of 13 October 1987

Whereas Article 1 (2) of Regulation (EEC) No 1914/87 provides for the calculation of the special elimination levy applicable to the 1986/87 marketing year for each sugar-producing undertaking and for each isoglucose-producing undertaking by multiplying the amount owed by the undertaking as a production levy for the 1986/87 marketing year by a coefficient to be determined; whereas the relevant available data indicates the adoption of a coefficient of 0,38873;

Whereas the second subparagraph of Article 1 (2) of Regulation (EEC) No 1914/87 provides that the special elimination levy shall be paid before 15 December 1987, that is to say within the same period as the basic production levy and the B levy provided for in Article 7 (2) of Commission Regulation (EEC) No 1443/82 of 8 June 1982 laying down detailed rules for the application of the quota system in the sugar sector [2], as last amended by Regulation (EEC) No 2682/84 [3]; whereas to ensure that all Member States determine in good time the balance of the special elimination levy outstanding against each sugar-producing undertaking and each isoglucose-producing undertaking, it is appropriate to provide for a similar timetable to this effect;

Whereas the measure provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,
