risk to operators taking part in the private storage aid scheme should therefore be limited by providing for the taking over by the Belgian intervention agency of meat which is likely to be affected by the epizootic, so that there will be a sufficient guarantee that producers will receive a fair price;

Whereas a buying-in price should be fixed at which the meat is to be taken over by the intervention agency; whereas that price should be based on the market price recorded in Belgium within the meaning of Council Regulation (EEC) No 43/81 of 1 January 1981 establishing a list of representative markets for pigmeat in the Community (10) and should take account of the actual quality of pigmeat carcases sold on the Belgian market, the price being derived from those for grade II carcases within the meaning of the Community scale for grading pig carcases laid down in Council Regulation (EEC) No 2760/75 (11);

Whereas, in cases where the meat is taken over by the intervention agency for the purposes of further processing, the financial risk to operators should no longer be covered in respect of aids which were fixed earlier for that purpose; whereas, accordingly, provision should be made for reducing the aid where the meat is bought in;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Pigmeat,

HAS ADOPTED THIS REGULATION :

Article 1

1. As from 4 June until 21 June 1985 applications for private storage aid in the pigmeat sector may be made to the Belgian intervention agency in accordance with the provisions of Regulation (EEC) No 1092/80 and of this Regulation.

Only products coming from pigs reared and slaughtered in the infection zone can be eligible for the aid. The list of products which qualify for aid and the relevant amounts are set out in the Annex hereto.

2. If the period of storage is extended or curtailed, the amount of aid shall be adjusted accordingly. The amounts of the supplements and the deductions per month and per day are set out colums 7 and 8 of the Annex.

Article 2

The minimum quantities per contract and per product shall be as follows :

(a) 10 tonnes for carcases and half carcases ;

(b) 5 tonnes for all the other products.

Article 3

By way of derogation from Article 3 (1) (b) of Regulation (EEC) No 1092/80 placing in storage must be carried out within 14 days of the date of conclusion of the contract.

Article 4

The storage contract must impose, in addition to the obligations specified in Article 3 (2) (d) of Regulation (EEC) No 1092/80, an obligation to indicate on each batch placed in storage the name or names of the producer(s) who supplied the pigs the meat of which is covered by the contract.

Article 5

By way of derogation from Article 5 (1) of Regulation (EEC) No 1092/80, the security shall be 100 % of the amounts of aid set out in the Annex.

Article 6

By way of derogation from Article 6 (3) of Regulation (EEC) No 1092/80, the intervention agency, shall, on application by the party concerned, make an advance payment of 80 % of the aid once the products have been placed in storage in accordance with the storage contract.

Article 7

1. Where following a decision by the national health authorities, meat cannot be released for consumption until it has undergone sufficient heat treatment to prevent any further spread of the epizootic or where it must be destroyed because of the risk of the latter, the Belgian intervention agency shall, at the request of the party concerned, buy in the products offered to it.

In such cases the buying-in price for carcases shall be the grade II market price in Belgium within the meaning of Council Regulations (EEC) No 2760/75 and (EEC) No 43/81 recorded during the week in which the contract was concluded, plus 10 %. In the case of other products, the buying-in price shall be determined on the basis of the carcase price, using the coefficients referred to in Article 10 (4) of Regulation (EEC) No 2759/75 expected for bellies without rind and cuts corresponding to 'middles' (ex 02.01 A III a) 6) for which the coefficient is fixed at 1,12. However, the buying-in price shall be reduced by an amount corresponding to 30 % of the final amount of aid granted to the storer.

2. Where buying in takes place, the period covered by the storage contract shall expire on the day which precedes buying in.

Article 8

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities.*

This Regulation shall be binding in its entirety and directly applicable in all Member States.
