COUNCIL REGULATION (EEC) No 4051/86

of 22 December 1986

suspending the customs duty for ferro-chromium by weight, not less than 4 % but less than 6 % of carbon, falling within subheading ex 73.02 E I of the Common Customs Tariff, and coming from Spain

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular the second paragraph of Article 33 thereof,

Having regard to the proposal from the Commission,

Whereas certain grades of ferro-chromium containing, by weight, not less than 4 % but less than 6 % of carbon are not produced in sufficient quantities in the Community as constituted on 31 December 1985 and Portugal; whereas, however, those grades of ferro-chromium are produced in Spain; whereas the Community as constituted on 31 December 1985 still applies customs duties to imports of that product from Spain; whereas it is therefore in the Community's interest to suspend all customs duties for those grades of ferro-chromium coming from Spain until the end of the transitional period,

HAS ADOPTED THIS REGULATION:

Article 1

The customs duty for ferro-chromium containing, by weight, not less than 4 % but less than 6 % of carbon, falling within subheading ex 73.02 E I of the Common Customs Tariff, and coming from Spain is hereby completely suspended.

Article 2

This Regulation shall enter into force on 1 January 1987.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 December 1986.

For the Council

The President

G. SHAW
