COUNCIL REGULATION (EEC) No 691/86

of 3 March 1986

establishing arrangements for trade between Spain and Portugal on the one hand and the African, Caribbean and Pacific States (ACP States) on the other

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the European Economic Community and the ACP States opened negotiations on 10 December 1985 for the conclusion of a protocol to adapt the Third ACP-EEC Convention to take account of the accession of Spain and Portugal to the European Communities;

Whereas Article 180 (1) and 367 of the Act of Accession of Spain and Portugal provide that if such a protocol has not been concluded by 1 January 1986 the Community shall take the necessary measures to remedy the situation;

Whereas the Third ACP-EEC Convention has not yet entered into force;

Whereas Council Regulation (EEC) No 485/85 of 26 February 1985 concerning the application of Decision No 2/85 of the ACP-EEC Council of Ministers on transitional measures valid from 1 March 1985 [1], as extended by Regulation (EEC) No 690/86 [2], and Council Regulation (EEC) No 486/85 of 26 February 1985 on the arrangements applicable to agricultural products and certain goods resulting from the processing of agricultural products originating in the African, Caribbean and Pacific States or in the overseas countries and territories [3], as extended by Regulation (EEC) No 692/86 [4], lay down transitional measures to apply pending the entry into force of the Third ACP-EEC Convention;

Whereas the said transitional measures apply as between the ACP States and the enlarged Community;

Whereas it is therefore necessary to lay down special provisions for the implementation by the Kingdom of Spain and the Portuguese Republic of the trade arrangements established by the above Regulations;

Whereas the Third ACP-EEC Convention is shortly due to enter into force and provides for trade arrangements identical to those established by the abovementioned Regulations;

Whereas the validity of the special provisions applying to Spain and Portugal should therefore be extended beyond the expiry of the abovementioned Regulations pending the conclusions of the negotiations under way with the ACP States for a protocol adapting the Third ACP-EEC Convention and laying down transitional measures to take account of the accession of Spain and Portugal;

Whereas quantitative restrictions which may be applied by the Kingdom of Spain or the Portuguese Republic *vis-à-vis* third countries in respect of products listed in Annex II to the Treaty are covered by general provisions adopted by the Council applying to all third countries;

Whereas the Commission should therefore lay down detailed rules of application in respect of these measures;

Whereas the Canary Islands and Ceuta and Melilla do not form part of the customs territory of the Community and in principle autonomous acts or acts adopted under agreement of Community institutions concerning the common commercial policy and relating directly to the import or export of goods do not apply to those territories;

Whereas Article 7 of Protocol No 2 to the Act of Accession concerning the Canary Islands and Ceuta and Melilla provides, however, that customs duties, charges having equivalent effect and trade arrangements applying to imports into the Canary Islands and Ceuta and Melilla of goods coming from a third country may not be less favorable than those applied by the Community in accordance with its international commitments or preferential arrangements *vis-à-vis* such country, provided the country in question accords imports from the Canary Islands and Ceuta and Melilla the same treatment as it accords those from the Community;

Whereas provisions should therefore be adopted for implementation of the trade arrangements applicable to imports into the Canary Islands and Ceuta and Melilla of products originating in the ACP States,

HAS ADOPTED THIS REGULATION:
