COUNCIL REGULATION (EEC) No 4048/86

of 22 December 1986

opening, allocating and providing for the administration of a Community tariff quota for certain live plants falling within subheadings ex 06.01 A, 06. 02 A II and ex 06.02 D of the Common Customs Tariff and originating in the Canary Islands (1987)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Act of Accession of Spain and Portugal [1], and in particular Article 4 of Protocol No 2 annexed thereto,

Having regard to the proposal from the Commission,

Whereas the Treaty and the acts of the Institutions of the European Communities apply to the Canary Islands according to the conditions provided for in Article 25 of the Act of Accession and in Protocol No 2 annexed to the said Act;

Whereas, pursuant to Article 4 of Protocol No 2 annexed to the Act of Accession, certain live plants falling within subheadings ex 06.01 A, 06.02 A II and ex 06.02 D of the Common Customs Tariff, originating in the Canary Islands, may be imported into the Community within the limits of a Community tariff quota at reduced duties; whereas the quota volume amounts to 3 446 tonnes; whereas for 1987 the duties to be applied within the limits of the tariff quota are equal to 75 % of the duties of the Common Customs Tariff; whereas, however, when the products in question are imported into that part of Spain which is included in the customs territory of the Community they shall qualify for exemption from customs duties; whereas, when the products are imported into Portugal, the quota duties applicable must be calculated on the basis of the provisions referred to in the Act of Accession; whereas, to benefit from the tariff quota, the products in question must comply with certain marking and labelling conditions designed to prove their origin; whereas, this Community tariff quota should be opened for 1987, with the validity of this Regulation being limited, however, to the period 1 January to 31 March 1987, which precedes the entry into force of the definitive tariff regime to be adopted in this field; whereas, therefore, provision should be made for the quantities imported under this Regulation to be deducted from the quota volume amounts adopted under the definitive regime;

Whereas it is in particular necessary to ensure to all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rate laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the principles mentioned above, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, to reflect as accurately as possible the true trend of the market of the products in question, such allocation should be in proportion to the requirements of the Member States calculated by reference to the statistics of imports of the said products originating in the Canary Islands over a representative period and also to the economic outlook for the quota period concerned;

Whereas, during the last three years for which statistics are available, the corresponding imports by each of the Member States represent the following percentages of the imports into the Community, of the products concerned, originating in the Canary Islands:

Member States	1983	1984	1985
Benelux	8,6	10,7	3,2
Denmark	0,3	0 1	0,1
Germany	4,2	4,5	4,9
Greece	—	—	—
Spain	78,5	77,2	86,6
France	0,4	0,4	0,6
Ireland	—	—	—
Italy	0,7	1,7	0,7
Portugal	—	—	—
United Kingdom	7,3	5,4	3,9

Whereas, in view of these factors, and of market forecasts for the products in question, the initial quota shares may in a first phase be fixed approximately at the following percentages:

Benelux	8,9,
Denmark	0,1,
Germany	3,2,
Greece	0,1,
Spain	78,9,
France	0,4,
Ireland	0,1,
Italy	1,4,
Portugal	0,1,
United Kingdom	6,8.

[1] OJ No L 302, 15. 11. 1985, p. 23.

Whereas, in order to take into account import trends for the products concerned in the various Member States, the quota volume should be divided into two instalments, the first being shared among the Member States and the second constituting a reserve to cover at a later date the requirements of those Member States having used up their initial quota shares; whereas, in order to give importers in each Member State a certain degree of security, the first instalment of the Community quota should under present circumstances be fixed at 80 % of the quota;

Whereas the Member States' initial shares may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost used up, and repeated as many times as the reserve allows; whereas the initial and additional shares must be valid until the end of the quota period; whereas this method of administration requires close cooperation between the Member States and the Commission, and the latter must be in a position to monitor the extent to which the quota volume has been used up and to inform the Member States thereof;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation concerning the administration of the quota shares allocated to that economic union may be carried out by any of its members,

HAS ADOPTED THIS REGULATION:

The products qualify, however, within the limits of this tariff quota for exemption from customs duties when they are imported into that part of Spain which is included in the customs territory of the Community.

Within the limits of this tariff quota the Portuguese Republic applies customs duties calculated according to the relevant provisions of the Act of Accession and the Regulations relating thereto.

2. Without prejudice to the provisions applicable as regards quality standards, products covered by this Regulation cannot qualify under the tariff quota unless, when they are presented to the authorities responsible for the import formalities for the purposes of release into free circulation in the customs territory of the Community, they are presented in packaging which bears the words 'Canary Islands', or the equivalent thereof in another official Community language, in a clearly visible and perfectly legible form.

The quantities imported under the tariff quotas referred to in paragraph 1 shall be deducted from the annual quota volume amounts adopted under the definitive tariff regime which will come into force on 1 April 1987.

Article 2

1. A first instalment amounting to 2 750 tonnes of the Community tariff quota referred to in Article 1 shall be allocated among the Member States; the respective shares which shall be valid until 31 March 1987 shall be as follows:

	(tonnes)
Benelux	244,
Denmark	3,
Germany	88,
Greece	3,
Spain	2 172,
France	10,
Ireland	3,
Italy	40,
Portugal	3,
United Kingdom	187.

2. The second instalment of 696 tonnes shall constitute the reserve.

Article 3

1. If 90 % or more of a Member State's initial share as specified in Article 2 (1) has been used up, then, to the extent permitted by the amount of the reserve, that Member State shall forthwith, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next unit.

2. If, after its initial share has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions laid down in paragraph 1, draw a third share equal to 7,5 % of its initial share, rounded up where necessary to the next unit.

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares smaller than those fixed in those paragraphs if there is reason to believe that these might not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Each of the additional shares drawn pursuant to Article 3 shall be valid until 31 March 1987.

Article 5

The Commission shall keep an account of the shares opened by Member States in accordance with Articles 2 and 3 and shall, as soon as it is notified, inform each Member State of the extent to which the reserve has been used up.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 6

1. The Member States shall take every measure necessary to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares of the Community quota.

2. The Member States shall ensure that importers of the products in question have free access to the shares allocated to them.

3. The Member States shall charge imports of the said goods against their shares as and when the goods are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of the imports charged in accordance with paragraph 3.

Article 7

At the request of the Commission, Member States shall inform it of imports of the products concerned actually charged against their shares.

Article 8

The Member States and the Commission shall cooperate closely in order to ensure compliance with this Regulation.

Article 9

This Regulation shall enter into force on 1 January 1987.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 December 1986.
