Preliminary remarks

This Regulation is designed to provide as precisely as possible information which the Commission needs in order to decide on the applications for subsidy according to the conditions and criteria of Regulation (EEC) No 3528/86.

Taking account of the multitude of situations, this method cannot provide for each individual case or particularity. There will, therefore, be cases where certain information is not available or does not fully explain a particular situation or an individual case.

In these cases, the reasons why it is impossible to answer certain questions should be given on a separate sheet. The applicant may also attach supplementary explanations to each reply for which he considers it necessary to explain fully the circumstances of his situation and/or application.
