LIST OF PRODUCTS SUBJECT TO NATIONAL QUANTITATIVE RESTRICTION ON THEIR ENTRY INTO FREE CIRCULATION

Explanation of signs, letters or figures

Practical scope of the restriction

+ = completely restricted;

— = partially restricted. For an exact description of the restriction see the list at the end of this Annex which concerns the description of the products.

Geographical scope

Where there are no special indications the restriction applies to all the countries covered by the Regulation.

Where the restriction applies to a geographical zone or to one or more countries, a marginal note describes the country or countries to which the restriction applies.

*
* *

In any event, the application of these restrictions is subject to:

— any special rules laid down in the agreements concluded between the Community and certain third countries,

— the specific common rules referred to in the first indent of Article 1 (1) of Regulation (EEC) No 288/82.

The geographical scope of quantitative restrictions on import into Portugal will not be greater than that of the national quantitative restrictions existing, on 31 December 1985, for the same product in the Member States, except where there is special mention in the Annex.
