COMMISSION REGULATION (EEC) No 605/86

of 28 February 1986

laying down transitional arrangements relating to the detailed rules for the buying-in of oilseeds by intervention agencies in Spain and Portugal

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular Articles 90 and 257 thereof,

Whereas Article 2 of Commission Regulation No 282/67/EEC of 11 July 1967 on detailed rules for intervention for oil seeds [1], fixes the minimum quantity for lots of rapeseed and sunflower seed which may be offered for intervention; whereas the second indent of Article 3 (2) of that Regulation fixes the maximum moisture content for sunflower seed offered for intervention; whereas, taking the structure of production into account, the immediate application of those provisions in Spain and Portugal could result in appreciable difficulties for the producers concerned; whereas, in order to facilitate the transition from the arrangements applying in the two new Member States to those applying in the Community, the minimum quantities for lots of rapeseed and sunflower seed which may be offered for intervention and the maximum moisture content for sunflower seed offered for intervention applicable in Spain and Portugal should be gradually brought closer to the quantities and maximum moisture content provided for in Regulation No 282/67/EEC;

Whereas the management Committee for oils and Fats has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

   (a) 5 tonnes,
   (b) 10 tonnes, and
   (c) 30 tonnes
   respectively.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities.*

It shall apply from 1 March 1986.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 28 February 1986.
