COUNCIL REGULATION (EEC) No 3705/87

of 30 November 1987

temporarily suspending the autonomous Common Customs Tariff duties for certain products intended for the construction, maintenance and repair of aircraft

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 32 thereof,

Having regard to the proposal submitted by the Commission,

Whereas Council Regulation (EEC) No 3707/86 of 24 November 1986 temporarily suspending the autonomous Common Customs Tariff duties for certain products intended for use in the construction, maintenance and repair of aircraft [1] provided for the suspension of autonomous customs duties for certain products intended for the construction, maintenance and repair of aircraft; whereas all these suspension measures will expire on 31 December 1987;

Whereas production of the goods is at present inadequate or non-existent within the Community; whereas producers are thus unable to meet the needs of user industries in the Community;

Whereas it is therefore appropriate that it remain possible for industries in the Community, as from 1 January 1988, to be supplied with products imported from third countries which qualify for the suspension of autonomous customs duties for the construction, maintencance and repair of aircraft;

Whereas, taking account of the difficulties involved in accurately assessing the development of the economic situation in the sectors concerned in the near future, these suspension measures should be taken only temporarily by fixing the term of validity of this Regulation to six months to coincide with the interests of Community production;

Whereas, on account of the suspensions concerned, there is a need to take the measures necessary to maintain Community preference, pursuant to Article 32 of the Act of Accession; whereas, in consequence, the duties under suspension should be considered as basic duties within the meaning of Article 30 (1) of the said Act,

HAS ADOPTED THIS REGULATION:

Article 1

From 1 January to 30 June 1988, the autonomous Common Customs Tariff duties for the products listed in the Annex shall be totally suspended, provided that the said products are intended, on conditions to be determined by the competent authorities, for the construction, maintenance and repair of aircraft.

Article 2

The duties under suspension referred to in Article 1 constitute the basic duties on which the Community of Ten applies the successive reductions provided for in Article 31 of the Act of Accession to products which are in free circulation in Spain.

Article 3

This Regulation shall enter into force on 1 January 1988.

[1] OJ No L 343, 5. 12. 1986, p. 1.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 30 November 1987.

For the Council

The President

N. WILHJELM

ANNEX

List of products in respect of which Common Customs Tariff duties are totally suspended where such products are intended for the construction, maintenance and repair of aircraft of an unladen weight exceeding 2 000 kilograms.

Notes for the purpose of the following table:

(a) Category A comprises aeroplanes of an unladen weight exceeding 15 000 kilograms other than those specified under (b),

(b) Category B comprises aeroplanes of the following types: BAC 1-11, Airbus, Concorde, Mercure and F-28,

(c) Category C comprises aeroplanes and helicopters of an unladen weight exceeding 2 000 kilograms but not exceeding 15 000 kilograms.

	ex 8522 90 91 ex 8522 90 99	— Parts and accessories for music reproducers and automatic announcers	All	All	All
85.28		Television receivers (including video montiors and video projectors), whether or not combined in the same housing with radio-broadcast receivers or sound or video recording or reproducing apparatus:			
	ex 8528 10 40	— Video projector consisting of three cathode-ray tubes, each with a lens	All	All	All
85.29		Parts suitable for use solely or principally with apparatus of heading Nos 8525 to 8528:			
	ex 8529 90 99	— Other of other transmitter-receivers excluding VHF radio communication transmitter-receivers complying with standard ARINC 566 A, and on-board intercommunication systems complying with standard ARINC 306 or 412 of receivers excluding radio-broadcasting or television apparatus and receivers for selective calling equipment (SELCAL) complying with standard ARINC 531 or 596 Other, excluding receivers for OMEGA radio navigation systems complying with standard ARINC 580 or 599	All	All	All
85.31		Electric sound or visual signalling apparatus (for example bells, sirens, indicator panels, burglar or fire alarms), other than those of heading No 8512 or 8530:			
	8531 90 00	— Parts	All	All	All
85.32	All codes	Electrical capacitors, fixed, variable or adjustable (pre-set):	All	All	All

85.33	All codes	Electrical resistors (including rheostats and potentiometers), other than heating resistors:	All	All	All
85.34	All codes	Printed circuits:	All	All	All
85.35	All codes	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits (for example switches, fuses, lightning arrestors, voltage limiters, surge suppressors, plugs, junction boxes), for a voltage exceeding 1 000 volts:	All	All	All
85.36	All codes	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits (for example switches, relays, fuses, surge suppressors, plugs, sockets, lamp-holders, junction boxes), for a voltage not exceeding 1 000 volts:	All	All	All
85.37	All codes	Boards, panels (including numerical control panels), consoles, desks, cabinets and other bases, equipped with two or more apparatuses of heading No 8535 or 8536, for electric control or the distribution of electricity, including those incorporating insturments or apparatus of chapter 90, other than switching apparatus of heading No 8517:	All	All	All
85.38	All codes	Parts suitable for use solely or principally with the apparatus of heading Nos 8535, 8536 or 8537:	All	All	All
85.39		Electric filament or discharge lamps, including sealed beam lamp units and ultra-violet or infra-red lamps; arc-lamps:
